Latin name	Common name	Description
<b>Acacia fimbriata</b>	Brisbane Wattle	Fast growing large shrub to small tree with beautiful weeping foliage and dainty yellow fluffy flowers. Best in cooler climates. (Fabaceae)
<b>Acacia podalyriifolia</b>	Mt Morgan Wattle	Fast growing large shrub with silvery phyllodes and yellow flowers. Also known as Queensland Silver Wattle. (Fabaceae)
<b>Acacia wickhamii</b>	Wickham's Wattle	Spreading shrub, bushy from the ground, growing up to 2.5m high. Bright yellow, oblong, puffy flowers attract birds. Native to the Kimberley, N.T and FNQ. Plant in full sun. (Fabaceae)
<b>Acalypha lyonsii</b>	Native Acalypha	Small, attractive, very hardy shrub with tiny, serrated leaves. Prune to thicken up for the first year. Ideal fill in plant. (Euphorbiaceae)
<b>Aceratium doggrelii</b>	Buff Carabeen	Beautiful densely conical tree with upward pointing branches, small leaves. (Elaeocarpaceae)
<b>Acmena "Allyn Magic"</b>	Allyn Magic	(Myrtaceae)
<b>Acronychia acidula</b>	Lemon Aspen	Small tree with large glossy leaves and large white flowers. Fruit suitable for jam making. (Rutaceae)
<b>Adenanthera pavonina</b>	Coralwood	Fast growing spreading tree suitable for shade. Attractive foliage and bright red shiny seeds that can be used to make jewellery. Does well near the beach. (Fabaceae)
<b>Adiantum aethiopicum</b>	Common Maidenhair Fern	A pretty maidenhair type fern with large fronds. Suitable for shady moist positions. (Adiantaceae)
<b>Adiantum hispidulum</b>	Rough Maidenhair Fern	Attractive maidenhair fern. Plant in a shady moist spot. (Adiantaceae)
<b>Aeschynanthus lobbianus*</b>	Lipstick Plant	A trailing plant, perfect for a hanging basket that blooms with orangey red flowers along the stems. Can be grown near a window indoors, or on a patio. In nature, it is an epiphytic plant, growing in tree forks etc. (Gesneriaceae)
<b>Agapetes meiniana</b>	Misty Bells	Vine that produces beautiful bright pink tubular flowers. Plant in protected spot with lots of moisture. Makes good tub plant or hanging basket. (Ericaceae)
<b>Albizia lebeck</b>	Native Rain Tree	Large, spreading shade tree with fluffy, white flowers. Fast growing, very hardy. Excellent for rural and coastal plantings. (Fabaceae)
<b>Alpinia caerulea "Red"</b>	Common Ginger	Clumping foliage plant. Leaves undersides a striking deep maroon colour. Small white flowers. Attractive fruit. Full sun or part shade. Not suitable for dry inland areas. (Zingiberaceae)
<b>Alpinia modesta*</b>	Small Ginger	North QLD small compact rainforest ginger. Narrow dark green leaves. Great for a shady spot. (Zingiberaceae)
<b>Alpinia zerumbet variegata*</b>	Variegated Shell Ginger	Easy to grow ginger with attractive variegated leaves and white pendulous clusters of flowers. Great "filler" for a shady spot. Height to 1.5m. (Zingiberaceae)
<b>Anigozanthos "Big Red"</b>	Big Red	A vigorous hybrid Kangaroo Paw with bright red flowers. Must have an open, well drained, sunny position. (Haemodoraceae)

Visit our Nursery!

We're at 5970 Kennedy Highway, Walkamin (between Mareeba and Atherton) on the Atherton Tablelands, north Queensland.

Business hours: Monday - Saturday 9am to 5pm, Sunday 9am to 2pm; closed public holidays.

Latin name	Common name	Description
<b>Anigozanthos "Yellow"</b>	Yellow Kangaroo Paw	A beautiful yellow clumping Kangaroo Paw that grows well in North QLD. Grows up to 2m. (Haemodoraceae)
<b>Anthocephalus chinensis</b>	Kadam	Extremely fast growing tall tree with large leaves. Attractive yellow and white ball-like flowers. Deciduous. (Rubiaceae)
<b>Araucaria bidwillii</b>	Bunya Pine	One of Australia's tallest and most distinctive conifers, with its domed crown of numerous radiating branches. It has been growing in Australia since the Jurassic - the Age of Dinosaurs. (Araucariaceae)
<b>Araucaria cunninghamii</b>	Hoop Pine	Fast growing, large dark green conifer with branches in whorls and rough bark which has circular hoops. Makes an excellent tub specimen. (Araucariaceae)
<b>Archidendron hirsutum</b>	Cape Laceflower	Rare and spectacular tree. Heads of crimson fluffy flowers. Hardy. (Fabaceae)
<b>Archidendron lucyi</b>	Scarlet Bean	Small tree with large leaves and open habit. Beautiful fluffy white perfumed flowers borne on the branches. Extremely decorative orange seed pods. (Fabaceae)
<b>Argyrodendron polyandrum</b>	Black Tulip Oak	Tree with large glossy leaves, bronze on the underside. Quite hardy. (Malvaceae)
<b>Asplenium australasicum</b>	Bird's Nest Fern	Classic 'birdnest' fern with a ring of undivided bright green fronds up to 70 cm long. Grows on tree trunks in rainforest. (Aspleniaceae)
<b>Asteromyrtus brassii</b>	Cape York Tea Tree	Large shrub or small tree with unusual spherical, deep red flowers along the branches. Hardy. Flowers all year. (Myrtaceae)
<b>Athertonia diversifolia</b>	Atherton Oak	Medium tree with beautiful large lobed juvenile leaves, racemes of cream/white flowers, and blue fruit containing an edible nut. Superb foliage plant. Requires a humid protected position. (Proteaceae)
<b>Atractocarpus fitzalanii</b>	Brown Gardenia	Medium to large shrub with large stiff dark green leaves and attractive white perfumed flowers. (Rubiaceae)
<b>Atractocarpus sessilis</b>	False Gardenia	Medium to large shrub with large stiff dark green leaves and masses of beautiful white flowers with gardenia-like perfume. Very hardy. (Rubiaceae)
<b>Austromyrtus dulcis</b>	Midyim	Small shrub with small pink flowers and edible fruit. Very hardy. Plant in full sun or semi-shade. (Myrtaceae)
<b>Austromyrtus dulcis x tenuifolia</b>	Hybrid midyim	Small bushy slender-leaved shrub with masses of small pale pink flowers followed by edible fruit. (Myrtaceae)
<b>Babingtonia tozerensis</b>	Mt Tozer Myrtle	Small dense shrub with dainty white flowers and lime green foliage. Quite hardy. (Myrtaceae)
<b>Backhousia angustifolia</b>	Northern Myrtle	Medium upright shrub with long narrow leaves. Very hardy. White flowers. (Myrtaceae)
<b>Backhousia citriodora</b>	Lemon Myrtle	Large shrub or small bushy tree with masses of fluffy cream flowers. Crushed leaves have a fantastic lemon scent. Quite hardy. (Myrtaceae)

Latin name	Common name	Description
<b>Backhousia enata</b>	Tully River Myrtle	Large shrub with attractive weeping habit. Small glossy leaves. Does well in the shade. Small white flowers. (Myrtaceae) (Myrtaceae)
<b>Backhousia myrtifolia</b>	Grey Myrtle	Large dense shrub or small tree with masses of white fluffy flowers. Very hardy. (Myrtaceae)
<b>Baeckea "Feather Tips"</b>	Feather Tips	Small shrub. Dainty form with weeping, feathery branches. May be pruned heavily into a dense bush if required. (Myrtaceae)
<b>Baeckea camphorata</b>	Camphor Bush	Small dainty shrub with masses of tiny white flowers. Best in full sun (Myrtaceae)
<b>Baeckea sp. Clarence River</b>	Clarence River Baeckea	Medium shrub with fine dainty foliage and weeping form. Dainty white flowers. (Myrtaceae)
<b>Baeckea sp. Herberton Range</b>	Herberton Baeckea	Very pretty medium shrub with fine, dainty foliage and very weeping habit. Tiny white flowers in profusion. (Myrtaceae)
<b>Baeckea virgata</b>	Heath Myrtle	Medium shrub with weeping form, fine foliage and dainty white flowers. Tolerates part shade and heavy pruning. (Myrtaceae)
<b>Baeckea virgata "Miniature"</b>	Dwarf Baeckea	Ideal for rockeries, this dwarf form of Baeckea spreads to form a small, mounded shrub. Masses of white flowers. Prune lightly after flowering to keep compact. (Myrtaceae)
<b>Banana "Cavendish"</b>	Musa acuminata	A popular variety of banana that produces very sizeable bunches of large fruit. This is the most common variety in the supermarket. A tropical clumping plant growing up to 4m high. Plant in a sunny spot away from wind. (Musaceae)
<b>Banksia integrifolia*</b>	Coast Banksia	Large shrub or small tree with stiff leaves and cream brushes. Very hardy. Plant in full sun in a well drained spot. (Proteaceae)
<b>Banksia plagiocarpa</b>	Blue Banksia or Hinchinbrook Banksia	Large shrub or small tree with stiff leaves and unusual large bluish coloured brushes. Best in high rainfall areas. In drier areas, requires a humid protected position. Not frost tolerant. (Proteaceae)
<b>Banksia robur*</b>	Swamp Banksia	Medium shrub with large stiff serrated leaves and green, changing to cream, flowers. Will tolerate damp situations. (Proteaceae)
<b>Banksia serrata*</b>	Old Man Banksia	This banksia can range in height from a medium shrub to small tree. It has beautiful large yellow flowers. Plant in full sun. (Proteaceae)
<b>Banksia spinulosa*</b>	Hairpin Banksia	Small shrub. Dense habit with spectacular large gold Banksia flowers. Best in full sun. Suitable for most areas. (Proteaceae)
<b>Barringtonia calyprata</b>	Mango Pine	Very handsome tree with large leaves and huge racemes of fluffy white flowers that attract birds. (Lecythidaceae)
<b>Blepharocarya involucrigera</b>	Rose Butternut	Tree with shiny leaves and red new growth. Flowers followed by woody umbrella shaped structures. Good timber. (Anacardiaceae)

Visit our Nursery!

We're at 5970 Kennedy Highway, Walkamin (between Mareeba and Atherton) on the Atherton Tablelands, north Queensland.

Business hours: Monday - Saturday 9am to 5pm, Sunday 9am to 2pm; closed public holidays.

Latin name	Common name	Description
<b>Boronia keysii</b>	Boronia	An evergreen shrub with pink star shaped flowers appearing in early spring. Prefers light, well drained soil in a protected position. Is drought resistant but frost tender. (Rutaceae)
<b>Brachychiton acerifolius*</b>	Flame Tree	Produces masses of brilliant red flowers. Deciduous when flowering. Hardy and fast growing. Food plant of Common Aeroplane and Penciled Blue Butterflies. (Authorised Propagators Qld.No. APQF198/000050) (Malvaceae)
<b>Brachychiton grandiflorus</b>	Coen Kurrajong	Small tree with large heart-shaped leaves. Large pink flowers on branches. Hardy. (Authorised Propagators Qld.No. APQF198/000050) (Malvaceae)
<b>Brachychiton populneus*</b>	Kurrajong	Medium to large tree with dense, rounded crown. Small cream and brown flowers. Ideal for dry inland areas. (Authorised Propagators Qld.No. APQF198/000050) (Sterculiaceae)
<b>Brahmi</b>	Bacopa monniera	Used in traditional Indian medicine for over 3000 years and recent studies suggest it may improve memory and learning. Eat fresh or dry and make tea. Very easy to grow; best in damp conditions. (Scrophulariaceae)
<b>Breynia sp. Iron Range</b>	Red Coffee-Bush	Shrub with red new growth and masses of small red berries. Food plant of Common Grass Yellow Butterfly. (Phyllanthaceae)
<b>Brunfelsia latifolia*</b>	Yesterday, Today and Tomorrow	Bushy shrub with sweetly scented purple flowers that fade to white over a number of days, so that you have all different shades of colour on the bush at the one time. Great as a fragrant hedge. Full sun to part shade. (Solanaceae)
<b>Buchanania arborescens</b>	Satinwood	Bushy tree with large leaves like those of a mango. Small black fruit are very good to eat. Hardy. (Anacardiaceae)
<b>Buckinghamia celsissima</b>	Ivory Curl Tree	Large bushy shrub or small tree with extremely spectacular display of cream flowers. Very hardy. (Proteaceae)
<b>Buxus microphylla*</b>	Korean Box	A small, dense, rounded shrub, that is useful for small formal hedges and edges, topiary and bonsai. Fairly drought hardy and can be grown in semi shade or full sun. Height to 1.5m. (Buxaceae)
<b>Caesalpinia ferrea</b>	Leopard Tree	An attractive shade tree with a broad, dense crown and smooth, mottled grey and white bark. Blooms with bright yellow flowers. Height to 15m. Dense, high quality timber. (Fabaceae)
<b>Callipteris prolifera</b>	Tick Fern	Very attractive fern with large leaves to 1m long. Small plantlets develop along the leaf and look like ticks. Cold sensitive. (Athyriaceae)
<b>Callistemon "Cameo Pink"</b>	Cameo Pink	Medium shrub with attractive rose pink flowers. Does best in full sun. Usually frost resistant. (Myrtaceae)
<b>Callistemon "Captain Cook"</b>	Captain Cook	Compact, well shaped small shrub. Showy red bottlebrush flowers. Suitable as a screen. (Myrtaceae)
<b>Callistemon "Dawson River"</b>	Dawson River	Tall weeping shrub with red flowers. Attractive to birds. Very hardy. Will tolerate both wet and dry conditions. Can be pruned to act as a screening plant. (Myrtaceae)
<b>Callistemon "Emerald Beauty"</b>	Emerald Beauty	Medium shrub growing with dense compact foliage and pink new growth. Showy red bottlebrush flowers with yellow tips. Hardy and suitable for most areas. (Myrtaceae)
<b>Callistemon "Endeavour"</b>	Endeavour	Medium upright shrub. Well shaped and hardy. Large bright red bottlebrush flowers. Open sunny position. (Myrtaceae)

Latin name	Common name	Description
<b>Callistemon "Eureka"</b>	Eureka	Tall upright shrub with brilliant purple flowers in profusion in spring. Showy pink new growth. Suitable for screening. (Myrtaceae)
<b>Callistemon "Glasshouse Country"</b>	Glasshouse Country	A tall shrub with bottlebrush flowers. The foliage is stiff and sharply pointed with pale young growth. The main flowering periods are spring and autumn. (Myrtaceae)
<b>Callistemon "Hannah Ray"</b>	Hannah Ray	Hardy medium to large shrub. Soft new growth. Weeping form. Bright red flowers. Makes a good screen. (Myrtaceae)
<b>Callistemon "Harkness"</b>	Harkness	Large rounded shrub. Masses of bright red bottlebrush flowers. A very popular cultivar. (Myrtaceae)
<b>Callistemon "Kings Park Special"</b>	Kings Park	A robust, medium to large shrub with deep red flowers in profusion. Prune to shape. Remove old flowers to keep tidy. Suitable for screening. (Myrtaceae)
<b>Callistemon "Lavender Shower"</b>	Lavender Shower	Small shrub. Beautiful lavender flowers for most of the year. Does best in full sun. Best in cooler climates. (Myrtaceae)
<b>Callistemon "Little John"</b>	Little John	Small shrub with dense blue/green foliage and bright red flowers. Very hardy, but slow growing. Must have full sun. Suitable for most areas. (Myrtaceae)
<b>Callistemon "Mauve Mist"</b>	Mauve Mist	Small to medium shrub with beautiful mauve bottlebrush flowers. Best in cooler climates (Myrtaceae)
<b>Callistemon "Mr. Foster"</b>	Mr Foster	Hardy medium to large dense shrub. Red new growth. Large, bright red flowers that are very showy. Tolerates coastal conditions. (Myrtaceae)
<b>Callistemon "Pindi Pindi"</b>	Pindi Pindi	Medium to large shrub with attractive semi-weeping habit. Red flowers. Very hardy. Does best in full sun. Suitable for most areas. (Myrtaceae)
<b>Callistemon "Pink Alma"</b>	Pink Alma	Large shrub with bright pink flowers. Attractive pink new growth. Sun or part shade. Usually frost resistant. (Myrtaceae)
<b>Callistemon "Pink Champagne"</b>	Pink Champagne	Medium shrub with attractive dainty blue/green foliage. Large bottlebrush flowers which are champagne pink. Benefits from regular pruning. Does best in full sun. (Myrtaceae)
<b>Callistemon "Prolific"</b>	Prolific	Large shrub with dense foliage. Ideal for use as a screen plant. Large red flowers for most of the year. Suitable for most areas. (Myrtaceae)
<b>Callistemon "Purple Splendour"</b>	Purple Splendour	Open shrub. Display of showy mauve-pink flowers. Benefits from regular pruning. Bird attracting. Best in cooler climates. (Myrtaceae)
<b>Callistemon "Red Devil"</b>	Red Devil	Medium shrub with showy red flowers. Does best in full sun. Usually frost resistant. (Myrtaceae)
<b>Callistemon "Reeves Pink"</b>	Reeves Pink	Dense, medium shrub. Compact shape. Bright, lolly pink bottlebrush flowers in profusion. A hardy and very showy plant. (Myrtaceae)
<b>Callistemon "Rocky Rambler"</b>	Rocky Rambler	Spreading prostrate plant. Prickly foliage. Bright red flowers. Needs full sun, open position. (Myrtaceae)

Latin name	Common name	Description
<b>Callistemon "Rose Opal"</b>	Rose Opal	Small shrub. Deep red brushes which age to rose coloured. Plant in full sun for best results. Makes a good screen. (Myrtaceae)
<b>Callistemon "The Bluff"</b>	The Bluff	Medium shrub with dense foliage. Pink bottlebrush flowers fade to salmon, then cream. (Myrtaceae)
<b>Callistemon "Western Glory"</b>	Western Glory	A medium upright shrub with dark red-mauve bottlebrush flowers. Must be grown in full sun. A hardy shrub, but flowers best in cool climates. (Myrtaceae)
<b>Callistemon "White Anzac"</b>	White Anzac	Small shrub. Bright green foliage with white flowers that attract birds. (Myrtaceae)
<b>Callistemon "Wild River"</b>	Wild River	Dense shrub. Lovely fresh green foliage and red flowers. Plant in open sunny spot. Good screen. (Myrtaceae)
<b>Callistemon "Wilderness Red"</b> **	Wilderness Red	An attractive, bushy, weeping shrub to 3m tall, perfect for screening. Bears large red nectar-filled flowers that attract birds. (Myrtaceae)
<b>Callistemon "Wilderness White"</b>	Wilderness White	Medium shrub with attractive pale green foliage. Large spikes of creamy white flowers for most of the year. For full sun or part shade. Suitable for most areas. (Myrtaceae)
<b>Callistemon "Wildfire"</b>	Wildfire	Medium shrub. Dense foliage and large bright red flowers. Does best in full sun. Makes a good screen. (Myrtaceae)
<b>Callistemon "Yuruga Red"</b>	Yuruga Red	Large shrub with dense foliage. Ideal for use as a screen plant. Large red flowers for most of the year. Suitable for most areas. (Myrtaceae)
<b>Callistemon recurvus "Tinaroo Dazzler"</b>	Tinaroo Dazzler	Medium weeping shrub with small leaves and bright red flowers. Very hardy. (Myrtaceae)
<b>Callistemon viminalis "Rocky River Red"</b>	Rocky River Red	Medium to large shrub with blue/green foliage and bright red flowers. Does best in full sun but will flower in part shade. (Myrtaceae)
<b>Calophyllum inophyllum</b>	Satin Touriga	Large, handsome spreading tree with large dark green leaves. Pretty white flowers and round green fruit. An excellent shade tree for beach areas. (Clusiaceae)
<b>Cananga odorata</b>	Ylang-ylang	Fast growing tree with heavily perfumed yellow flowers. Frost tender. (Annonaceae)
<b>Carallia brachiata</b>	Freshwater Mangrove	Medium, erect tree with stiff glossy leaves and furrowed corky bark. Excellent for damp spot. Food plant of beautiful yellow and blue 4 O'Clock Moth. (Rhizophoraceae)
<b>Carissa grandiflora</b>	Desert Star	A small, compact shrub to 1m tall with glossy round leaves and white, sweetly scented, star shaped flowers. A hardy, and drought tolerant plant. Great for coastal areas as it can handle salty winds. (Apocynaceae)
<b>Carmona retusa</b>	Carmona	Small shrub with dark green, stiff foliage and small white flowers on arching twigs. Very hardy. Full sun or part shade. (Boraginaceae)
<b>Carnarvon montana</b>	Red Silky Oak	Beautiful large shrub or small tree with unusual compound leaves. Fantastic foliage with very showy rusty brown new growth. Ideal tub plant. (Proteaceae)

Latin name	Common name	Description
<b>Cassia queenslandica</b>	Yellow Shower	Small tree with spectacular racemes of bright golden cassia flowers. Hardy. (Fabaceae)
<b>Cassia sp. Paluma Range</b>	Golden Shower	Small tree with glossy dark green foliage, spectacular racemes of bright yellow flowers, and beautiful brown papery bark. A beautiful native cassia. Very hardy. (Fabaceae)
<b>Cassine melanocarpa</b>	Black Olive Plum	Large shrub or small tree, naturally occurring in monsoon forest and drier rainforest. Small white flowers followed by a black fleshy fruit. (Celastraceae)
<b>Castanospermum australe</b>	Black Bean	Medium spreading tree renowned for its lovely timber. Masses of yellow flowers along the branches. Large decorative woody seed pods. Often slow growing for first few years. Benefits from protection when young. (Fabaceae)
<b>Casuarina glauca "Cousin It"</b>	Cousin It	A dense groundcover casuarina, spreading up to 2.5m wide. An unusual and attractive feature plant. Very hardy and a good weed suppressant, because it is so thick. Best in full sun. (Casuarinaceae)
<b>Cerbera floribunda</b>	Cassowary Plum	A medium tree. The fragrant flowers are white or cream. The blue fruits are avidly eaten by cassowaries. Needs protection from hot sun when young. (Apocynaceae)
<b>Citrus australasica*</b>	Finger Lime	Small, dense, bushy shrub with sausage-like lime-flavoured fruit. Very hardy, but slow growing. Suitable for making drinks. Not suitable for dry inland areas. (Rutaceae)
<b>Citrus garrawayae*</b>	Mt White Lime	Finger lime from Cape York. Good bush tucker. Small, dense, bushy shrub with sausage-like lime-flavoured fruit suitable for making drinks. (Rutaceae)
<b>Citrus inodora*</b>	Russell River Lime	Shrubby tree with glossy leaves and spines on twigs. Edible oblong lime fruit up to 6.5 cm long and 3 cm diameter. Lowland rainforest plant, must be in shade with plenty of moisture. (Rutaceae)
<b>Cleistanthus apodus</b>	Weeping Cleistanthus	Medium weeping shrub with beautiful pink new growth. Hardy. A great screen. (Euphorbiaceae)
<b>Cleistanthus hylandii</b>	Bernie's Cleistanthus	Hardy large shrub to small tree with extremely beautiful bright red to purple new growth. From Cape York Peninsula. A great screen. (Euphorbiaceae)
<b>Cleistanthus semiopacus</b>	Rusty Cleistanthus	Medium weeping shrub with pink new growth. Hardy. A great screen. (Euphorbiaceae)
<b>Coix lacryma-jobi</b>	Job's Tears	An easy to grow multi purpose plant. The seeds are used for jewellery, hence the other common name "Necklace Plant". They naturally have a hole through the centre, ready for threading. Seed is also an edible grain (cook first). (Poaceae)
<b>Cordyline "Purple Prince"</b> **	Purple Prince	An eye-catching tropical foliage plant with vivid purple tinted leaves. Best in part shade. (Asparagaceae)
<b>Cordyline murchisoniae</b>	Palm-Lilly	Small, slender-stemmed rainforest palm-lily. Panicles of small mauve flowers. Good foliage tub plant. Best in shade or semi-shade. (Asparagaceae)
<b>Corymbia ptychocarpa x ficifolia*</b>	Smouldering Red	A show stopping small feature tree to 5m with large clusters of bright red flowers during summer, and attractive weeping foliage. Attracts birds. (Myrtaceae)

Visit our Nursery!

We're at 5970 Kennedy Highway, Walkamin (between Mareeba and Atherton) on the Atherton Tablelands, north Queensland.

Business hours: Monday - Saturday 9am to 5pm, Sunday 9am to 2pm; closed public holidays.

Latin name	Common name	Description
<b>Corymbia ptychocarpa*</b>	Swamp Bloodwood	Small wide-branching tree with large glossy leaves, particularly in juvenile stage. Clusters of large white, pink or red flowers. Can flower when 3 to 4 years old. (Myrtaceae)
<b>Costus potierae</b>	Native Crepe Ginger	Rhizomatous plant. Leaves held in a spiral round the stems. Flowers white with yellow markings, in heads on the stem tips. Needs shade, ample moisture and well manured soil. (Zingiberaceae)
<b>Crinum menehune*</b>	Red Bog Lilly	Attractive dwarf crinum with vibrant dark red foliage and pink flowers. Great for a wet spot. Sun or shade. Height to 1m. (Amaryllidaceae)
<b>Crinum pedunculatum*</b>	Mangrove Lily	Large lily with very showy, perfumed flowers. Very hardy and suitable for wet sites. (Liliaceae)
<b>Croton phebaloides</b>	White Croton	Lovely small shrub. Attractive narrow foliage. Quite hardy. Grow in full sun or semi shade. (Euphorbiaceae)
<b>Croton variegatum assorted*</b>	Croton	A colourful tropical foliage plant, which comes in more varieties than you can poke a stick at! Can be grown in full sun or light shade. (Euphorbiaceae)
<b>Cryptocarya laevigata</b>	Glossy Laurel	Bushy shrub/small tree with shiny green foliage, pale green new growth and bright red fruit. Food plant of the Blue Triangle Butterfly. Excellent for understorey or shade. (Lauraceae)
<b>Cryptocarya mackinnoniana</b>	Rusty Laurel	Tree with large stiff leaves and brilliant red drooping new growth. Fruit attracts birds. Food plant of Blue Triangle Butterfly. (Lauraceae)
<b>Cupaniopsis anacardioides</b>	Tuckeroo	Small to medium tree with bright red new growth. Showy display of orange fruit. Excellent shade tree. Very hardy. (Sapindaceae)
<b>Cupaniopsis diploglottoides</b>	Velvet Tamarind	A beautiful shrub growing 2-5m, with large compound leaves and stunning pink new growth. A little touchy to establish, needing extra water and protection at first, but well worth the effort. Shade or semi-shade. Sapindaceae. (Sapindaceae)
<b>Cupaniopsis flagelliformis</b>	Brown Tuckeroo	Very attractive tree with lovely serrated compound leaves, soft pink new growth and showy orange-yellow fruit. (Sapindaceae)
<b>Curculigo recurvata*</b>	Weevil Lily	A short, stout herbaceous plant with a lily-like or palm-like appearance. Broad strap-like leaves. Flowers on erect heads. (Hypoxidaceae)
<b>Cyathea cooperi</b>	Common or Lacy Treefern	Fast growing hardy tree fern. Slender trunk with crown of bright green fronds to 2 metres long. Takes full sun in moist areas. (Cyatheaceae)
<b>Cymbopogon refractus</b>	Barbed Wire Grass	Small tussock grass with thin leaves and tall seed heads that look like barbed wire. Very hardy; will grow in poor soil. Full sun to part shade. (Poaceae)
<b>Cyrtostachys renda*</b>	Lipstick Palm	Multi-stemmed palm with a beautiful bright red trunk that can grow up to 15m tall (eventually)! Slow growing. A statement tropical plant. Not suitable for cooler tableland areas. Best in coastal areas. (Arecaceae)
<b>Darlingia darlingiana</b>	Brown Silky Oak	Fast growing tree with attractive lobed leaves. Large spikes of white flowers. Fairly hardy. (Proteaceae)

Latin name	Common name	Description
<b>Davidsonia pruriens</b>	Davidson's Plum	Small slender tree with large lobed leaves and masses of large purple plum-like fruit. Makes good jam, salted plums or wine. Best in high rainfall areas. (Davidsoniaceae)
<b>Delonix regia var. flavida*</b>	Yellow Poinciana	Large, spreading tree which bears a flamboyant show of bright yellow flowers during summer. Much less common than the Red Poinciana. Deciduous during dry periods. (Fabaceae)
<b>Dianella "Cape York Dwarf"***</b>	Cape York Dianella	Understorey compact clumping plant from Cape York with small blue star-like flowers followed by purple berries. Part/full shade. (Hemerocallidaceae)
<b>Dianella brevipedunculata</b>	Flax Lily	Small clumping plant with showy blue flowers and fruit. Suitable for sun or shade. Rosella Parrots eat the fruit. (Hemerocallidaceae)
<b>Dianella caerulea</b>	Blue Flax Lily	Small clumping plant with broad upright leaves. Blue flowers on long stalks. Best in semi-shade. (Hemerocallidaceae)
<b>Dichorisandra thyrsiflora*</b>	Blue Ginger	Tropical clumping ginger like plant to 1.5m tall, bearing eye-catching purple flower spikes over Summer and Autumn. Likes a moist, shady position. (Commelinaceae)
<b>Dictyoneura obtusa</b>	Swamp Tamarind	Slender small tree with purple new growth. Glossy serrated leaves. Fairly hardy. Thrives in a damp spot. (Sapindaceae)
<b>Dietes bicolor*</b>	African Iris	Very hardy clumping strappy leaved plant with attractive yellow flowers held on stalks above the foliage. Best in sun or part shade. (Iridaceae)
<b>Dietes iridioides</b>	Butterfly Iris	A clumping grassy leaved plant to 80cm high, bearing very attractive white, purple and yellow flowers throughout the year. Very hardy and low maintenance. Suitable for sun or part shade. (Iridaceae)
<b>Dillenia alata</b>	Red Beech	Tree for coastal areas, particularly poorly drained spots. Trunk has beautiful flaky coppery bark. Bright yellow flowers. (Dilleniaceae)
<b>Diospyros littorea</b>	Sea Ebony	Very slow growing shrub to small tree with glossy green leaves. Grows naturally on the coast, close to mangrove stands. Orange-yellow fruit attracts birds. Wood is very hard and beautiful. (Ebenaceae)
<b>Diploglottis bernieana</b>	Bernie's Tamarind	Small slender palm shaped tree with huge bright green compound leaves and large, furry brown edible fruit. Decorative foliage. (Sapindaceae)
<b>Diploglottis bracteata</b>	Boonjee Tamarind	Small tree with large fruit which has delicious bright orange fruit flesh. Suitable for eating raw or in drinks. Best in high rainfall areas. (Sapindaceae)
<b>Diploglottis diphylostegia</b>	Northern Tamarind	Small tree with large attractive leaves, and fruit which makes good jam or drinks. (Sapindaceae)
<b>Diploglottis harpullioides</b>	Harpullia Tamarind	Rare understorey shrub from Home Rule and Babinda area. Large green fruit with red flesh suitable for making jams and drinks. Plant in a shady spot. (Sapindaceae)
<b>Diploglottis smithii</b>	Smith's Tamarind	Small hardy tree with beautiful foliage and silvery new growth. Large decorative fruit with acid, edible flesh. Good for drinks. (Sapindaceae)
<b>Dissiliaria surculosa</b>	Dissiliaria	Extremely rare plant from Cape York Peninsula. Medium to large shrub with very attractive, dense foliage. Pyramid form. Quite hardy. Sun or shade. (Euphorbiaceae)

Latin name	Common name	Description
<b>Doodia aspera</b>	Prickly Rasp Fern	Small spreading fern with colourful new growth. Can grow in shade or sun, as long as it is kept quite moist. (Blechnaceae)
<b>Doodia media</b>	Native Fern	A lovely native fern. Plant in a shady moist spot. (Blechnaceae)
<b>Doryphora aromatica</b>	Nthn Sassafras	Medium tree with very glossy leaves. Does best in moist areas. Timber tree for moist areas. (Atherospermataceae)
<b>Dysoxylum parasiticum</b>	Yellow Mahogany	This Yellow Mahogany produces beautiful creamy-brown flowers on the trunk right to the ground. Unless planted in high rainfall area it will remain a size of a large shrub. (Meliaceae)
<b>Elaeocarpus grandis</b>	Blue Quandong	Tall, fast growing rainforest tree with straight bole and tiered branches. Edible blue fruit followed bell shaped flowers. Grown for hardwood timber. Very hardy. (Elaeocarpaceae)
<b>Elaeocarpus reticulatus*</b>	Prima Donna	A beautiful tree bearing masses of delicate pink fringed flowers in Spring, which are followed by blue fruits which attract seed eating birds. Fast growing. An excellent feature tree. (Elaeocarpaceae)
<b>Eucalyptus phoenicea*</b>	Scarlet Gum	Small to medium tree with spectacular, bright orange flowers. Quite hardy. (Myrtaceae)
<b>Eucryphia wilkiei*</b>	Wilkie's Eucryphia	A very rare shrub from very high altitude NQ rainforests. Unusual greyish foliage and large, white, rose-like flowers with an unusual fragrance that are very attractive to birds. Suited to high rainfall areas. \$15.00 (Cunoniaceae)
<b>Fagraea berteriana</b>	Cape Jitta	Medium shrub with large bright green almost succulent stiff leaves in pairs, and huge cream flowers with beautiful perfume. Quite hardy. (Loganiaceae)
<b>Faradaya splendida</b>	Potato Vine	Large vigorous vine with large white flowers followed by large white fruit which resemble potatoes. Fruit eaten by Cassowaries and other rainforest animals. (Lamiaceae)
<b>Festuca glauca*</b>	Blue Fescue	Small clumping ornamental grass, forming dense bluey grey tufts. Bears attractive wheat-like seed heads. Full sun. (Poaceae)
<b>Ficus benjamina</b>	Weeping Fig	Large spreading tree suitable as a shade tree. Small red fruit which are very attractive to birds. Ideal tub plant. (Moraceae)
<b>Ficus benjamina "Midnight Beauty"</b>	Midnight Beauty	A perfect specimen for bonsai or indoors. Dark leaved form of weeping fig. Will grow to a large shady tree if planted in the garden. Hardy and adaptable. Full sun to well lit indoors. (Moraceae)
<b>Ficus fraseri</b>	Watery Fig	Extremely hardy, large shrub with sand-papery leaves. Small red fruit are very attractive to birds. Suitable for full sun or semi-shade (Moraceae)
<b>Ficus hillii "Flash"</b>	Flash	A dense, compact form of Ficus hillii, that is used for screening as a clipped hedge, and topiary. Lends a formal, manicured look to the garden. Fast growing and can be grown in sun or part shade. It is a fig though, so don't plant close to pipes or drains! (Moraceae)
<b>Ficus longifolia binnendijkii</b>	Sabre Leaf Fig	An attractive fig with glossy, long, thin leaves, lending an oriental look to the garden. Great an an indoor or patio plant. Sun or shade. (Moraceae)

Latin name	Common name	Description
<b>Ficus microcarpa "Green Island"</b> **	Green Island Fig	Lush, sprawling shrub with vibrant green glossy foliage. Great as a low maintenance ground cover for sun or shade. Also recommended for Bonsai. (Moraceae)
<b>Ficus microcarpa var. hillii</b> *	Hill's Weeping Fig	A very attractive medium to large sized tree with glossy foliage, often used as a street tree. Can be heavily pruned and used for topiary. Sun or shade. (Moraceae)
<b>Ficus pantoniana</b>	Climbing Fig	Australia's only climbing fig. Grow in a hanging basket or over a stump. Does best in semi-shade. Water regularly. (Moraceae)
<b>Ficus platypoda</b>	Rock Cracker Fig	Very hardy tree with small leaves and small rounded fruit. Attracts birds (Moraceae)
<b>Ficus pumila</b>	Climbing Fig	Small leaved climbing fig, great for covering old, unsightly fences and walls. A very easy, low maintenance way to create a "green wall"! Will damage paintwork and finishes though, so don't use on any brand new structures. Sun or shade. (Moraceae)
<b>Flacourtia sp. Shiptons Flat</b>	Cape Plum	Large, dense, bushy shrub with brilliant red new growth and compact rounded shape. Edible plum-like fruit. A very ornamental plant. Plants may be male or female. Male plants will not bear fruit. (Flacourtiaceae)
<b>Flindersia australis</b>	Crows Ash	Medium to tall tree with dark glossy green foliage. Sprays of white flowers are followed by ornamental woody fruit used widely for floral decoration. Excellent timber. (Rutaceae)
<b>Flindersia bennettiana</b>	Bennett's Ash	Medium tree from southern Queensland with a neat crown. Good small shade tree. Masses of white flowers. (Rutaceae)
<b>Flindersia brayleyana</b>	Queensland Maple	Beautiful timber tree, with masses of white flowers followed by decorative woody seed pods. Best in high rainfall areas in good soil. (Rutaceae)
<b>Furcraea foetida mediopicta</b> *	Mauritius Hemp	Thornless agave-like plant with attractive variegated leaves. Sun or part shade. Likes good drainage. Height to 1m. (Asparagaceae)
<b>Gardenia augusta</b>	Gardenia "Magnifica"	A classic, glossy leaved shrub, growing 1.5 - 2m tall, great for hedging. Deliciously scented, large, white flowers. Can grow in sun or part shade, but leaves may scorch in full-on afternoon sun. (Rubiaceae)
<b>Gardenia macgillivraei</b>	Wenlock Gardenia	Medium to large shrub with large, perfumed, white flowers. Very hardy. Sun or semi-shade (Rubiaceae)
<b>Gardenia psidioides</b>	Hann Gardenia	Prostrate spreading native gardenia with white flowers. Excellent ground cover. (Rubiaceae)
<b>Gardenia scabrella</b>	Star Flower	Small, compact shrub from Cape York with stiff glossy leaves. Large white flowers all year round. Very hardy. Sun or semi-shade. (Rubiaceae)
<b>Gardenia sp. Glennie River</b>	Glennie River Gardenia	A very hardy native gardenia with prostrate habit. Large, stiff leaves and white flowers. Does best in dappled shade. (Rubiaceae)
<b>Gardenia sp. Weipa</b> *	Weipa Gardenia	Small, compact shrub with stiff glossy leaves. Showy, wheel-like white flowers all year round. Very hardy. For sun or shade. (Rubiaceae)

Latin name	Common name	Description
<b>Gordonia axilaris*</b>	Fried Egg Plant	A perfect compact shade tree for a small garden, growing to 5m tall with a bushy, dome shaped canopy. Blooms prolifically with large white and yellow flowers over Autumn and Spring, hence the common name! Sun or part shade. (Theaceae)
<b>Gossia floribunda</b>	Cape Ironwood	Dense medium shrub with spectacular masses of small white flowers. Very hardy. Sun or part shade. (Myrtaceae)
<b>Graptophyllum "Red Emu"</b>	Emu Creek Fuchsia	Very hardy, small shrub with thick bushy habit. Bright red fuchsia type flowers. (Acanthaceae)
<b>Graptophyllum "Stumpy Dave"</b>	Stumpy Dave	A hardy, small shrub. It bears masses of scarlet red fuchsia type flowers. It looks great in a tub, on a patio or in mass plantings on a garden edge. (Acanthaceae)
<b>Graptophyllum excelsum</b>	Scarlet Fuchsia	Very hardy, small shrub with thick bushy habit. Masses of bright red flowers several times each year. (Acanthaceae)
<b>Graptophyllum ilicifolium</b>	Holly Fuchsia	Small shrub. Stiff, holly-like leaves and deep purple/red flowers. Very hardy. For full sun or semi-shade. (Acanthaceae)
<b>Graptophyllum spinigerum</b>	Native Fuchsia	Small shrub. Attractive glossy foliage and small white flowers. For sun or shade. Very hardy. (Acanthaceae)
<b>Grevillea "Amber Blaze"***</b>	Amber Blaze	A low growing, spreading grevillea to 1m high, bearing beautiful amber coloured flowers all year round, which attract birds. Plant in a sunny, well drained position. (Proteaceae)
<b>Grevillea "Caboolture"***</b>	Caboolture	Medium to large bushy shrub. Very fast growing and hardy, with showy salmon flowers for most of the year. Requires good drainage and full sun. Attracts birds. (Proteaceae)
<b>Grevillea "Caloundra Gem"***</b>	Caloundra Gem	Medium to large bushy shrub with deeply divided foliage. Very fast growing and hardy, with showy salmon flowers for most of the year. Requires good drainage and full sun. Attracts birds. (Proteaceae)
<b>Grevillea "Canberra Gem"***</b>	Canberra Gem	Spreading, medium sized shrub. Upright spiky foliage, bright pink spidery flowers. Full sun, well drained position. Prune after flowering. Tolerates frost and cold winters. Good for Herberton to Ravenshoe. (Proteaceae)
<b>Grevillea "Cooroora Cascade"***</b>	"Cooroora Cascade"	A low growing grevillea to 0.5m. Can grow very wide. It has beautiful long golden toothbrush flowers that occur during late summer to the end of autumn. Very bird attracting. Likes a well-drained position in full sun. (Proteaceae)
<b>Grevillea "Firesprite"***</b>	Firesprite	Small to medium shrub with bright red flowers that attract nectar feeding birds. (Proteaceae)
<b>Grevillea "Golden Lyre"***</b>	Golden Lyre	A spectacular small shrub, this hybrid grevillea has green/yellow brush flowers occurring over a long period in summer and autumn. Can grow very wide. Very bird attracting. Likes a well-drained position in full sun. (Proteaceae)
<b>Grevillea "Honey Gem"</b>	Honey Gem	Large spreading shrub with deeply divided, mid green leaves. Nectar-laden orange flowers are produced throughout the year. Attracts birds. Fast growing, hardy. Excellent screen. Full sun. (Proteaceae)
<b>Grevillea "Honeycomb"***</b>	Honeycomb	Erect shrub naturally bushy with dense foliage to the ground. Cream flowers prolific in early spring attracting birds. Good screen plant for most areas except in areas with cold winters. (Proteaceae)

Latin name	Common name	Description
<b>Memecylon pauciflorum</b>	Memecylon	Small, very hardy rainforest shrub with beautiful tiny lilac flowers. (Myrtaceae)
<b>Metrosideros "Fiji"</b> *	Fiji	(Myrtaceae)
<b>Metrosideros queenslandica</b>	Golden Myrtle	Small to medium tree with dense foliage. Spectacular heads of bright yellow flowers. Requires regular watering. Suitable only for high rainfall areas. (Myrtaceae)
<b>Michelia figo</b> *	Port Wine Magnolia	A bushy lush green shrub which bears strongly scented purple and cream flowers. Some people say they smell like bubblegum. Great for screening. (Magnoliaceae)
<b>Millettia pinnata</b>	Indian Beech	Medium spreading tree with large dark green leaves. Racemes of pale purple/white flowers. Suitable for beach planting. Seeds may be used as a source of biodiesel. (Fabaceae)
<b>Miscanthus sinensis</b> *	Silver Feather Grass	A clumping grass grown mainly for it's graceful foliage and beautiful silver plumes of flowers. Can be used as a low screen or barrier. Height to 2m. Full sun. (Poaceae)
<b>Morinda citrifolia var citrifolia</b>	Cheese Fruit	Small spreading tree with glossy foliage. Small white flowers. Strong smelling large white fruit. Suitable for beach planting. (Rubiaceae)
<b>Murraya paniculata dwarf</b> *	Min-a-Min	A very dense, dwarf form of Mock Orange, great for edging. Can be pruned into all kinds of shapes, or left alone as a bushy blob. Best in full sun, but will grow in part shade. Scented white flowers. (Rutaceae)
<b>Murraya paniculata</b> *	Mock Orange	Very dense medium shrub with glossy leaves and showy, fragrant white flowers. Perfect for screening off your neighbours! Sun or part shade. Hardy. (Rutaceae)
<b>Myristica insipida</b>	Nutmeg	Bushy tree with dark green leaves, glossy above and paler beneath. Brown oblong fruit with lattice-like red aril (nutmeg) that birds like. Scented flowers. (Myristicaceae)
<b>Myrsine subsessilis variegated</b>	Variegated Red Muttonwood	Shrub with attractive red new growth and thick glossy leaves. Masses of small white flowers cover the branches. Purple fruit, attracts birds. Does best in semi-shade. (Myrsinaceae)
<b>Nauclea orientalis</b>	Leichhardt Tree	Large handsome stately tree. Very large leaves and unusual spherical flowers. Excellent for a damp spot. (Rubiaceae)
<b>Neofabricia myrtifolia</b>	Yellow Flowered Tea-Tree	Small shrub. Attractive, large yellow flowers. Beautiful pink to red new growth. Quite hardy. (Myrtaceae)
<b>Neolitsea dealbata</b>	White Bollygum	Bushy small tree. Furry pink new growth. Fruit attracts birds. Food plant of Blue Triangle Butterfly. (Lauraceae)
<b>Neostrearia fleckeri</b>	Flecker's Hard Alder	Rare, medium-sized evergreen rainforest tree with alternate leaves and pendent spikes of white flowers in winter (May to July). Needs high rainfall and shelter. (Hamamelidaceae)
<b>Noahdendron nicholasii</b> *	Noahdendron	Extremely rare plant from the Daintree area. Brilliant pink to red new growth. Bright pink flowers. Best in semi-shade. (Authorised Propagators Qld.No. APQF198/000050) (Hamamelidaceae)
<b>Nymphoides indica</b> *	Water Snowflake	Dense native floating lilly with small white fringed flowers. Once of the easiest "water lillies" to grow. Will only grow in water shallower than 2m. (Menyanthaceae)

Latin name	Common name	Description
<b>Ophiopogon japonicus "nana"</b>	Mini Mondo Grass	Neat, clumping grass to 75mm tall, useful as a border plant or between pavers or stepping stones, to create a softer look. Looks best in part to full shade. Quite hardy. (Asparagaceae)
<b>Orthosiphon aristatus "Mauve"</b>	Cat's Whiskers - mauve	Bushy, herbaceous plant. Spikes of showy purple flowers. Sun or semi-shade. Prune to shape. (Labiatae)
<b>Orthosiphon aristatus "White"</b>	Cat's Whiskers - white	Bushy, herbaceous plant. Spikes of showy white flowers. Sun or semi-shade. Prune to shape. (Labiatae)
<b>Pandorea jasminoides*</b>	Bower of Beauty	Large fast growing vine with large pink flowers in bunches. (Bignoniaceae)
<b>Pandorea nervosa</b>	Snow Bells	Small vine with pure white flowers and delicate reddish foliage. (Bignoniaceae)
<b>Pandorea pandorana</b>	Wonga Wonga Vine	Attractive climber bearing clusters of purple tipped cream trumpet shaped flowers in Spring. Sun or shade. (Bignoniaceae)
<b>Peltophorum pterocarpum</b>	Yellow Flame Tree	Medium tree with dense spreading crown and masses of yellow flowers. Very hardy. Shade tree. (Fabaceae)
<b>Pennisetum alopecuroides "Nafray"*</b>	Compact Foxtail Grass	Graceful compact clumping grass with many sprays of white/tan flowers. Sun/semi-shade. Hardy. (Poaceae)
<b>Petrea volubilis*</b>	Queen's Wreath	Evergreen creeper which gets covered in bunches of violet flowers during Spring and Summer. Very spectacular. Perfect for a pergola or archway. (Verbenaceae)
<b>Phaius tancarvilleae</b>	Swamp Orchid	Extremely rare ground-orchid with large spikes of spectacular flowers. Best planted in a damp, fairly sunny spot in the garden, however can be kept in a large container in a bush house. Authorised Propagator Qld. No. APQF198/000050. (Orchidaceae)
<b>Phaleria octandra</b>		Medium sized shrub with clusters of fragrant white tubular flowers in late spring. (Thymelaeaceae)
<b>Philodendron "Xanadu"*</b>	Xanadu	Very popular tropical plant with lobed, fleshy leaves. Looks very effective planted en masse, or as a patio plant. Full sun or semi-shade. (Araceae)
<b>Phyllanthus cuscutiflorus</b>	Pink Phyllanthus	Large, dense, very attractive bushy shrub with beautiful foliage. Masses of small pink flowers. Ideal screen plant. Very fast growing. (Phyllanthaceae)
<b>Phyllanthus lamprophyllus</b>	Ferny Phyllanthus	Small, weeping shrub with very attractive ferny foliage. Suitable for full sun or semi-shade. Benefits from regular pruning. (Phyllanthaceae)
<b>Phyllanthus multiflorus*</b>	Waterfall Plant	A small weeping shrub to 1m tall, with fern like foliage and a spreading habit. Great as a low hedge, or to cascade down rockeries or over retaining walls. Full sun to part shade. (Phyllanthaceae)
<b>Pittosporum ferrugineum</b>	Rusty Pittosporum	Small tree with brownish leaves and clusters of cream flowers. Fruit yellow, which split to reveal bright orange seed. Very hardy. (Pittosporaceae)

Latin name	Common name	Description
<b>Pittosporum moluccanum</b>	Pittosporum	Small to medium tree from north Western Australia with dark green, very glossy foliage. Small white flowers in clusters. (Pittosporaceae)
<b>Placospermum coriaceum</b>	Rose Silky Oak	Small tree with large spectacular leaves. Pink new growth. Pink flowers. Beautiful cabinet timber. (Proteaceae)
<b>Plectranthus sp.</b>	Velvet Plectranthus	Small herbaceous shrub with flowers that are attractive to native bees. Soft foliage is strongly scented. Does best in full sun or dappled light in well drained soil. (Lamiaceae)
<b>Pleiogynium timorense</b>	Burdekin Plum	Very hardy tree with edible fruit. Makes a good shade tree in dry areas. (Anacardiaceae)
<b>Pleomele angustifolia</b>	Native Draceana	Tall shrub with long rambling canes, white flowers and orange berries. An interesting alternative to the exotic dracaenas. (Dracaenaceae)
<b>Plumeria obtusa*</b>	White Frangipani	The classic frangipani. A small tree to 4m, bearing sweetly perfumed white flowers with a yellow centre. Best in full sun. (Apocynaceae)
<b>Poa labillardieri*</b>	Large Tussock Grass	Fine blue/green tussock grass with lacy flower heads in summer. Plant in an open position. Tolerates moist/wet soils. (Poaceae)
<b>Podocarpus grayae</b>	Northern Brown Pine	An elegant long-leaf tropical rainforest conifer (Podocarpaceae)
<b>Polyalthia longifolia*</b>	Indian Mast Tree	A very slender tree with dark green glossy foliage, great for tight spots. Sun or part shade. Can grow to 10m tall. Roots are not particularly invasive. (Annonaceae)
<b>Prostanthera phyllicifolia</b>	Mint Bush	Very compact shrub. Dark narrow leaves with small mauve flowers, blooming over long periods in spring. Doesn't like overwatering. (Lamiaceae)
<b>Prumnopitys ladei*</b>	Mt Spurgeon Pine	Very rare tree. Quite hardy. Beautiful fern-like foliage remains even when fully grown. (Podocarpaceae)
<b>Ptychosperma elegans*</b>	Solitaire Palm	Tall slender palm with large, dark green fronds. Quite hardy. (Arecaceae)
<b>Pultenaea villosa</b>	Hairy Bush-Pea	Small shrub with hairy young growth and yellow to orange pea flowers. Hardy. For sun or part shade. (Fabaceae)
<b>Rhaphiolepis "Springtime"*</b>	Springtime Hawthorn	A bushy shrub which blooms prolifically with light pink, fragrant flowers. Great as a hedge or a stand alone specimen. Height to 2m. Full sun or part shade. (Rosaceae)
<b>Rhapis excelsa*</b>	Lady Palm	An excellent, tough indoor plant with attractive fan like leaves. Slow growing. Can also be grown in a shady spot in the garden, where it will eventually form a clump up to 4m high by 2m wide. (Arecaceae)
<b>Rhododendron lochiaie*</b>	Native Rhododendron	Small shrub with bright red flowers. Requires sheltered, moist position. Makes good tub plant. (Ericaceae)
<b>Rhus taitensis</b>	Sumac	Fast growing, hardy tree with spectacular reddish brown new growth. Showy white flowers. (Anacardiaceae)

Visit our Nursery!

We're at 5970 Kennedy Highway, Walkamin (between Mareeba and Atherton) on the Atherton Tablelands, north Queensland.

Business hours: Monday - Saturday 9am to 5pm, Sunday 9am to 2pm; closed public holidays.

Latin name	Common name	Description
<b>Rhysotoechia robertsonii</b>	Robertson's Tuckeroo	Small fast growing tree with bright green foliage. Loads of bright orange fruit which are relished by birds. (Sapindaceae)
<b>Ristantia pachysperma</b>	Yellow Penda	Rare tree with long, soft leaves which are pinkish/brown in the new growth. Fairly hardy. (Myrtaceae)
<b>Ristantia waterhousei</b>	Ristantia	Very rare plant with beautiful pink/orange/red new growth. Large shrub or small tree. Quite hardy. Does best in full sun. (Myrtaceae)
<b>Sankowskya stipularis</b>	Sankowskya	Extremely rare plant from the Julatten area of Far North Queensland. Spectacular red new growth. Does best in semi-shade. (Authorised Propagators Qld.No. APQF198/000050) (Euphorbiaceae)
<b>Sarcotoechia serrata</b>	Fern-Leafed Tamarind	Large shrub or small tree with beautiful fern-like foliage and delicate soft pink new growth. Requires semi-shade and regular watering. A beautiful ornamental plant. (Sapindaceae)
<b>Schefflera bracteata (S. versteegii)</b>	Rock Umbrella Tree	Rare umbrella tree from the Cape York Peninsula. Thick bright green leaflets held in a circle round the leaf-stalk. Brown scales on the leaf stalks and shoot tip. Huge panicles of pinkish flowers. (Araliaceae)
<b>Schoenoplectus validus</b>	River Club Rush	An attractive native reedy plant with bluey green foliage that grows well on the waters edge, or at a depth of up to 1m. Suitable for ponds, dams and creekside plantings. Full sun to part shade. Height up to 1.5m. (Cyperaceae)
<b>Scolopia braunii</b>	Brown Birch	Fast, hardy very bushy tree. Excellent windbreak. Bright red new growth. Can be pruned heavily into a shrub. Food plant of Australian Rustic Butterfly. (Flacourtiaceae)
<b>Sedum acre</b>	Golden Moss	A shallow rooted succulent plant with yellow-green foliage and bright yellow flowers. Spreads and roots along the ground so can be used as a groundcover, in rock walls, wall gardens, and "green rooves", as it does not require much soil to grow. Full to part sun. (Crassulaceae)
<b>Selaginella erythropus</b>	Red Selaginella	Very unusual fern-like plant with bright red stems and undersides of leaves. Grows to 30cm tall. Likes shade and moisture. Good indoor plant and popular in terrariums. (Selaginellaceae)
<b>Serissa foetida "Snowflake"</b>	Snowflake	A bushy little shrub to 60cm high with variegated foliage and masses of small white flowers. Very neat, bun shaped plant, suitable for edging. Full sun to part shade. Also a great bonsai plant. (Rubiaceae)
<b>Solanum betaceum</b>	Tamarillo	Medium shrub in the tomato family, bearing clusters of red egg-shaped fruit with orange flesh, tasting a bit like a mix of passionfruit and tomato (it's nicer than it sounds!). Can be eaten fresh, stewed or used in desserts. (Solanaceae)
<b>Spathiphyllum wallisii "Stephanie"</b>	Peace Lilly	A popular easy care houseplant, bearing attractive, long lasting flowers, held above the foliage. Can also be grown in a shady spot in the garden. (Araceae)
<b>Spathoglottis paulinae</b>	Purple Swamp Orchid	Very attractive ground orchid with bright pink flowers. Plant in a very moist area of the garden or keep in a pot. A rare plant. (Authorised Propagators Qld.No. APQF198/000050) (Orchidaceae)
<b>Spathoglottis plicata*</b>	White Philippine Ground Orchid	Small, dainty ground orchid with pleated leaves and white flowers held above the foliage. (Orchidaceae)
<b>Stenocarpus sinuatus</b>	Wheel Of Fire	Tree with large stiff lobed leaves and bright red flowers. Very hardy and fairly fast growing. A highly ornamental tree. (Proteaceae)

Latin name	Common name	Description
<b>Stephanotis floribunda</b>	Madagascar Jasmine	An attractive climber with glossy leaves and large, pure white flowers that have a delicious scent. They are often used in bridal bouquets. Great for screening off an unsightly area, or growing on archways. Full sun or part shade. (Asclepiadaceae)
<b>Sterculia quadrifida</b>	Peanut Tree	Medium spreading tree with small white flowers followed by extremely decorative velvety red fruit containing edible jet-black seeds. Deciduous. (Malvaceae)
<b>Sterculia shillinglawii</b>	Tulip Sterculia	Small, slender tree with large hairy leaves. Unusual brown and red flowers. Bright orange pods with black seeds. Hardy. (Malvaceae)
<b>Stockwellia quadrifida</b>	Vic Stockwell's Puzzle	Very rare tree with spectacular bright red to pink new growth. Fairly hardy. (Myrtaceae)
<b>Strelitzia nicolai*</b>	White Bird of Paradise	Tropical plant with architectural foliage, forming a large clump up to 6m tall. Bears very big, white, nectar rich flowers, which attract honey eaters. (Strelitziaceae)
<b>Strelitzia reginae*</b>	Bird of Paradise	Clumping plant to 2m tall with upright architectural leaves and attractive nectar filled flowers. Plant in full sun to semi-shade. (Strelitziaceae)
<b>Syzygium "Aussie Boomer"</b>	Aussie Boomer	Medium sized dense shrub with bright red new growth. Perfect for hedging and screening. White puffy flowers followed by a small pink edible berry. (Myrtaceae)
<b>Syzygium "Aussie Compact"</b>	Aussie Compact	A small compact form of <i>Syzygium australe</i> . Excellent screen. (Myrtaceae)
<b>Syzygium "Squatter"</b>	"Squatter"	A very compact, bushy lilly pilly growing to 50cm tall and spreading 1.5m wide. Bears white flowers, followed by edible pink fruit. (Myrtaceae)
<b>Syzygium "Supreme"</b>	Supreme	Small to medium, dense, compact shrub. A small leafed shrub with masses of fluffy white flowers followed by red berries. A great hedging plant. Prefers sun, but will grow well in a little shade. Hardy. (Myrtaceae)
<b>Syzygium alatoramulum</b>	Tinkling Satinash	A beautiful bushy plant with lovely foliage and winged twigs. Exquisite pale purple new growth. Small white flowers and small purple fruit. Requires a humid, protected position. A lovely tub or courtyard plant. (Myrtaceae)
<b>Syzygium angophoroides</b>	Yarrabah Satinash	Hardy, fast growing medium tree with bushy habit. Masses of white flowers and tiny purple fruit. Can be grown in a wet spot. An excellent plant for fruit-eating birds. (Myrtaceae)
<b>Syzygium anisatum</b>	Aniseed Myrtle	Medium sized shrub. Strong aniseed smell to crushed leaves, which are used as a bushfood spice, as well as a source of essential oil. Prune to thicken up. Very hardy. (Myrtaceae)
<b>Syzygium apodophyllum</b>	Rex Satinash	Beautiful foliage with spectacular deep red, purple or pink new growth. Small white flowers are followed by bright red fruit. Requires a humid protected position. A lovely tub or courtyard plant. (Myrtaceae)
<b>Syzygium aqueum</b>	Water Cherry	This is the very rare variety of native water cherry from Cape York Peninsula. Medium to large shrub, showy white flowers and highly decorative red fruit. (Myrtaceae)
<b>Syzygium argyropedicum</b>	Silver Satinash	Extremely rare plant from Cape York. Small tree with red new growth. Masses of white flowers followed by purple berries. Slow growing. Hardy. (Myrtaceae)

Visit our Nursery!

We're at 5970 Kennedy Highway, Walkamin (between Mareeba and Atherton) on the Atherton Tablelands, north Queensland.

Business hours: Monday - Saturday 9am to 5pm, Sunday 9am to 2pm; closed public holidays.

Latin name	Common name	Description
<b>Syzygium australe</b>	Creek Satinash	Large shrub to small tree. Bushy and hardy. Ideal as a screen plant. Masses of white flowers followed by edible pink fruit. (Myrtaceae)
<b>Syzygium australe "Baby Boomer"</b>	Baby Boomer	A compact, small to medium shrub that is ideal as a screen or hedge plant. (Myrtaceae)
<b>Syzygium australe "N. Qld Bushy Form"</b>	Creek Satinash (NQ Bushy Form)	Bushy shrub with masses of white, fluffy flowers followed by edible pink fruit. Ideal for use as a screen plant. Suitable for most areas. (Myrtaceae)
<b>Syzygium australe "Resilience"</b>	Resilience	A psyllid resistant plant that grows approximately 3m high x 2m wide. Beautiful orange new growth with white flowers and red berries. A great screening plant. Plant in full sun or part shade. (Myrtaceae)
<b>Syzygium australe Sth. QLD form</b>	Creek Satinash SQ Form	Medium to large, dense shrub with masses of white, fluffy flowers followed by edible pink fruit. Ideal for use as a small screen plant. Suitable for most areas. (Myrtaceae)
<b>Syzygium bamagense</b>	Bamaga Satinash	Medium to large tree with large glossy leaves. Very fast growing. Hardy. Large white fruit. (Myrtaceae)
<b>Syzygium banksii</b>	Joseph's Satinash	Large dense bushy shrub or small tree. White flowers and purple fruit. Hardy & tolerates salty winds. (Myrtaceae)
<b>Syzygium boonjee</b>	Babinda Satinash	Large shrub with beautiful apricot flowers from weeping branches. Must be grown in the shade. Suitable for use as a tub plant. (Myrtaceae)
<b>Syzygium branderhorstii</b>	Lockerbie Satinash	Small, slender understorey tree from the rainforests of Cape York. Glossy foliage. Large clusters of fluffy white flowers borne profusely down the trunk, followed by showy red fruit. Excellent for a shady or semi-shaded spot. (Myrtaceae)
<b>Syzygium bungadinnia</b>	Bungadinnia Satinash	Rare tree from Cape York Peninsula. Very hardy. Spectacular orange, papery bark & white flowers. (Myrtaceae)
<b>Syzygium canicortex</b>	Yellow Satinash	Beautiful tree with brilliant red new growth. Small, bright red fruit and white flowers. (Myrtaceae)
<b>Syzygium cormiflorum</b>	Bumpy Satinash	Medium tree with large cream fluffy flowers on the trunk and branches, followed by large white fruit. Attractive purple new growth. A terrific shade tree. (Myrtaceae)
<b>Syzygium cryptophlebium</b>	Plum Satinash	Dense shrub with spectacular bright pink pendulous new growth. Fluffy white flowers are followed by iridescent bright purple fruit. Best in a humid, moist position protected from strong or dry winds. (Myrtaceae)
<b>Syzygium fibrosum</b>	Fibrous Satinash	Large shrub to small tree with purple new growth. Large white fluffy flowers and delicious red fruit. Very hardy. Makes tasty jam. (Myrtaceae)
<b>Syzygium floribundum</b>	Weeping Lilly-Pilly	Small to medium tree with dense, weeping foliage. Small white flowers. Fairly hardy. (Myrtaceae)
<b>Syzygium forte subsp. forte</b>	White Apple	Hardy tree with bronze papery bark and dense, dark green crown. Large white flowers and edible white fruit. An excellent medium-sized shade tree. (Myrtaceae)

Latin name	Common name	Description
<b>Syzygium forte subsp. potamophilum</b>	Flaky-Barked Satinash	Hardy tree with papery bark. Excellent for coastal plantings. White flowers & edible fruit. Differs from <i>Syzygium forte</i> in having narrower leaves. (Myrtaceae)
<b>Syzygium glenum</b>	Cooper Creek Lilly-Pilly	Very rare plant from Cooper Creek near Cape Tribulation in the Daintree area. Very large, leathery, rusty brown fruit. (Authorised Propagators Qld.No. APQF198/000050) (Myrtaceae)
<b>Syzygium hedraiophyllum</b>	Gully Satinash	Small bushy tree with large glossy leaves and weeping branches. Attractive red/brown new growth. (Myrtaceae)
<b>Syzygium hemilamprum</b>	Blush Satinash	Bushy small tree with white flowers, showy white fruit and pink/brown new growth. Excellent screen plant. Hardy. (Myrtaceae)
<b>Syzygium johnsonii</b>	Rose Satinash	Small to medium tree with red/purple new growth. Fluffy white flowers and purple fruit. (Myrtaceae)
<b>Syzygium luehmannii Rocky River</b>	Rocky River Lilly-Pilly	Highly ornamental large shrub with brilliant pink/red weeping foliage, white flowers and red fruit. Water regularly. (Myrtaceae)
<b>Syzygium monospermum</b>	Daintree Satinash	Medium sized rainforest tree with paired, stem-clasping leaves. New flushes are mauve. (Myrtaceae)
<b>Syzygium sayeri</b>	Pink Satinash	Very fast growing, hardy, small tree with white flowers. Ideal screen plant. Plant in full sun for best results. (Myrtaceae)
<b>Syzygium smithii</b>	Lilly Pilly	Dense shrub with white flowers and red/brown new growth. Pink to purple fruit. Very hardy. Can be pruned to shape and used as a hedge. (Myrtaceae)
<b>Syzygium sp. Mt Mulligan</b>	Mt Mulligan Satinash	A rare plant. A large shrub or small tree with lovely dense bushy foliage and dainty pink new growth. (Myrtaceae)
<b>Syzygium tierneyanum</b>	River Cherry	Medium spreading tree with masses of fluffy cream flowers and white or red fruit. Dense foliage. Very hardy. Excellent screen. (Myrtaceae)
<b>Syzygium unipunctatum</b>	Roly-Poly Satinash	Small bushy tree with flushes of brilliant red new growth. Highly ornamental. Will tolerate moderate frosts. Best in high rainfall areas. (Myrtaceae)
<b>Syzygium wilsonii</b>	Powder-Puff Lilly-Pilly	Very attractive weeping shrub with bright pink new growth and large red pom-pom flowers. Should be planted in semi-shade. Highly ornamental. (Myrtaceae)
<b>Syzygium xerampelinum</b>	Mulgrave Satinash	Small tree with weeping branches and beautiful purple/black new growth. Fairly hardy. (Myrtaceae)
<b>Tabernaemontana orientalis</b>	Banana Bush	Small shrub with perfumed flowers and bright orange-yellow, banana-like fruit. Hardy. Suitable for semi-shade or full sun. Caution: milky sap might burn the skin. (Apocynaceae)
<b>Tecomanthe hillii*</b>	Fraser Island Creeper	Spectacular and vigorous vine with dark green leaves and sprays of bright pink, bell-shaped flowers. Frost tender. A stunning ornamental vine. Great over a pergola. (Bignoniaceae)
<b>Tecomanthe sp. Roaring Meg</b>	Roaring Meg	Rare and spectacular North Queensland vine. Bears large clusters of very showy pink tubular flowers. Excellent for trellis or pergola. (Bignoniaceae)

<b>Terminalia arenicola</b>	Brown Damson	Excellent shade tree with spreading habit. Deciduous and quite hardy. Suitable for beach plantings. (Combretaceae)
<b>Terminalia catappa</b>	Sea Almond	Attractive spreading tree with layered form and large leaves which assume autumn colour before shedding. Large fruit contain edible nuts. Ideal for beach plantings. (Combretaceae)
<b>Terminalia complanata</b>	Claudie Damson	Fast growing hardy tree with layered growth. Fruit attracts birds. From Cape York Peninsula. (Combretaceae)
<b>Thuja orientalis "Morgan"</b> *	Morgan	A very bushy dwarf conifer, perfect for tight spaces. Attractive lime green new growth. Slow growing to 80cm high. (Cupressaceae)
<b>Thysanolaena maxima</b> *	Tiger Grass	Looks like Bamboo, but isn't! Fast growing clumping grass, excellent for creating a thick screen to block out your neighbours. Full sun or part shade. (Poaceae)
<b>Tibouchina heteromalla "Jazzie"</b>	Jazzie	A small shrub to 1m tall, bearing masses of rich purple flowers, on and off throughout the whole year. Great for small hedges and edging. Best in full sun. (Melastomataceae)
<b>Toechima daemelianum</b>	Cape Tamarind	Medium-sized tree with attractive foliage and pinkish/brown new growth. Bright orange fruit. Quite hardy. (Sapindaceae)
<b>Toechima erythrocarpum</b>	Pink Tamarind	Small tree with compound leaves and large leaflets. Large apricot-coloured fleshy fruit. (Sapindaceae)
<b>Toona ciliata (australis)</b>	Red Cedar	Fast growing, hardy tree which develops a spreading shady crown. Famous for its beautiful timber. (Meliaceae)
<b>Viburnum odoratissimum</b>	Emerald Lustre	Dense screening/ hedging plant with glossy leaves and pinky bronze new growth. Fast growing to 3-4m tall. Responds well to pruning. Fragrant white flowers over Summer. Tolerates wind well. Best in full sun. (Adoxaceae)
<b>Viola hederacea</b>	Native Violet	Attractive spreading plant with blue and white flowers. Can be grown in the sun if permanently moist. Requires a moist sheltered position. Not suitable for inland areas. (Violaceae)
<b>Vitex ovata</b> *	Beach Vitex	Prostrate ground-cover plant to about 20 cm high. Small spikes of purple/mauve flowers. Very hardy. Best in full sun - grows naturally on sandy beaches. (Lamiaceae)
<b>Westringia "Wynyabbie Gem"</b>	Wynyabbie Gem	Fast growing dense shrub. Grey leaves and purple flowers. Plant in full sun in well drained soil. Prune to shape. (Lamiaceae)
<b>Westringia fruticosa</b>	Native Rosemary	Hardy compact shrub with blue grey leaves. White flowers produced most of the year. Full sun. Tolerates a wide range of soils and conditions. Prune to shape. (Lamiaceae)
<b>Whyanbeelia terrae-reginae</b>	Whyanbeelia	Large shrub to small tree with dense habit and slightly weeping foliage. A very rare plant. Fast growing, but requires plenty of moisture. Best suited to high rainfall areas. (Euphorbiaceae)
<b>Xanthophyllum fragrans</b>	Fragrant Boxwood	Large shrub or small tree with pendulous branches. Large, white, perfumed flowers. Frost tender. Water well. (Xanthophyllaceae)
<b>Xanthostemon chrysanthus</b>	Golden Penda	Large shrub or small tree with spectacular, large heads of bright yellow flowers. Tip prune when young to create bushy form and promote mass flowering. Hardy. (Myrtaceae)

Latin name	Common name	Description
<b>Xanthostemon chrysanthus</b> "Little Goldie"	Dwarf Golden Penda	A compact, dwarf cultivar of the popular Golden Penda making a rounded bush, rarely more than 1 metre high, with narrow dark green leaves about 8 cm long. New growth bronzy pink. (Myrtaceae)
<b>Xanthostemon sp. Mt. Tozer</b>	Mt. Tozer Penda	Large shrub or small tree with rusty brown new growth. Mass of cream flowers. Very hardy (Myrtaceae)
<b>Xanthostemon umbrosus</b>	Shady Penda	Large shrub or small spreading tree with clusters of fluffy cream flowers. Very hardy, but quite slow growing. (Myrtaceae)
<b>Xanthostemon verticillatus</b>	Bloomfield Penda	Dense shrub with large heads of fluffy cream-white flowers. A very attractive plant. Excellent in the garden or as a tub plant. (Myrtaceae)
<b>Xanthostemon youngii*</b>	Red Penda	Shrub with brilliant red flowers in large heads. Often difficult to grow except in sandy soil. Does best in full sun and well drained sandy soil. A very rare plant. (Myrtaceae)
<b>Yucca desmetiana*</b>	Soft Leaved Yucca	Low maintenance, drought tolerant plant with attractive unusual purple/pink/bluey foliage. Will form a clump once established. Height to 1.5m. Sun or part shade. (Asparagaceae)
<b>Zamioculcas zamiifolia*</b>	Zanzibar Gem	Attractive and very low maintenance indoor or patio plant. Copes well with low light levels and doesn't need much water. Originates from tropical Africa. (Araceae)
<b>Zoysia tenuifolia</b>	No Mow Grass	Excellent dense, low groundcover with soft, fine foliage. Great for around rocks, trees or pavers. Full sun to part shade. Spreads 20cm/ year. (Poaceae)
