Latin name	Common name	Description
Acalypha lyonsii	Native Acalypha	Small, attractive, very hardy shrub with tiny, serrated leaves. Prune to thicken up for the first year. Ideal fill in plant. (Euphorbiaceae)
Aceratium doggrellii	Buff Carabeen	Beautiful densely conical tree with upward pointing branches, small leaves. (Elaeocarpaceae)
Acmena "Allyn Magic" **	Allyn Magic	(Myrtaceae)
Acronychia acidula	Lemon Aspen	Small tree with large glossy leaves and large white flowers. Fruit suitable for jam making. (Rutaceae)
Acronychia imperforata	Beach Aspen	Medium sized bushy tree, bearing edible orange fruits, good for jam making. Useful as a windbreak or for screening. The white flowers attract butterflies. (Rutaceae)
Adenantha pavonina	Coralwood	Fast growing spreading tree suitable for shade. Attractive foliage and bright red shiny seeds that can be used to make jewellery. Does well near the beach. (Fabaceae)
Adiantum aethiopicum	Common Maidenhair Fern	A pretty maidenhair type fern with large fronds. Suitable for shady moist positions. (Adiantaceae)
Adiantum hispidulum	Rough Maidenhair Fern	Attractive maidenhair fern. Plant in a shady moist spot. (Adiantaceae)
Aeschynanthus lobbianus*	Lipstick Plant	A trailing plant, perfect for a hanging basket that blooms with orangey red flowers along the stems. Can be grown near a window indoors, or on a patio. In nature, it is an epiphytic plant, growing in tree forks etc. (Gesneriaceae)
Agathis robusta	Queensland Kauri	A giant, slow growing, tropical conifer from Queensland's coastal ranges with broad, thick-textured, dark green leaves. An ancient Gondwanan relic with iconic status in Queensland. (Araucariaceae)
Albizia lebbek	Native Rain Tree	Large, spreading shade tree with fluffy, white flowers. Fast growing, very hardy. Excellent for rural and coastal plantings. (Fabaceae)
Alocasia brisbanensis	Cunjevoi	Lily-like plant with large, soft leaves. Does best in semi-shade with plenty of moisture. (Araceae)
Alpinia caerulea "Red"	Common Ginger	Clumping foliage plant. Leaves undersides a striking deep maroon colour. Small white flowers. Attractive fruit. Full sun or part shade. Not suitable for dry inland areas. (Zingiberaceae)
Alpinia modesta*	Small Ginger	North QLD small compact rainforest ginger. Narrow dark green leaves. Great for a shady spot. (Zingiberaceae)
Anigozanthos "Big Red" **	Big Red	A vigorous hybrid Kangaroo Paw with bright red flowers. Must have an open, well drained, sunny position. (Haemodoraceae)
Anigozanthos "Yellow"	Yellow Kangaroo Paw	A beautiful yellow clumping Kangaroo Paw that goes well in North QLD. Grows up to 2m. (Haemodoraceae)
Anthocephalus chinensis	Kadam	Extremely fast growing tall tree with large leaves. Attractive yellow and white ball-like flowers. Deciduous. (Rubiaceae)

Latin name	Common name	Description
Araucaria bidwillii	Bunya Pine	One of Australia's tallest and most distinctive conifers, with its domed crown of numerous radiating branches. It has been growing in Australia since the Jurassic - the Age of Dinosaurs. (Araucariaceae)
Araucaria cunninghamii	Hoop Pine	Fast growing, large dark green conifer with branches in whorls and rough bark which has circular hoops. Makes an excellent tub specimen. (Araucariaceae) (Araucariaceae)
Archidendron hirsutum	Cape Laceflower	Rare and spectacular tree. Heads of crimson fluffy flowers. Hardy. (Fabaceae)
Archidendron lucyi	Scarlet Bean	Small tree with large leaves and open habit. Beautiful fluffy white perfumed flowers borne on the branches. Extremely decorative orange seed pods. (Fabaceae)
Argyrodendron polyandrum	Black Tulip Oak	Tree with large glossy leaves, bronze on the underside. Quite hardy. (Malvaceae)
Asplenium australasicum	Bird's Nest Fern	Classic 'birdnest' fern with a ring of undivided bright green fronds up to 70 cm long. Grows on tree trunks in rainforest. (Aspleniaceae)
Asteromyrtus brassii	Cape York Tea Tree	Large shrub or small tree with unusual spherical, deep red flowers along the branches. Hardy. Flowers all year. (Myrtaceae)
Athertonia diversifolia	Atherton Oak	Medium tree with beautiful large lobed juvenile leaves, racemes of cream/white flowers, and blue fruit containing an edible nut. Superb foliage plant. Requires a humid protected position. (Proteaceae)
Atractocarpus fitzalanii	Brown Gardenia	Medium to large shrub with large stiff dark green leaves and attractive white perfumed flowers. (Rubiaceae)
Atractocarpus sessilis	False Gardenia	Medium to large shrub with large stiff dark green leaves and masses of beautiful white flowers with gardenia-like perfume. Very hardy. (Rubiaceae)
Austromyrtus dulcis	Midyim	Small shrub with small pink flowers and edible fruit. Very hardy. Plant in full sun or semi-shade. (Myrtaceae)
Austromyrtus dulcis x tenuifolia	Hybrid midyim	Small bushy slender-leafed shrub with masses of small pale pink flowers followed by edible fruit. (Myrtaceae)
Babingtonia tozerensis	Mt Tozer Myrtle	Small dense shrub with dainty white flowers and lime green foliage. Quite hardy. (Myrtaceae)
Backhousia angustifolia	Northern Myrtle	Medium upright shrub with long narrow leaves. Very hardy. White flowers. (Myrtaceae)
Backhousia citriodora	Lemon Myrtle	Large shrub or small bushy tree with masses of fluffy cream flowers. Crushed leaves have a fantastic lemon scent. Quite hardy. (Myrtaceae)
Backhousia enata	Tully River Myrtle	Large shrub with attractive weeping habit. Small glossy leaves. Does well in the shade. Small white flowers. (Myrtaceae) (Myrtaceae)
Backhousia myrtifolia	Grey Myrtle	Large dense shrub or small tree with masses of white fluffy flowers. Very hardy. (Myrtaceae)

Latin name	Common name	Description
Baeckea "Feather Tips"	Feather Tips	Small shrub. Dainty form with weeping, feathery branches. May be pruned heavily into a dense bush if required. (Myrtaceae)
Baeckea camphorata	Camphor Bush	Small dainty shrub with masses of tiny white flowers. Best in full sun (Myrtaceae)
Baeckea sp. Clarence River	Clarence River Baeckea	Medium shrub with fine dainty foliage and weeping form. Dainty white flowers. (Myrtaceae)
Baeckea sp. Herberton Range	Herberton Baeckea	Very pretty medium shrub with fine, dainty foliage and very weeping habit. Tiny white flowers in profusion. (Myrtaceae)
Baeckea virgata	Heath Myrtle	Medium shrub with weeping form, fine foliage and dainty white flowers. Tolerates part shade and heavy pruning. (Myrtaceae)
Baeckea virgata "Miniature"	Dwarf Baeckea	Ideal for rockeries, this dwarf form of Baeckea spreads to form a small, mounded shrub. Masses of white flowers. Prune lightly after flowering to keep compact. (Myrtaceae)
Banana "Cavendish"	Musa acuminata	A popular variety of banana that produces very sizeable bunches of large fruit. This is the most common variety in the supermarket. A tropical clumping plant growing up to 4m high. Plant in a sunny spot away from wind. (Musaceae)
Banksia integrifolia*	Coast Banksia	Large shrub or small tree with stiff leaves and cream brushes. Very hardy. Plant in full sun in a well drained spot. (Proteaceae)
Banksia oblongifolia*		A small shrub commonly only growing to 1m high with beautiful yellow-green banksia flowers. Plant in full sun. (Proteaceae)
Banksia robur*	Swamp Banksia	Medium shrub with large stiff serrated leaves and green, changing to cream, flowers. Will tolerate damp situations. (Proteaceae)
Banksia serrata*	Old Man Banksia	This banksia can range in height from a medium shrub to small tree. It has beautiful large yellow flowers. Plant in full sun. (Proteaceae)
Banksia spinulosa*	Hairpin Banksia	Small shrub. Dense habit with spectacular large gold Banksia flowers. Best in full sun. Suitable for most areas. (Proteaceae)
Barringtonia calyptata	Mango Pine	Very handsome tree with large leaves and huge racemes of fluffy white flowers that attract birds. (Lecythidaceae)
Blechnum gibbum	Silver Maiden	An attractive fern growing a small stout trunk, like a dwarf tree fern. Great as a house plant or in filtered light in the garden. Keep moist and dig in organic matter. Fast growing; fronds can grow to 1m long. (Blechnaceae)
Blepharocarya involucrigera	Rose Butternut	Tree with shiny leaves and red new growth. Flowers followed by woody umbrella shaped structures. Good timber. (Anacardiaceae)
Boronia keysii	Boronia	An evergreen shrub with pink star shaped flowers appearing in early spring. Prefers light, well drained soil in a protected position. Is drought resistant but frost tender. (Rutaceae)

Latin name	Common name	Description
Brachychiton acerifolius	Flame Tree	Produces masses of brilliant red flowers. Deciduous when flowering. Hardy and fast growing. Food plant of Common Aeroplane and Penciled Blue Butterflies. (Authorised Propagators Qld.No. APQF198/000050) (Malvaceae)
Brachychiton chillagoensis	Chillagoe Bottle Tree	A medium shrub endemic to the Chillagoe/Dimbulah/Georgetown area. Rare in cultivation. Bears attractive rose pink flowers. (Authorised Propagators Qld.No. APQF198/000050) (Malvaceae)
Brachychiton grandiflorus	Coen Kurrajong	Small tree with large heart-shaped leaves. Large pink flowers on branches. Hardy. (Authorised Propagators Qld.No. APQF198/000050) (Malvaceae)
Brachychiton populneus*	Kurrajong	Medium to large tree with dense, rounded crown. Small cream and brown flowers. Ideal for dry inland areas. (Authorised Propagators Qld.No. APQF198/000050) (Sterculiaceae)
Brahmi	Bacopa monniera	Used in traditional Indian medicine for over 3000 years and recent studies suggest it may improve memory and learning. Eat fresh or dry and make tea. Very easy to grow; best in damp conditions. (Scrophulariaceae)
Breynia sp. Iron Range	Red Coffee-Bush	Shrub with red new growth and masses of small red berries. Food plant of Common Grass Yellow Butterfly. (Phyllanthaceae)
Brunfelsia latifolia*	Yesterday, Today and Tomorrow	Bushy shrub with sweetly scented purple flowers that fade to white over a number of days, so that you have all different shades of colour on the bush at the one time. Great as a fragrant hedge. Full sun to part shade. (Solanceae)
Buchanania arborescens	Satinwood	Bushy tree with large leaves like those of a mango. Small black fruit are very good to eat. Hardy. (Anacardiaceae)
Buckinghamia celsissima	Ivory Curl Tree	Large bushy shrub or small tree with extremely spectacular display of cream flowers. Very hardy. (Proteaceae)
Buxus microphylla*	Korean Box	A small, dense, rounded shrub, that is useful for small formal hedges and edges, topiary and bonsai. Fairly drought hardy and can be grown in semi shade or full sun. Height to 1.5m. (Buxaceae)
Caesalpinia ferrea	Leopard Tree	An attractive shade tree with a broad, dense crown and smooth, mottled grey and white bark. Blooms with bright yellow flowers. Height to 15m. Dense, high quality timber. (Fabaceae)
Callipteris prolifera	Tick Fern	Very attractive fern with large leaves to 1m long. Small plantlets develop along the leaf and look like ticks. Cold sensitive. (Athyriaceae)
Callistemon "Cameo Pink"	Cameo Pink	Medium shrub with attractive rose pink flowers. Does best in full sun. Usually frost resistant. (Myrtaceae)
Callistemon "Captain Cook"	Captain Cook	Compact, well shaped small shrub. Showy red bottlebrush flowers. Suitable as a screen. (Myrtaceae)
Callistemon "Dawson River"	Dawson River	Tall weeping shrub with red flowers. Attractive to birds. Very hardy. Will tolerate both wet and dry conditions. Can be pruned to act as a screening plant. (Myrtaceae)
Callistemon "Emerald Beauty"	Emerald Beauty	Medium shrub growing with dense compact foliage and pink new growth. Showy red bottlebrush flowers with yellow tips. Hardy and suitable for most areas. (Myrtaceae)
Callistemon "Endeavour"	Endeavour	Medium upright shrub. Well shaped and hardy. Large bright red bottlebrush flowers. Open sunny position. (Myrtaceae)

Latin name	Common name	Description
Callistemon "Eureka"	Eureka	Tall upright shrub with brilliant purple flowers in profusion in spring. Showy pink new growth. Suitable for screening. (Myrtaceae)
Callistemon "Glasshouse Country"	Glasshouse Country	A tall shrub with bottlebrush flowers. The foliage is stiff and sharply pointed with pale young growth. The main flowering periods are spring and autumn. (Myrtaceae)
Callistemon "Hannah Ray"	Hannah Ray	Hardy medium to large shrub. Soft new growth. Weeping form. Bright red flowers. Makes a good screen. (Myrtaceae)
Callistemon "Harkness"	Harkness	Large rounded shrub. Masses of bright red bottlebrush flowers. A very popular cultivar. (Myrtaceae)
Callistemon "Injune"	Injune	A very pretty, weeping plant with dainty soft grey foliage and lovely pale pink bottlebrush flowers (Myrtaceae)
Callistemon "Kings Park Special"	Kings Park	A robust, medium to large shrub with deep red flowers in profusion. Prune to shape. Remove old flowers to keep tidy. Suitable for screening. (Myrtaceae)
Callistemon "Lavender Shower"	Lavender Shower	Small shrub. Beautiful lavender flowers for most of the year. Does best in full sun. Best in cooler climates. (Myrtaceae)
Callistemon "Little John"	Little John	Small shrub with dense blue/green foliage and bright red flowers. Very hardy, but slow growing. Must have full sun. Suitable for most areas. (Myrtaceae)
Callistemon "Mauve Mist"	Mauve Mist	Small to medium shrub with beautiful mauve bottlebrush flowers. Best in cooler climates (Myrtaceae)
Callistemon "Mr. Foster"	Mr Foster	Hardy medium to large dense shrub. Red new growth. Large, bright red flowers that are very showy. Tolerates coastal conditions. (Myrtaceae)
Callistemon "Pindi Pindi"	Pindi Pindi	Medium to large shrub with attractive semi-weeping habit. Red flowers. Very hardy. Does best in full sun. Suitable for most areas. (Myrtaceae)
Callistemon "Pink Alma"	Pink Alma	Large shrub with bright pink flowers. Attractive pink new growth. Sun or part shade. Usually frost resistant. (Myrtaceae)
Callistemon "Pink Champagne"	Pink Champagne	Medium shrub with attractive dainty blue/green foliage. Large bottlebrush flowers which are champagne pink. Benefits from regular pruning. Does best in full sun. (Myrtaceae)
Callistemon "Prolific"	Prolific	Large shrub with dense foliage. Ideal for use as a screen plant. Large red flowers for most of the year. Suitable for most areas. (Myrtaceae)
Callistemon "Purple Splendour"	Purple Splendour	Open shrub. Display of showy mauve-pink flowers. Benefits from regular pruning. Bird attracting. Best in cooler climates. (Myrtaceae)
Callistemon "Red Devil"	Red Devil	Medium shrub with showy red flowers. Does best in full sun. Usually frost resistant. (Myrtaceae)
Callistemon "Reeves Pink"	Reeves Pink	Dense, medium shrub. Compact shape. Bright, lolly pink bottlebrush flowers in profusion. A hardy and very showy plant. (Myrtaceae)

Latin name	Common name	Description
Callistemon "Rocky Rambler"	Rocky Rambler	Spreading prostrate plant. Prickly foliage. Bright red flowers. Needs full sun, open position. (Myrtaceae)
Callistemon "Rose Opal"	Rose Opal	Small shrub. Deep red brushes which age to rose coloured. Plant in full sun for best results. Makes a good screen. (Myrtaceae)
Callistemon "The Bluff"	The Bluff	Medium shrub with dense foliage. Pink bottlebrush flowers fade to salmon, then cream. (Myrtaceae)
Callistemon "Western Glory"	Western Glory	A medium upright shrub with dark red-mauve bottlebrush flowers. Must be grown in full sun. A hardy shrub, but flowers best in cool climates. (Myrtaceae)
Callistemon "White Anzac"	White Anzac	Small shrub. Bright green foliage with white flowers that attract birds. (Myrtaceae)
Callistemon "Wild River"	Wild River	Dense shrub. Lovely fresh green foliage and red flowers. Plant in open sunny spot. Good screen. (Myrtaceae)
Callistemon "Wilderness White"	Wilderness White	Medium shrub with attractive pale green foliage. Large spikes of creamy white flowers for most of the year. For full sun or part shade. Suitable for most areas. (Myrtaceae)
Callistemon "Wildfire"	Wildfire	Medium shrub. Dense foliage and large bright red flowers. Does best in full sun. Makes a good screen. (Myrtaceae)
Callistemon "Yuruga Red"	Yuruga Red	Large shrub with dense foliage. Ideal for use as a screen plant. Large red flowers for most of the year. Suitable for most areas. (Myrtaceae)
Callistemon recurvus "Tinaroo Dazzler"	Tinaroo Dazzler	Medium weeping shrub with small leaves and bright red flowers. Very hardy. (Myrtaceae)
Callistemon viminalis "Rocky River Red"	Rocky River Red	Medium to large shrub with blue/green foliage and bright red flowers. Does best in full sun but will flower in part shade. (Myrtaceae)
Calophyllum inophyllum	Satin Touriga	Large, handsome spreading tree with large dark green leaves. Pretty white flowers and round green fruit. An excellent shade tree for beach areas. (Clusiaceae)
Cananga odorata	Ylang-ylang	Fast growing tree with heavily perfumed yellow flowers. Frost tender. (Annonaceae)
Carissa grandiflora	Desert Star	A small, compact shrub to 1m tall with glossy round leaves and white, sweetly scented, star shaped flowers. A hardy, and drought tolerant plant. Great for coastal areas as it can handle salty winds. (Apocynaceae)
Carmona retusa	Carmona	Small shrub with dark green, stiff foliage and small white flowers on arching twigs. Very hardy. Full sun or part shade. (Boraginaceae)
Carnarvonnia montana	Red Silky Oak	Beautiful large shrub or small tree with unusual compound leaves. Fantastic foliage with very showy rusty brown new growth. Ideal tub plant. (Proteaceae)
Cassia queenslandica	Yellow Shower	Small tree with spectacular racemes of bright golden cassia flowers. Hardy. (Fabaceae)

Latin name	Common name	Description
Cassia sp. Paluma Range	Golden Shower	Small tree with glossy dark green foliage, spectacular racemes of bright yellow flowers, and beautiful brown papery bark. A beautiful native cassia. Very hardy. (Fabaceae)
Cassine melanocarpa	Black Olive Plum	Large shrub or small tree, naturally occurring in monsoon forest and drier rainforest. Small white flowers followed by a black fleshy fruit. (Celastraceae)
Castanospermum australe	Black Bean	Medium spreading tree renowned for its lovely timber. Masses of yellow flowers along the branches. Large decorative woody seed pods. Often slow growing for first few years. Benefits from protection when young. (Fabaceae)
Casuarina glauca "Cousin It"*	Cousin It	A dense groundcover casuarina, spreading up to 2.5m wide. An unusual and attractive feature plant. Very hardy and a good weed suppressant, because it is so thick. Best in full sun. (Casuarinaceae)
Citrus garrawayae*	Mt White Lime	Finger lime from Cape York. Good bush tucker. Small, dense, bushy shrub with sausage-like lime-flavoured fruit suitable for making drinks. (Rutaceae)
Citrus inodora*	Russell River Lime	Shrubby tree with glossy leaves and spines on twigs. Edible oblong lime fruit up to 6.5 cm long and 3 cm diameter. Lowland rainforest plant, must be in shade with plenty of moisture. (Rutaceae)
Cleistanthus apodus	Weeping Cleistanthus	Medium weeping shrub with beautiful pink new growth. Hardy. A great screen. (Euphorbiaceae)
Cleistanthus hylandii	Bernie's Cleistanthus	Hardy large shrub to small tree with extremely beautiful bright red to purple new growth. From Cape York Peninsula. A great screen. (Euphorbiaceae)
Cleistanthus semiopacus	Rusty Cleistanthus	Medium weeping shrub with pink new growth. Hardy. A great screen. (Euphorbiaceae)
Coix lacryma-jobi	Job's Tears	An easy to grow multi purpose plant. The seeds are used for jewellery, hence the other common name "Necklace Plant". They naturally have a hole through the centre, ready for threading. Seed is also an edible grain (cook first). (Poaceae)
Cordyline "Purple Prince"*	Purple Prince	An eye-catching tropical foliage plant with vivid purple tinted leaves. Best in part shade. (Asparagaceae)
Cordyline murchisoniae	Palm-Lilly	Small, slender-stemmed rainforest palm-lily. Panicles of small mauve flowers. Good foliage tub plant. Best in shade or semi-shade. (Asparagaceae)
Corymbia ptychocarpa x ficifolia*	Smouldering Red	A show stopping small feature tree to 5m with large clusters of bright red flowers during summer, and attractive weeping foliage. Attracts birds. (Myrtaceae)
Corymbia ptychocarpa*	Swamp Bloodwood	Small wide-branching tree with large glossy leaves, particularly in juvenile stage. Clusters of large white, pink or red flowers. Can flower when 3 to 4 years old. (Myrtaceae)
Costus potierae	Native Crepe Ginger	Rhizomatous plant. Leaves held in a spiral round the stems. Flowers white with yellow markings, in heads on the stem tips. Needs shade, ample moisture and well manured soil. (Zingiberaceae)
Crinum menehune*	Red Bog Lilly	Attractive dwarf crinum with vibrant dark red foliage and pink flowers. Great for a wet spot. Sun or shade. Height to 1m. (Amaryllidaceae)

Visit our Nursery!

Latin name	Common name	Description
Crinum pedunculatum*	Mangrove Lily	Large lily with very showy, perfumed flowers. Very hardy and suitable for wet sites. (Liliaceae)
Croton phebaloides	White Croton	Lovely small shrub. Attractive narrow foliage. Quite hardy. Grow in full sun or semi shade. (Euphorbiaceae)
Croton variegatum assorted*	Croton	A colourful tropical foliage plant, which comes in more varieties than you can poke a stick at! Can be grown in full sun or light shade. (Euphorbiaceae)
Cryptocarya mackinnoniana	Rusty Laurel	Tree with large stiff leaves and brilliant red drooping new growth. Fruit attracts birds. Food plant of Blue Triangle Butterfly. (Lauraceae)
Cupaniopsis anacardioides	Tuckeroo	Small to medium tree with bright red new growth. Showy display of orange fruit. Excellent shade tree. Very hardy. (Sapindaceae)
Cupaniopsis diploglottoides	Velvet Tamarind	A beautiful shrub growing 2-5m, with large compound leaves and stunning pink new growth. A little touchy to establish, needing extra water and protection at first, but well worth the effort. Shade or semi-shade. Sapindaceae. (Sapindaceae)
Cupaniopsis flagelliformis	Brown Tuckeroo	Very attractive tree with lovely serrated compound leaves, soft pink new growth and showy orange-yellow fruit. (Sapindaceae)
Curculigo recurvata*	Weevil Lily	A short, stout herbaceous plant with a lily-like or palm-like appearance. Broad strap-like leaves. Flowers on erect heads. (Hypoxidaceae)
Cyathea cooperi	Common or Lacy Treefern	Fast growing hardy tree fern. Slender trunk with crown of bright green fronds to 2 metres long. Takes full sun in moist areas. (Cyatheaceae)
Cycas revoluta*	Sago Palm	A popular, hardy cycad which grows a crown of shiny, dark green leaves atop a short, stout trunk, which develops after a number of years. Very architectural foliage. Native to Japan. The most common cycad in cultivation. Sun or part shade. (Cycadaceae)
Cyrtostachys renda*	Lipstick Palm	Multi-stemmed palm with a beautiful bright red trunk that can grow up to 15m tall (eventually)! Slow growing. A statement tropical plant. Not suitable for cooler tableland areas. Best in coastal areas. (Arecaceae)
Darlingia darlingiana	Brown Silky Oak	Fast growing tree with attractive lobed leaves. Large spikes of white flowers. Fairly hardy. (Proteaceae)
Davidsonia pruriens	Davidson's Plum	Small slender tree with large lobed leaves and masses of large purple plum-like fruit. Makes good jam, salted plums or wine. Best in high rainfall areas. (Davidsoniaceae)
Delonix regia var. flavida*	Yellow Poinciana	Large, spreading tree which bears a flamboyant show of bright yellow flowers during summer. Much less common than the Red Poinciana. Deciduous during dry periods. (Fabaceae)
Dianella "Cape York Dwarf"***	Cape York Dianella	Understorey compact clumping plant from Cape York with small blue star-like flowers followed by purple berries. Part/full shade. (Hemerocallidaceae)
Dianella brevipedunculata	Flax Lily	Small clumping plant with showy blue flowers and fruit. Suitable for sun or shade. Rosella Parrots eat the fruit. (Hemerocallidaceae)

Latin name	Common name	Description
Dianella caerulea	Blue Flax Lily	Small clumping plant with broad upright leaves. Blue flowers on long stalks. Best in semi-shade. (Hemerocallidaceae)
Dichorisandra thyrsiflora*	Blue Ginger	Tropical clumping ginger like plant to 1.5m tall, bearing eye-catching purple flower spikes over Summer and Autumn. Likes a moist, shady position. (Commelinaceae)
Dictyoneura obtusa	Swamp Tamarind	Slender small tree with purple new growth. Glossy serrated leaves. Fairly hardy. Thrives in a damp spot. (Sapindaceae)
Dietes bicolor*	African Iris	Very hardy clumping strappy leaved plant with attractive yellow flowers held on stalks above the foliage. Best in sun or part shade. (Iridaceae)
Dillenia alata	Red Beech	Tree for coastal areas, particularly poorly drained spots. Trunk has beautiful flaky coppery bark. Bright yellow flowers. (Dilleniaceae)
Diospyros littorea	Sea Ebony	Very slow growing shrub to small tree with glossy green leaves. Grows naturally on the coast, close to mangrove stands. Orange-yellow fruit attracts birds. Wood is very hard and beautiful. (Ebenaceae)
Diospyros sp. Baird Logging Area	Roaring Meg Ebony	Handsome, compact low shrub with clusters of narrow dark green glossy leaves and conspicuous salmon new flushes. Slow growing. Best in part shade and damp soil. (Ebenaceae)
Diploglottis bernieana	Bernie's Tamarind	Small slender palm shaped tree with huge bright green compound leaves and large, furry brown edible fruit. Decorative foliage. (Sapindaceae)
Diploglottis diphylostegia	Northern Tamarind	Small tree with large attractive leaves, and fruit which makes good jam or drinks. (Sapindaceae)
Diploglottis smithii	Smith's Tamarind	Small hardy tree with beautiful foliage and silvery new growth. Large decorative fruit with acid, edible flesh. Good for drinks. (Sapindaceae)
Dissiliaria surculosa	Dissiliaria	Extremely rare plant from Cape York Peninsula. Medium to large shrub with very attractive, dense foliage. Pyramid form. Quite hardy. Sun or shade. (Euphorbiaceae)
Doodia aspera	Prickly Rasp Fern	Small spreading fern with colourful new growth. Can grow in shade or sun, as long as it is kept quite moist. (Blechnaceae)
Doodia media	Native Fern	A lovely native fern. Plant in a shady moist spot. (Blechnaceae)
Doryphora aromatica	Nthn Sassafras	Medium tree with very glossy leaves. Does best in moist areas. Timber tree for moist areas. (Atherospermataceae)
Dysoxylum parasiticum	Yellow Mahogany	This Yellow Mahogany produces beautiful creamy-brown flowers on the trunk right to the ground. Unless planted in high rainfall area it will remain a size of a large shrub. (Meliaceae)
Elaeocarpus grandis	Blue Quandong	Tall, fast growing rainforest tree with straight bole and tiered branches. Edible blue fruit followed bell shaped flowers. Grown for hardwood timber. Very hardy. (Elaeocarpaceae)
Elaeocarpus reticulatus*	Prima Donna	A beautiful tree bearing masses of delicate pink fringed flowers in Spring, which are followed by blue fruits which attract seed eating birds. Fast growing. An excellent feature tree. (Elaeocarpaceae)

Latin name	Common name	Description
Eucalyptus phoenicea*	Scarlet Gum	Small to medium tree with spectacular, bright orange flowers. Quite hardy. (Myrtaceae)
Eucryphia wilkiei*	Wilkie's Eucryphia	A very rare shrub from very high altitude NQ rainforests. Unusual greyish foliage and large, white, rose-like flowers with an unusual fragrance that are very attractive to birds. Suited to high rainfall areas. \$15.00 (Cunoniaceae)
Fagraea berteriana	Cape Jitta	Medium shrub with large bright green almost succulent stiff leaves in pairs, and huge cream flowers with beautiful perfume. Quite hardy. (Loganiaceae)
Faradaya splendida	Potato Vine	Large vigorous vine with large white flowers followed by large white fruit which resemble potatoes. Fruit eaten by Cassowaries and other rainforest animals. (Lamiaceae)
Festuca glauca*	Blue Fescue	Small clumping ornamental grass, forming dense bluey grey tufts. Bears attractive wheat-like seed heads. Full sun. (Poaceae)
Ficus benjamina	Weeping Fig	Large spreading tree suitable as a shade tree. Small red fruit which are very attractive to birds. Ideal tub plant. (Moraceae)
Ficus benjamina "Midnight Beauty"*	Midnight Beauty	A perfect specimen for bonsai or indoors. Dark leaved form of weeping fig. Will grow to a large shady tree if planted in the garden. Hardy and adaptable. Full sun to well lit indoors. (Moraceae)
Ficus fraseri	Watery Fig	Extremely hardy, large shrub with sand-papery leaves. Small red fruit are very attractive to birds. Suitable for full sun or semi-shade (Moraceae)
Ficus hillii "Flash"	Flash	A dense, compact form of Ficus hillii, that is used for screening as a clipped hedge, and topiary. Lends a formal, manicured look to the garden. Fast growing and can be grown in sun or part shade. It is a fig though, so don't plant close to pipes or drains! (Moraceae)
Ficus longifolia binnendijkii	Sabre Leaf Fig	An attractive fig with glossy, long, thin leaves, lending an oriental look to the garden. Great as an indoor or patio plant. Sun or shade. (Moraceae)
Ficus microcarpa "Green Island"*	Green Island Fig	Lush, sprawling shrub with vibrant green glossy foliage. Great as a low maintenance ground cover for sun or shade. Also recommended for Bonsai. (Moraceae)
Ficus microcarpa var. hillii*	Hill's Weeping Fig	A very attractive medium to large sized tree with glossy foliage, often used as a street tree. Can be heavily pruned and used for topiary. Sun or shade. (Moraceae)
Ficus pantoniana	Climbing Fig	Australia's only climbing fig. Grow in a hanging basket or over a stump. Does best in semi-shade. Water regularly. (Moraceae)
Ficus platypoda	Rock Cracker Fig	Very hardy tree with small leaves and small rounded fruit. Attracts birds (Moraceae)
Ficus pumila	Climbing Fig	Small leaved climbing fig, great for covering old, unsightly fences and walls. A very easy, low maintenance way to create a "green wall"! Will damage paintwork and finishes though, so don't use on any brand new structures. Sun or shade. (Moraceae)
Flacourtia sp. Shiptons Flat	Cape Plum	Large, dense, bushy shrub with brilliant red new growth and compact rounded shape. Edible plum-like fruit. A very ornamental plant. Plants may be male or female. Male plants will not bear fruit. (Flacourtiaceae)

Latin name	Common name	Description
Flacourtia sp. Shiptons Flat bisexual	Cape Plum	Large, dense, bushy shrub with brilliant red new growth and compact rounded shape. Edible plum-like fruit. A very ornamental plant. Bisexual plants are self-fertile. (Flacourtiaceae)
Flindersia australis	Crows Ash	Medium to tall tree with dark glossy green foliage. Sprays of white flowers are followed by ornamental woody fruit used widely for floral decoration. Excellent timber. (Rutaceae)
Flindersia bennettiana	Bennett's Ash	Medium tree from southern Queensland with a neat crown. Good small shade tree. Masses of white flowers. (Rutaceae)
Flindersia brayleyana	Queensland Maple	Beautiful timber tree, with masses of white flowers followed by decorative woody seed pods. Best in high rainfall areas in good soil. (Rutaceae)
Furcraea foetida mediopicta*	Mauritius Hemp	Thornless agave-like plant with attractive variegated leaves. Sun or part shade. Likes good drainage. Height to 1m. (Asparagaceae)
Gardenia augusta	Gardenia "Magnifica"	A classic, glossy leaved shrub, growing 1.5 - 2m tall, great for hedging. Deliciously scented, large, white flowers. Can grow in sun or part shade, but leaves may scorch in full-on afternoon sun. (Rubiaceae)
Gardenia macgillivraei	Wenlock Gardenia	Medium to large shrub with large, perfumed, white flowers. Very hardy. Sun or semi-shade (Rubiaceae)
Gardenia psidioides	Hann Gardenia	Prostrate spreading native gardenia with white flowers. Excellent ground cover. (Rubiaceae)
Gardenia scabrella	Star Flower	Small, compact shrub from Cape York with stiff glossy leaves. Large white flowers all year round. Very hardy. Sun or semi-shade. (Rubiaceae)
Gardenia sp. Glennie River	Glennie River Gardenia	A very hardy native gardenia with prostrate habit. Large, stiff leaves and white flowers. Does best in dappled shade. (Rubiaceae)
Gordonia axilaris*	Fried Egg Plant	A perfect compact shade tree for a small garden, growing to 5m tall with a bushy, dome shaped canopy. Blooms prolifically with large white and yellow flowers over Autumn and Spring, hence the common name! Sun or part shade. (Theaceae)
Gossia floribunda	Cape Ironwood	Dense medium shrub with spectacular masses of small white flowers. Very hardy. Sun or part shade. (Myrtaceae)
Graptophyllum "Red Emu"	Emu Creek Fuchsia	Very hardy, small shrub with thick bushy habit. Bright red fuchsia type flowers. (Acanthaceae)
Graptophyllum "Stumpy Dave"	Stumpy Dave	A hardy, small shrub. It bears masses of scarlet red fuchsia type flowers. It looks great in a tub, on a patio or in mass plantings on a garden edge. (Acanthaceae)
Graptophyllum excelsum	Scarlet Fuchsia	Very hardy, small shrub with thick bushy habit. Masses of bright red flowers several times each year. (Acanthaceae)
Graptophyllum ilicifolium	Holly Fuchsia	Small shrub. Stiff, holly-like leaves and deep purple/red flowers. Very hardy. For full sun or semi-shade. (Acanthaceae)

Latin name	Common name	Description
Graptophyllum spinigerum	Native Fuchsia	Small shrub. Attractive glossy foliage and small white flowers. For sun or shade. Very hardy. (Acanthaceae)
Grevillea "Amber Blaze" **	Amber Blaze	A low growing, spreading grevillea to 1m high, bearing beautiful amber coloured flowers all year round, which attract birds. Plant in a sunny, well drained position. (Proteaceae)
Grevillea "Caboolture" **	Caboolture	Medium to large bushy shrub. Very fast growing and hardy, with showy salmon flowers for most of the year. Requires good drainage and full sun. Attracts birds. (Proteaceae)
Grevillea "Caloundra Gem" **	Caloundra Gem	Medium to large bushy shrub with deeply divided foliage. Very fast growing and hardy, with showy salmon flowers for most of the year. Requires good drainage and full sun. Attracts birds. (Proteaceae)
Grevillea "Canberra Gem" **	Canberra Gem	Spreading, medium sized shrub. Upright spiky foliage, bright pink spidery flowers. Full sun, well drained position. Prune after flowering. Tolerates frost and cold winters. Good for Herberton to Ravenshoe. (Proteaceae)
Grevillea "Cooroora Cascade" **	"Cooroora Cascade"	A low growing grevillea to 0.5m. Can grow very wide. It has beautiful long golden toothbrush flowers that occur during late summer to the end of autumn. Very bird attracting. Likes a well-drained position in full sun. (Proteaceae)
Grevillea "Firesprite" **	Firesprite	Small to medium shrub with bright red flowers that attract nectar feeding birds. (Proteaceae)
Grevillea "Golden Lyre" **	Golden Lyre	A spectacular small shrub, this hybrid grevillea has green/yellow brush flowers occurring over a long period in summer and autumn. Can grow very wide. Very bird attracting. Likes a well-drained position in full sun. (Proteaceae)
Grevillea "Honey Gem"	Honey Gem	Large spreading shrub with deeply divided, mid green leaves. Nectar-laden orange flowers are produced throughout the year. Attracts birds. Fast growing, hardy. Excellent screen. Full sun. (Proteaceae)
Grevillea "Honeycomb" **	Honeycomb	Erect shrub naturally bushy with dense foliage to the ground. Cream flowers prolific in early spring attracting birds. Good screen plant for most areas except in areas with cold winters. (Proteaceae)
Grevillea "Jester" **	Jester	A dense, medium sized shrub with deep orangey red, slightly perfumed flowers, which honeyeaters love. Likes a well-drained position in full sun. (Proteaceae)
Grevillea "Kay Williams" **	Kay Williams	Fast growing, bushy shrub. Masses of large pale orange/peach flowers for most of the year. Needs a well drained, sunny position. (Proteaceae)
Grevillea "Lilliane" **	Lilliane	Small sprawling plant that can be used in a hanging basket. Pink and white spider flowers. For full sun or part shade. Usually frost resistant. (Proteaceae)
Grevillea "Moonlight" **	Moonlight	Tall shrub with cream flowers all year. Attracts birds. Hardy with good drainage and full sun. (Proteaceae)
Grevillea "Ned Kelly" **	Ned Kelly	Medium, dense bushy shrub. Showy orange/red flowers for most of the year. Tip prune while young to promote a good shape. Plant in full sun in well drained position. (Proteaceae)
Grevillea "Orange Marmalade" **	Orange Marmalade	Bushy shrub. Attractive orange spider flower. Very hardy and vigorous. Full sun, open position. (Proteaceae)

Latin name	Common name	Description
Grevillea "Pink Surprise" **	Pink Surprise	An evergreen medium sized shrub with fine fern like folidge. During Autum it bears large pink flowers. Useful for hedging & screening. (Proteaceae)
Grevillea "Poorinda Peter" **	Poorinda Peter	Spreading, tall shrub with pink-tipped new growth and reddish-purple toothbrush flowers. Does best in full sun. Usually tolerates frost. (Proteaceae)
Grevillea "Red Sunset" **	Red Sunset	Small to medium shrub with attractive red spider flowers. Does best in full sun and well drained position. Best in cooler climates. Usually frost resistant. (Proteaceae)
Grevillea "Robyn Gordon" **	Robyn Gordon	Small shrub. Very bushy with deep red flowers. Plant in well drained position in full sun. (Proteaceae)
Grevillea "Sandra Gordon" **	Sandra Gordon	Tall open shrub with masses of bright yellow flowers. Requires a well drained, open, sunny position. (Proteaceae)
Grevillea "Winparra Gem" **	Winparra Gem	Small shrub. Red spider flowers. Must be in full sun and well drained position. Tolerates frost and cold winters. Best in cooler climates. Ideal for Herberton to Ravenshoe. (Proteaceae)
Grevillea baileyana	Findlay's Silky Oak	Fast growing, hardy small tree. Beautiful foliage - underside brilliant bronze. Spectacular white flowers. (Proteaceae)
Grevillea banksii var. forsterii*		Hardy, fast-growing, medium shrub growing about 2-3 metres high. Dark red flowers all year. Attracts birds. Best in a well drained sunny spot. (Proteaceae)
Grevillea formosa*	Mt. Brockman Grevillea	Small, spreading shrub with silvery foliage and bright yellow flowers. Requires well drained position in full sun. (Proteaceae)
Grevillea glossadenia*	Irvinebank Grevillea	Very attractive,hardy shrub. Leaves green, silver beneath with bronze new growth. Orange flowers amongst foliage. (Proteaceae)
Grevillea longistyla*	"Long John"	Large fast growing shrub. Masses of crimson flowers for most of the year. Needs a well drained, sunny position. (Proteaceae)
Grevillea pteridifolia*	Golden Toothbrush	Open, wispy, large shrub to small tree with bright orange toothbrush flowers in great profusion. Attracts birds. Requires open, sunny, well drained position. (Proteaceae)
Grevillea robusta	Silky Oak	Hardy tree with open habit and mass of orange flowers which attract birds. Excellent timber species. (Proteaceae)
Grevillea rosmarinifolia*	Rosemary Leaf Grevillea	Small shrub with two toned red and yellow spider flowers. Must be in full sun and well drained position. Best in cooler climates. (Proteaceae)
Grevillea venusta*	Grevillea venusta	Medium to large shrub with attractive lobed leaves. Unusual yellow and green flowers. Very hardy, plant in full sun. (Proteaceae)
Guioa acutifolia	Glossy Tamarind	Small tree with dark green leaves. Mass of small white flowers. Quite hardy. A useful screen plant. (Sapindaceae)
Guioa lasioneura	Silky Tamarind	Large shrub or small tree with small compound leaves and flushes of pink new growth. Pink/purple decorative seed capsules. (Sapindaceae)

Latin name	Common name	Description
Hakea persiehana	Hakea	Medium to tall shrub with cream flowers and lovely fine foliage. Attractive, woody fruit. Plant in full sun. (Proteaceae)
Hardenbergia violacea	Sarsaparilla Vine	Small vine with attractive bright purple flowers ideal for hanging basket or rockery. (Fabaceae)
Harpullia arborea	Cooktown Tulipwood	Small to medium tree with spreading habit. Very showy orange fruit from the branches. (Sapindaceae)
Harpullia pendula	Tulip Wood	Small tree with attractive orange fruit. Suitable as a small shade tree. Quite hardy. (Sapindaceae)
Harpullia ramiflora	Claudie Tulip Wood	Large shrub or small tree with small, cream, perfumed flowers and bright red fruit. Hardy. (Sapindaceae)
Hibbertia scandens	Climbing Guinea Flower	Very hardy climber or cascading plant with huge buttercup flowers spring to summer. Full to filtered sun, suitable for most positions including the coast. (Dilleniaceae)
Hibbertia sp. Tolga Range	Tolga Range Hibbertia	Beautiful little ground cover plant growing about 20cm high and spreading about 1m across. Lovely foliage and yellow flowers. Sun or part shade. (Dilleniaceae)
Hibiscus heterophyllus	Native Hibiscus	A tall, fast growing hibiscus. Very large yellow flowers. Very hardy. (Malvaceae)
Hibiscus macilwraithensis	Rocky River Macrostelia	Small to medium shrub in the Hibiscus family. White flowers. Very hardy. Does best in part shade. Benefits from pruning. (Malvaceae)
Hibiscus tiliaceus	Coast Cottonwood	Very hardy, fast growing, bushy, small to medium tree. Makes a good shade tree when lower branches removed. Especially suitable for inland and coastal areas. Yellow hibiscus flowers. (Malvaceae)
Hibiscus tozerensis	Iron Range Hibiscus	Small to medium shrub in the Hibiscus family. Pale pink flowers. Very hardy. Full sun or semi-shade. Benefits from pruning. (Malvaceae)
Hoya australis subsp. australis	Wax Flower	A hardy climber bearing masses of white perfumed flowers. May be planted in the garden, but especially suited to hanging baskets. (Asclepiadaceae)
Hoya pottsii*	Claret Hoya	Hardy vine with cream flowers and attractive foliage. Does best in a large hanging basket where it will flower regularly. (Asclepiadaceae)
Hymenosporum flavum	Native Frangipani	Small, slender tree with very showy yellow and cream, perfumed flowers. Hardy and fast growing. (Pittosporaceae)
Indigofera australis	Australian Indigo	A hardy shrub bearing masses of bright purple to pink pea flowers. Adaptable and frost tolerant. Prune to thicken. Full sun or semi-shade. (Fabaceae)
Isolepis nodosa*	Knobby Club Rush	Native clumping sedge. Flower heads are compact rusty brown balls near the top of the stem. Drought tolerant once established but prefers moist soil. Can be grown in full sun or semi-shade. (Cyperaceae)
Ixora "Pink Malay"**	Pink Malay	Bushy shrub to 1m with glossy leaves and hot pink flowers which attract butterflies. Full sun or part shade. (Rubiaceae)

Latin name	Common name	Description
Ixora "Red Malay"	Red Ixora	Bushy, compact shrub bearing large clusters of bright red flowers which attract butterflies. Great as a tropical looking hedge or border. (Rubiaceae)
Ixora "Sunkist"	Sunkist	A dwarf Ixora, only growing to 50cm tall. Very bushy and gets covered in clusters of orange flowers, which attract butterflies. (Rubiaceae)
Ixora "Yellow Malay"	Yellow Malay	Bushy shrub to 1.5m tall, bearing large clusters of yellow flowers throughout the year, which butterflies love to feed on. Best in full sun. Hardy and easy to grow. (Rubiaceae)
Jasminum aemulum	Native Jasmine	Medium vine. Very hardy and fast growing. White, perfumed flowers over a long period. Ideal over a trellis or fence. Tolerates sea winds well. (Oleaceae)
Jasminum sambac*	Sambac Jasmine	Semi-climbing shrub with beautifully scented, white, rose like flowers which are used for perfumes and teas. Sun or shade. (Oleaceae)
Jasminum simplicifolium var. australiense	Native Jasmine	A vigorous, woody twining vine found in most types of rainforest. Yellow to green leaves. Fragrant white flowers are from August to November or at other times after rain. (Oleaceae)
Juncus usitatus	Soft Rush	Densely tufted rush with fine arching stems. Adapted for waterlogged soil, but also fairly drought tolerant. Thrives on dam margins. Also as architectural element in courtyard gardens. (Juncaceae)
Juniperus conferta	Shore Juniper	Dense, hardy groundcover that forms a carpet of green. Also used for bonsai. Full sun or part shade. (Cupressaceae)
Kunzea graniticola	Cardwell Kunzea	Small shrub with fluffy white flowers. Very rare plant. Requires sunny, moist conditions. (Myrtaceae)
Leptospermum "Cardwell"	Cardwell	Beautiful, graceful weeping shrub with masses of small white flowers in spring. Best in a full sun position. (Myrtaceae)
Leptospermum "Copper Glow"	Copper Glow	Medium to tall shrub with beautiful coppery tinge to the foliage. Can be formed into a lovely rounded shape with regular light pruning. Best in full sun. (Myrtaceae)
Leptospermum "Lemon Frost"	Lemon Frost	Medium shrub. Very hardy. White flowers and beautiful lemon scent to the leaves. (Myrtaceae)
Leptospermum "Pacific Beauty"	Pacific Beauty	Small shrub with masses of white flowers on weeping branches. Quite hardy. Grow in full sun. (Myrtaceae)
Leptospermum "Pink Cascade"	Pink Cascade	Small shrub. Masses of pink flowers. Plant in full sun. Very hardy. (Myrtaceae)
Leptospermum amboinense	Northern Tea Tree	Medium to large shrub. Lovely fresh foliage and small white flowers. Can be pruned to shape. (Myrtaceae)
Leptospermum brachyandrum	Silver Leafed Tea Tree	Tall shrub to small tree with silvery new growth. The old bark peels off to reveal an attractive pink-purple trunk. (Myrtaceae)
Leptospermum liversidgei	Olive Tea Tree	Small to medium shrub with compact or erect habit. White flowers with lemon scented leaves. Helps repel mozzies. (Myrtaceae)

Latin name	Common name	Description
Neolitsea dealbata	White Bollygum	Bushy small tree. Furry pink new growth. Fruit attracts birds. Food plant of Blue Triangle Butterfly. (Lauraceae)
Neostrearia fleckeri	Flecker's Hard Alder	Rare, medium-sized evergreen rainforest tree with alternate leaves and pendent spikes of white flowers in winter (May to July). Needs high rainfall and shelter. (Hamamelidaceae)
Nymphoides indica*	Water Snowflake	Dense native floating lilly with small white fringed flowers. Once of the easiest "water lillies" to grow. Will only grow in water shallower than 2m. (Menyanthaceae)
Ophiopogon japonicus "nana"	Mini Mondo Grass	Neat, clumping grass to 75mm tall, useful as a border plant or between pavers or stepping stones, to create a softer look. Looks best in part to full shade. Quite hardy. (Asparagaceae)
Orthosiphon aristatus "Mauve"	Cat's Whiskers - mauve	Bushy, herbaceous plant. Spikes of showy purple flowers. Sun or semi-shade. Prune to shape. (Labiatae)
Orthosiphon aristatus "White"	Cat's Whiskers - white	Bushy, herbaceous plant. Spikes of showy white flowers. Sun or semi-shade. Prune to shape. (Labiatae)
Pandorea jasminoides	Bower of Beauty	Large fast growing vine with large pink flowers in bunches. (Bignoniaceae)
Pandorea nervosa	Snow Bells	Small vine with pure white flowers and delicate reddish foliage. (Bignoniaceae)
Peltophorum pterocarpum	Yellow Flame Tree	Medium tree with dense spreading crown and masses of yellow flowers. Very hardy. Shade tree. (Fabaceae)
Pennisetum advena "Rubrum"	Red Fountain Grass	Clumping grass with bungundy foliage and feathery seed heads. Best in full sun. A great way to add year long colour to the garden. (Poaceae)
Pennisetum alopecuroides "Nafray"**	Compact Foxtail Grass	Graceful compact clumping grass with many sprays of white/tan flowers. Sun/semi-shade. Hardy. (Poaceae)
Petrea volubilis*	Queen's Wreath	Evergreen creeper which gets covered in bunches of violet flowers during Spring and Summer. Very spectacular. Perfect for a pergola or archway. (Verbenaceae)
Phaius tancarvilleae	Swamp Orchid	Extremely rare ground-orchid with large spikes of spectacular flowers. Best planted in a damp, fairly sunny spot in the garden, however can be kept in a large container in a bush house. Authorised Propagator Qld. No. APQF198/000050. (Orchidaceae)
Phaleria octandra		Medium sized shrub with clusters of fragrant white tubular flowers in late spring. (Thymelaeaceae)
Philodendron "Xanadu"**	Xanadu	Very popular tropical plant with lobed, fleshy leaves. Looks very effective planted en masse, or as a patio plant. Full sun or semi-shade. (Araceae)
Phyllanthus cuscutiflorus	Pink Phyllanthus	Large, dense, very attractive bushy shrub with beautiful foliage. Masses of small pink flowers. Ideal screen plant. Very fast growing. (Phyllanthaceae)

Latin name	Common name	Description
Phyllanthus lamprophyllus	Ferny Phyllanthus	Small, weeping shrub with very attractive ferny foliage. Suitable for full sun or semi-shade. Benefits from regular pruning. (Phyllanthaceae)
Phyllanthus multiflorus*	Waterfall Plant	A small weeping shrub to 1m tall, with fern like foliage and a spreading habit. Great as a low hedge, or to cascade down rockeries or over retaining walls. Full sun to part shade. (Phyllanthaceae)
Pittosporum ferrugineum	Rusty Pittosporum	Small tree with brownish leaves and clusters of cream flowers. Fruit yellow, which split to reveal bright orange seed. Very hardy. (Pittosporaceae)
Pittosporum moluccanum	Pittosporum	Small to medium tree from north Western Australia with dark green, very glossy foliage. Small white flowers in clusters. (Pittosporaceae)
Placospermum coriaceum	Rose Silky Oak	Small tree with large spectacular leaves. Pink new growth. Pink flowers. Beautiful cabinet timber. (Proteaceae)
Plectranthus sp.	Velvet Plectranthus	Small herbaceous shrub with flowers that are attractive to native bees. Soft foliage is strongly scented. Does best in full sun or dappled light in well drained soil. (Lamiaceae)
Pleiogynium timorense	Burdekin Plum	Very hardy tree with edible fruit. Makes a good shade tree in dry areas. (Anacardiaceae)
Pleomele angustifolia	Native Draceana	Tall shrub with long rambling canes, white flowers and orange berries. An interesting alternative to the exotic dracaenas. (Dracaenaceae)
Poa labillardieri*	Large Tussock Grass	Fine blue/green tussock grass with lacy flower heads in summer. Plant in an open position. Tolerates moist/wet soils. (Poaceae)
Podocarpus grayae	Northern Brown Pine	An elegant long-leaf tropical rainforest conifer (Podocarpaceae)
Polyalthia longifolia*	Indian Mast Tree	A very slender tree with dark green glossy foliage, great for tight spots. Sun or part shade. Can grow to 10m tall. Roots are not particularly invasive. (Annonaceae)
Prostanthera phycifolia	Mint Bush	Very compact shrub. Dark narrow leaves with small mauve flowers, blooming over long periods in spring. Doesn't like overwatering. (Lamiaceae)
Prumnopitys ladei*	Mt Spurgeon Pine	Very rare tree. Quite hardy. Beautiful fern-like foliage remains even when fully grown. (Podocarpaceae)
Ptychosperma elegans*	Solitaire Palm	Tall slender palm with large, dark green fronds. Quite hardy. (Arecaceae)
Pultenaea villosa	Hairy Bush-Pea	Small shrub with hairy young growth and yellow to orange pea flowers. Hardy. For sun or part shade. (Fabaceae)
Rhaphiolepis "Springtime"*	Springtime Hawthorn	A bushy shrub which blooms prolifically with light pink, fragrant flowers. Great as a hedge or a stand alone specimen. Height to 2m. Full sun or part shade. (Rosaceae)
Rhododendron lochiai*	Native Rhododendron	Small shrub with bright red flowers. Requires sheltered, moist position. Makes good tub plant. (Ericaceae)

Latin name	Common name	Description
Rhus taitensis	Sumac	Fast growing, hardy tree with spectacular reddish brown new growth. Showy white flowers. (Anacardiaceae)
Rhysotoechia robertsonii	Robertson's Tuckeroo	Small fast growing tree with bright green foliage. Loads of bright orange fruit which are relished by birds. (Sapindaceae)
Ristantia pachysperma	Yellow Penda	Rare tree with long, soft leaves which are pinkish/brown in the new growth. Fairly hardy. (Myrtaceae)
Ristantia waterhousei	Ristantia	Very rare plant with beautiful pink/orange/red new growth. Large shrub or small tree. Quite hardy. Does best in full sun. (Myrtaceae)
Sankowskya stipularis	Sankowskya	Extremely rare plant from the Julatten area of Far North Queensland. Spectacular red new growth. Does best in semi-shade. (Authorised Propagators Qld.No. APQF198/000050) (Euphorbiaceae)
Sarcotoechia serrata	Fern-Leafed Tamarind	Large shrub or small tree with beautiful fern-like foliage and delicate soft pink new growth. Requires semi-shade and regular watering. A beautiful ornamental plant. (Sapindaceae)
Schefflera bracteata (S. versteegii)	Rock Umbrella Tree	Rare umbrella tree from the Cape York Peninsula. Thick bright green leaflets held in a circle round the leaf-stalk. Brown scales on the leaf stalks and shoot tip. Huge panicles of pinkish flowers. (Araliaceae)
Schoenoplectus validus	River Club Rush	An attractive native reedy plant with bluey green foliage that grows well on the waters edge, or at a depth of up to 1m. Suitable for ponds, dams and creekside plantings. Full sun to part shade. Height up to 1.5m. (Cyperaceae)
Scolopia braunii	Brown Birch	Fast, hardy very bushy tree. Excellent windbreak. Bright red new growth. Can be pruned heavily into a shrub. Food plant of Australian Rustic Butterfly. (Flacourtiaceae)
Sedum acre	Golden Moss	A shallow rooted succulent plant with yellow-green foliage and bright yellow flowers. Spreads and roots along the ground so can be used as a groundcover, in rock walls, wall gardens, and "green rooves", as it does not require much soil to grow. Full to part sun. (Crassulaceae)
Selaginella erythropus	Red Selaginella	Very unusual fern-like plant with bright red stems and undersides of leaves. Grows to 30cm tall. Likes shade and moisture. Good indoor plant and popular in terrariums. (Selaginellaceae)
Serissa foetida "Snowflake"	Snowflake	A bushy little shrub to 60cm high with variegated foliage and masses of small white flowers. Very neat, bun shaped plant, suitable for edging. Full sun to part shade. Also a great bonsai plant. (Rubiaceae)
Solanum betaceum	Tamarillo	Medium shrub in the tomato family, bearing clusters of red egg-shaped fruit with orange flesh, tasting a bit like a mix of passionfruit and tomato (it's nicer than it sounds!). Can be eaten fresh, stewed or used in desserts. (Solanaceae)
Spathiphyllum wallisii "Stephanie"	Peace Lilly	A popular easy care houseplant, bearing attractive, long lasting flowers, held above the foliage. Can also be grown in a shady spot in the garden. (Araceae)
Spathoglottis paulinae	Purple Swamp Orchid	Very attractive ground orchid with bright pink flowers. Plant in a very moist area of the garden or keep in a pot. A rare plant. (Authorised Propagators Qld.No. APQF198/000050) (Orchidaceae)
Spathoglottis plicata*	White Philippine Ground Orchid	Small, dainty ground orchid with pleated leaves and white flowers held above the foliage. (Orchidaceae)

Latin name	Common name	Description
Stenocarpus sinuatus	Wheel Of Fire	Tree with large stiff lobed leaves and bright red flowers. Very hardy and fairly fast growing. A highly ornamental tree. (Proteaceae)
Stephanotis floribunda	Madagascar Jasmine	An attractive climber with glossy leaves and large, pure white flowers that have a delicious scent. They are often used in bridal bouquets. Great for screening off an unsightly area, or growing on archways. Full sun or part shade. (Asclepiadaceae)
Sterculia quadrifida	Peanut Tree	Medium spreading tree with small white flowers followed by extremely decorative velvety red fruit containing edible jet-black seeds. Deciduous. (Malvaceae)
Sterculia shillinglawii	Tulip Sterculia	Small, slender tree with large hairy leaves. Unusual brown and red flowers. Bright orange pods with black seeds. Hardy. (Malvaceae)
Stockwellia quadrifida*	Vic Stockwell's Puzzle	Very rare tree with spectacular bright red to pink new growth. Fairly hardy. (Myrtaceae)
Strelitzia nicolai*	White Bird of Paradise	Tropical plant with architectural foliage, forming a large clump up to 6m tall. Bears very big, white, nectar rich flowers, which attract honey eaters. (Strelitziaceae)
Strelitzia reginae*	Bird of Paradise	Clumping plant to 2m tall with upright architectural leaves and attractive nectar filled flowers. Plant in full sun to semi-shade. (Strelitziaceae)
Syzygium "Aussie Boomer"	Aussie Boomer	Medium sized dense shrub with bright red new growth. Perfect for hedging and screening. White puffy flowers followed by a small pink edible berry. (Myrtaceae)
Syzygium "Aussie Compact"	Aussie Compact	A small compact form of <i>Syzygium australe</i> . Excellent screen. (Myrtaceae)
Syzygium "Supreme"	Supreme	Small to medium, dense, compact shrub. A small leafed shrub with masses of fluffy white flowers followed by red berries. A great hedging plant. Prefers sun, but will grow well in a little shade. Hardy. (Myrtaceae)
Syzygium alatoramulum	Tinkling Satinash	A beautiful bushy plant with lovely foliage and winged twigs. Exquisite pale purple new growth. Small white flowers and small purple fruit. Requires a humid, protected position. A lovely tub or courtyard plant. (Myrtaceae)
Syzygium angophoroides	Yarrabah Satinash	Hardy, fast growing medium tree with bushy habit. Masses of white flowers and tiny purple fruit. Can be grown in a wet spot. An excellent plant for fruit-eating birds. (Myrtaceae)
Syzygium anisatum	Aniseed Myrtle	Medium sized shrub. Strong aniseed smell to crushed leaves, which are used as a bushfood spice, as well as a source of essential oil. Prune to thicken up. Very hardy. (Myrtaceae)
Syzygium apodophyllum	Rex Satinash	Beautiful foliage with spectacular deep red, purple or pink new growth. Small white flowers are followed by bright red fruit. Requires a humid protected position. A lovely tub or courtyard plant. (Myrtaceae)
Syzygium aqueum	Water Cherry	This is the very rare variety of native water cherry from Cape York Peninsula. Medium to large shrub, showy white flowers and highly decorative red fruit. (Myrtaceae)
Syzygium argyropedicum	Silver Satinash	Extremely rare plant from Cape York. Small tree with red new growth. Masses of white flowers followed by purple berries. Slow growing. Hardy. (Myrtaceae)

Latin name	Common name	Description
Syzygium australe	Creek Satinash	Large shrub to small tree. Bushy and hardy. Ideal as a screen plant. Masses of white flowers followed by edible pink fruit. (Myrtaceae)
Syzygium australe "Baby Boomer"	Baby Boomer	A compact, small to medium shrub that is ideal as a screen or hedge plant. (Myrtaceae)
Syzygium australe "N. Qld Bushy Form"	Creek Satinash (NQ Bushy Form)	Bushy shrub with masses of white, fluffy flowers followed by edible pink fruit. Ideal for use as a screen plant. Suitable for most areas. (Myrtaceae)
Syzygium australe "Resilience"	Resilience	A psyllid resistant plant that grows approximately 3m high x 2m wide. Beautiful orange new growth with white flowers and red berries. A great screening plant. Plant in full sun or part shade. (Myrtaceae)
Syzygium australe Sth. QLD form	Creek Satinash SQ Form	Medium to large, dense shrub with masses of white, fluffy flowers followed by edible pink fruit. Ideal for use as a small screen plant. Suitable for most areas. (Myrtaceae)
Syzygium bamagense	Bamaga Satinash	Medium to large tree with large glossy leaves. Very fast growing. Hardy. Large white fruit. (Myrtaceae)
Syzygium banksii	Joseph's Satinash	Large dense bushy shrub or small tree. White flowers and purple fruit. Hardy & tolerates salty winds. (Myrtaceae)
Syzygium boonjee	Babinda Satinash	Large shrub with beautiful apricot flowers from weeping branches. Must be grown in the shade. Suitable for use as a tub plant. (Myrtaceae)
Syzygium branderhorstii	Lockerbie Satinash	Small, slender understorey tree from the rainforests of Cape York. Glossy foliage. Large clusters of fluffy white flowers borne profusely down the trunk, followed by showy red fruit. Excellent for a shady or semi-shaded spot. (Myrtaceae)
Syzygium bungadinnia	Bungadinnia Satinash	Rare tree from Cape York Peninsula. Very hardy. Spectacular orange, papery bark & white flowers. (Myrtaceae)
Syzygium canicortex	Yellow Satinash	Beautiful tree with brilliant red new growth. Small, bright red fruit and white flowers. (Myrtaceae)
Syzygium cormiflorum	Bumpy Satinash	Medium tree with large cream fluffy flowers on the trunk and branches, followed by large white fruit. Attractive purple new growth. A terrific shade tree. (Myrtaceae)
Syzygium cryptophlebium	Plum Satinash	Dense shrub with spectacular bright pink pendulous new growth. Fluffy white flowers are followed by iridescent bright purple fruit. Best in a humid, moist position protected from strong or dry winds. (Myrtaceae)
Syzygium fibrosum	Fibrous Satinash	Large shrub to small tree with purple new growth. Large white fluffy flowers and delicious red fruit. Very hardy. Makes tasty jam. (Myrtaceae)
Syzygium floribundum	Weeping Lilly-Pilly	Small to medium tree with dense, weeping foliage. Small white flowers. Fairly hardy. (Myrtaceae)
Syzygium forte subsp. forte	White Apple	Hardy tree with bronze papery bark and dense, dark green crown. Large white flowers and edible white fruit. An excellent medium-sized shade tree. (Myrtaceae)

Latin name	Common name	Description
Syzygium forte subsp. potamophilum	Flaky-Barked Satinash	Hardy tree with papery bark. Excellent for coastal plantings. White flowers & edible fruit. Differs from <i>Syzygium forte</i> in having narrower leaves. (Myrtaceae)
Syzygium glenum	Cooper Creek Lilly-Pilly	Very rare plant from Cooper Creek near Cape Tribulation in the Daintree area. Very large, leathery, rusty brown fruit. (Authorised Propagators Qld.No. APQF198/000050) (Myrtaceae)
Syzygium hedraiophyllum	Gully Satinash	Small bushy tree with large glossy leaves and weeping branches. Attractive red/brown new growth. (Myrtaceae)
Syzygium hemilamprum	Blush Satinash	Bushy small tree with white flowers, showy white fruit and pink/brown new growth. Excellent screen plant. Hardy. (Myrtaceae)
Syzygium johnsonii	Rose Satinash	Small to medium tree with red/purple new growth. Fluffy white flowers and purple fruit. (Myrtaceae)
Syzygium luehmannii Rocky River	Rocky River Lilly-Pilly	Highly ornamental large shrub with brilliant pink/red weeping foliage, white flowers and red fruit. Water regularly. (Myrtaceae)
Syzygium macilwraithianum		Very rare tree from Cape York Peninsula. Very hardy. Brownish red new growth and mass of white flowers. (Myrtaceae)
Syzygium monospermum	Daintree Satinash	Medium sized rainforest tree with paired, stem-clasping leaves. New flushes are mauve. (Myrtaceae)
Syzygium sayeri	Pink Satinash	Very fast growing, hardy, small tree with white flowers. Ideal screen plant. Plant in full sun for best results. (Myrtaceae)
Syzygium smithii	Lilly Pilly	Dense shrub with white flowers and red/brown new growth. Pink to purple fruit. Very hardy. Can be pruned to shape and used as a hedge. (Myrtaceae)
Syzygium sp. Mt Mulligan	Mt Mulligan Satinash	A rare plant. A large shrub or small tree with lovely dense bushy foliage and dainty pink new growth. (Myrtaceae)
Syzygium tierneyanum	River Cherry	Medium spreading tree with masses of fluffy cream flowers and white or red fruit. Dense foliage. Very hardy. Excellent screen. (Myrtaceae)
Syzygium unipunctatum	Roly-Poly Satinash	Small bushy tree with flushes of brilliant red new growth. Highly ornamental. Will tolerate moderate frosts. Best in high rainfall areas. (Myrtaceae)
Syzygium wilsonii	Powder-Puff Lilly-Pilly	Very attractive weeping shrub with bright pink new growth and large red pompom flowers. Should be planted in semi-shade. Highly ornamental. (Myrtaceae)
Syzygium xerampelinum	Mulgrave Satinash	Small tree with weeping branches and beautiful purple/black new growth. Fairly hardy. (Myrtaceae)
Tabernaemontana orientalis	Banana Bush	Small shrub with perfumed flowers and bright orange-yellow, banana-like fruit. Hardy. Suitable for semi-shade or full sun. Caution: milky sap might burn the skin. (Apocynaceae)
Tecomanthe hillii*	Fraser Island Creeper	Spectacular and vigorous vine with dark green leaves and sprays of bright pink, bell-shaped flowers. Frost tender. A stunning ornamental vine. Great over a pergola. (Bignoniaceae)

Latin name	Common name	Description
Tecomathe sp. Roaring Meg	Roaring Meg	Rare and spectacular North Queensland vine. Bears large clusters of very showy pink tubular flowers. Excellent for trellis or pergola. (Bignoniaceae)
Terminalia arenicola	Brown Damson	Excellent shade tree with spreading habit. Deciduous and quite hardy. Suitable for beach plantings. (Combretaceae)
Terminalia catappa	Sea Almond	Attractive spreading tree with layered form and large leaves which assume autumn colour before shedding. Large fruit contain edible nuts. Ideal for beach plantings. (Combretaceae)
Terminalia complanata	Claudie Damson	Fast growing hardy tree with layered growth. Fruit attracts birds. From Cape York Peninsula. (Combretaceae)
Thuja orientalis "Morgan" *	Morgan	A very bushy dwarf conifer, perfect for tight spaces. Attractive lime green new growth. Slow growing to 80cm high. (Cupressaceae)
Thysanolaena maxima *	Tiger Grass	Looks like Bamboo, but isn't! Fast growing clumping grass, excellent for creating a thick screen to block out your neighbours. Full sun or part shade. (Poaceae)
Tibouchina heteromalla "Jazzie"	Jazzie	A small shrub to 1m tall, bearing masses of rich purple flowers, on and off throughout the whole year. Great for small hedges and edging. Best in full sun. (Melastomataceae)
Toechima daemelianum	Cape Tamarind	Medium-sized tree with attractive foliage and pinkish/brown new growth. Bright orange fruit. Quite hardy. (Sapindaceae)
Toechima erythrocarpum	Pink Tamarind	Small tree with compound leaves and large leaflets. Large apricot-coloured fleshy fruit. (Sapindaceae)
Toona ciliata (australis)	Red Cedar	Fast growing, hardy tree which develops a spreading shady crown. Famous for its beautiful timber. (Meliaceae)
Viburnum odoratissimum	Emerald Lustre	Dense screening/ hedging plant with glossy leaves and pinky bronze new growth. Fast growing to 3-4m tall. Responds well to pruning. Fragrant white flowers over Summer. Tolerates wind well. Best in full sun. (Adoxaceae)
Viola hederacea	Native Violet	Attractive spreading plant with blue and white flowers. Can be grown in the sun if permanently moist. Requires a moist sheltered position. Not suitable for inland areas. (Violaceae)
Vitex ovata	Beach Vitex	Prostrate ground-cover plant to about 20 cm high. Small spikes of purple/mauve flowers. Very hardy. Best in full sun - grows naturally on sandy beaches. (Lamiaceae)
Westringia "Wynyabbie Gem"	Wynyabbie Gem	Fast growing dense shrub. Grey leaves and purple flowers. Plant in full sun in well drained soil. Prune to shape. (Lamiaceae)
Westringia fruticosa	Native Rosemary	Hardy compact shrub with blue grey leaves. White flowers produced most of the year. Full sun. Tolerates a wide range of soils and conditions. Prune to shape. (Lamiaceae)
Whyanbeelia terrae-reginae	Whyanbeelia	Large shrub to small tree with dense habit and slightly weeping foliage. A very rare plant. Fast growing, but requires plenty of moisture. Best suited to high rainfall areas. (Euphorbiaceae)
Xanthophyllum fragrans	Fragrant Boxwood	Large shrub or small tree with pendulous branches. Large, white, perfumed flowers. Frost tender. Water well. (Xanthophyllaceae)
