Common name	Latin name	Description
	<i>Grevillea banksii</i> var. <i>forsterii</i> *	Hardy, fast-growing, medium shrub growing about 2-3 metres high. Dark red flowers all year. Attracts birds. Best in a well drained sunny spot. (Proteaceae)
	<i>Melaleuca bracteata</i> "Green Form"	Tall shrub with bright green leaves. Good screen. Very hardy (form of <i>Melaleuca bracteata</i>) (Myrtaceae)
	<i>Phaleria octandra</i>	Medium sized shrub with clusters of fragrant white tubular flowers in late spring. (Thymelaeaceae)
	<i>Syzygium macilwraithianum</i>	Very rare tree from Cape York Peninsula. Very hardy. Brownish red new growth and mass of white flowers. (Myrtaceae)
	<i>Banksia oblongifolia</i> *	A small shrub commonly only growing to 1m high with beautiful yellow-green banksia flowers. Plant in full sun. (Proteaceae)
"Cooroora Cascade"	<i>Grevillea</i> "Cooroora Cascade"**	A low growing grevillea to 0.5m. Can grow very wide. It has beautiful long golden toothbrush flowers that occur during late summer to the end of autumn. Very bird attracting. Likes a well-drained position in full sun. (Proteaceae)
"Long John"	<i>Grevillea longistyla</i> *	Large fast growing shrub. Masses of crimson flowers for most of the year. Needs a well drained, sunny position. (Proteaceae)
Acid Drop Fruit	<i>Melodorum leichhardtii</i>	Hardy vine with perfumed flowers. Delicious fruit. Food plant of 4 Bar Swordtail, Green Spotted Triangle and Pale Blue Triangle. (Annonaceae)
African Iris	<i>Dietes bicolor</i> *	Very hardy clumping strappy leaved plant with attractive yellow flowers held on stalks above the foliage. Best in sun or part shade. (Iridaceae)
Allyn Magic	<i>Acmena</i> "Allyn Magic"**	(Myrtaceae)
Amber Blaze	<i>Grevillea</i> "Amber Blaze"**	A low growing, spreading grevillea to 1m high, bearing beautiful amber coloured flowers all year round, which attract birds. Plant in a sunny, well drained position. (Proteaceae)
Aniseed Aspen	<i>Melicope melanophloia</i>	Shrub or small tree with strong aniseed smell to crushed leaves. Attractive white flowers. (Rutaceae)
Aniseed Myrtle	<i>Syzygium anisatum</i>	Medium sized shrub. Strong aniseed smell to crushed leaves, which are used as a bushfood spice, as well as a source of essential oil. Prune to thicken up. Very hardy. (Myrtaceae)
Atherton Oak	<i>Athertonia diversifolia</i>	Medium tree with beautiful large lobed juvenile leaves, racemes of cream/white flowers, and blue fruit containing an edible nut. Superb foliage plant. Requires a humid protected position. (Proteaceae)
Aussie Boomer	<i>Syzygium</i> "Aussie Boomer"	Medium sized dense shrub with bright red new growth. Perfect for hedging and screening. White puffy flowers followed by a small pink edible berry. (Myrtaceae)
Aussie Compact	<i>Syzygium</i> "Aussie Compact"	A small compact form of <i>Syzygium australe</i> . Excellent screen. (Myrtaceae)

Common name	Latin name	Description
Australian Indigo	<i>Indigofera australis</i>	A hardy shrub bearing masses of bright purple to pink pea flowers. Adaptable and frost tolerant. Prune to thicken. Full sun or semi-shade. (Fabaceae)
Babinda Satinash	<i>Syzygium boonjee</i>	Large shrub with beautiful apricot flowers from weeping branches. Must be grown in the shade. Suitable for use as a tub plant. (Myrtaceae)
Baby Boomer	<i>Syzygium australe</i> "Baby Boomer"	A compact, small to medium shrub that is ideal as a screen or hedge plant. (Myrtaceae)
Bacopa monniera	Brahmi	Used in traditional Indian medicine for over 3000 years and recent studies suggest it may improve memory and learning. Eat fresh or dry and make tea. Very easy to grow; best in damp conditions. (Scrophulariaceae)
Bamaga Satinash	<i>Syzygium bamagense</i>	Medium to large tree with large glossy leaves. Very fast growing. Hardy. Large white fruit. (Myrtaceae)
Banana Bush	<i>Tabernaemontana orientalis</i>	Small shrub with perfumed flowers and bright orange-yellow, banana-like fruit. Hardy. Suitable for semi-shade or full sun. Caution: milky sap might burn the skin. (Apocynaceae)
Beach Aspen	<i>Acronychia imperforata</i>	Medium sized bushy tree, bearing edible orange fruits, good for jam making. Useful as a windbreak or for screening. The white flowers attract butterflies. (Rutaceae)
Beach Vitex	<i>Vitex ovata</i>	Prostrate ground-cover plant to about 20 cm high. Small spikes of purple/mauve flowers. Very hardy. Best in full sun - grows naturally on sandy beaches. (Lamiaceae)
Bennett's Ash	<i>Flindersia bennettiana</i>	Medium tree from southern Queensland with a neat crown. Good small shade tree. Masses of white flowers. (Rutaceae)
Bernie's Cleistanthus	<i>Cleistanthus hylandii</i>	Hardy large shrub to small tree with extremely beautiful bright red to purple new growth. From Cape York Peninsula. A great screen. (Euphorbiaceae)
Bernie's Tamarind	<i>Diploglottis bernieana</i>	Small slender palm shaped tree with huge bright green compound leaves and large, furry brown edible fruit. Decorative foliage. (Sapindaceae)
Big Red	<i>Anigozanthos</i> "Big Red"	A vigorous hybrid Kangaroo Paw with bright red flowers. Must have an open, well drained, sunny position. (Haemodoraceae)
Bird of Paradise	<i>Strelitzia reginae</i> *	Clumping plant to 2m tall with upright architectural leaves and attractive nectar filled flowers. Plant in full sun to semi-shade. (Strelitziaceae)
Bird's Nest Fern	<i>Asplenium australasicum</i>	Classic 'birdnest' fern with a ring of undivided bright green fronds up to 70 cm long. Grows on tree trunks in rainforest. (Aspleniaceae)
Black Bean	<i>Castanospermum australe</i>	Medium spreading tree renowned for its lovely timber. Masses of yellow flowers along the branches. Large decorative woody seed pods. Often slow growing for first few years. Benefits from protection when young. (Fabaceae)
Black Olive Plum	<i>Cassine melanocarpa</i>	Large shrub or small tree, naturally occurring in monsoon forest and drier rainforest. Small white flowers followed by a black fleshy fruit. (Celastraceae)

Common name	Latin name	Description
Black Tulip Oak	<i>Argyrodendron polyandrum</i>	Tree with large glossy leaves, bronze on the underside. Quite hardy. (Malvaceae)
Bloomfield Penda	<i>Xanthostemon verticillatus</i>	Dense shrub with large heads of fluffy cream-white flowers. A very attractive plant. Excellent in the garden or as a tub plant. (Myrtaceae)
Blue Fescue	<i>Festuca glauca*</i>	Small clumping ornamental grass, forming dense bluey grey tufts. Bears attractive wheat-like seed heads. Full sun. (Poaceae)
Blue Flax Lily	<i>Dianella caerulea</i>	Small clumping plant with broad upright leaves. Blue flowers on long stalks. Best in semi-shade. (Hemerocallidaceae)
Blue Ginger	<i>Dichorisandra thyrsiflora*</i>	Tropical clumping ginger like plant to 1.5m tall, bearing eye-catching purple flower spikes over Summer and Autumn. Likes a moist, shady position. (Commelinaceae)
Blue Quandong	<i>Elaeocarpus grandis</i>	Tall, fast growing rainforest tree with straight bole and tiered branches. Edible blue fruit followed bell shaped flowers. Grown for hardwood timber. Very hardy. (Elaeocarpaceae)
Blue Umbrella	<i>Mackinlaya macrosciadea</i>	An open shrub with leaves like an umbrella tree, with large clusters of blue-grey fruit. Great for shady spot or tub plant. (Araliaceae)
Blush Satinash	<i>Syzygium hemilamprum</i>	Bushy small tree with white flowers, showy white fruit and pink/brown new growth. Excellent screen plant. Hardy. (Myrtaceae)
Boronia	<i>Boronia keysii</i>	An evergreen shrub with pink star shaped flowers appearing in early spring. Prefers light, well drained soil in a protected position. Is drought resistant but frost tender. (Rutaceae)
Bower of Beauty	<i>Pandorea jasminoides</i>	Large fast growing vine with large pink flowers in bunches. (Bignoniaceae)
Brown Birch	<i>Scolopia braunii</i>	Fast, hardy very bushy tree. Excellent windbreak. Bright red new growth. Can be pruned heavily into a shrub. Food plant of Australian Rustic Butterfly. (Flacourtiaceae)
Brown Damson	<i>Terminalia arenicola</i>	Excellent shade tree with spreading habit. Deciduous and quite hardy. Suitable for beach plantings. (Combretaceae)
Brown Gardenia	<i>Atractocarpus fitzalanii</i>	Medium to large shrub with large stiff dark green leaves and attractive white perfumed flowers. (Rubiaceae)
Brown Silky Oak	<i>Darlingia darlingiana</i>	Fast growing tree with attractive lobed leaves. Large spikes of white flowers. Fairly hardy. (Proteaceae)
Brown Tuckeroo	<i>Cupaniopsis flagelliformis</i>	Very attractive tree with lovely serrated compound leaves, soft pink new growth and showy orange-yellow fruit. (Sapindaceae)
Brush Box	<i>Lophostemon confertus</i>	Well shaped medium to tall tree. Hardy and adaptable for most soils. Large, glossy leaves with white flowers in summer. (Myrtaceae)

Common name	Latin name	Description
Buff Carabeen	<i>Aceratium doggrellii</i>	Beautiful densely conical tree with upward pointing branches, small leaves. (Elaeocarpaceae)
Bumpy Satinash	<i>Syzygium cormiflorum</i>	Medium tree with large cream fluffy flowers on the trunk and branches, followed by large white fruit. Attractive purple new growth. A terrific shade tree. (Myrtaceae)
Bungadinnia Satinash	<i>Syzygium bungadinnia</i>	Rare tree from Cape York Peninsula. Very hardy. Spectacular orange, papery bark & white flowers. (Myrtaceae)
Bunya Pine	<i>Araucaria bidwillii</i>	One of Australia's tallest and most distinctive conifers, with its domed crown of numerous radiating branches. It has been growing in Australia since the Jurassic - the Age of Dinosaurs. (Araucariaceae)
Burdekin Plum	<i>Pleiogynium timorense</i>	Very hardy tree with edible fruit. Makes a good shade tree in dry areas. (Anacardiaceae)
Caboolture	<i>Grevillea "Caboolture"</i> **	Medium to large bushy shrub. Very fast growing and hardy, with showy salmon flowers for most of the year. Requires good drainage and full sun. Attracts birds. (Proteaceae)
Caloundra Gem	<i>Grevillea "Caloundra Gem"</i> **	Medium to large bushy shrub with deeply divided foliage. Very fast growing and hardy, with showy salmon flowers for most of the year. Requires good drainage and full sun. Attracts birds. (Proteaceae)
Cameo Pink	<i>Callistemon "Cameo Pink"</i>	Medium shrub with attractive rose pink flowers. Does best in full sun. Usually frost resistant. (Myrtaceae)
Camphor Bush	<i>Baeckea camphorata</i>	Small dainty shrub with masses of tiny white flowers. Best in full sun (Myrtaceae)
Canberra Gem	<i>Grevillea "Canberra Gem"</i> **	Spreading, medium sized shrub. Upright spiky foliage, bright pink spidery flowers. Full sun, well drained position. Prune after flowering. Tolerates frost and cold winters. Good for Herberton to Ravenshoe. (Proteaceae)
Cape Ironwood	<i>Gossia floribunda</i>	Dense medium shrub with spectacular masses of small white flowers. Very hardy. Sun or part shade. (Myrtaceae)
Cape Jitta	<i>Fagraea berteriana</i>	Medium shrub with large bright green almost succulent stiff leaves in pairs, and huge cream flowers with beautiful perfume. Quite hardy. (Loganiaceae)
Cape Laceflower	<i>Archidendron hirsutum</i>	Rare and spectacular tree. Heads of crimson fluffy flowers. Hardy. (Fabaceae)
Cape Plum	<i>Flacourtia</i> sp. Shiptons Flat bisexual	Large, dense, bushy shrub with brilliant red new growth and compact rounded shape. Edible plum-like fruit. A very ornamental plant. Bisexual plants are self-fertile. (Flacourtiaceae)
Cape Plum	<i>Flacourtia</i> sp. Shiptons Flat	Large, dense, bushy shrub with brilliant red new growth and compact rounded shape. Edible plum-like fruit. A very ornamental plant. Plants may be male or female. Male plants will not bear fruit. (Flacourtiaceae)
Cape Tamarind	<i>Toechima daemelianum</i>	Medium-sized tree with attractive foliage and pinkish/brown new growth. Bright orange fruit. Quite hardy. (Sapindaceae)

Common name	Latin name	Description
Cape York Dianella	Dianella "Cape York Dwarf"	Understorey compact clumping plant from Cape York with small blue star-like flowers followed by purple berries. Part/full shade. (Hemerocallidaceae)
Cape York Melaleuca	Melaleuca foliolosa	Shrub to small tree from Cape York Peninsula. Attractive tiny scale-like leaves. Interesting 'bonsai' form. Small white bottlebrush flowers. (Myrtaceae)
Cape York Tea Tree	Asteromyrtus brassii	Large shrub or small tree with unusual spherical, deep red flowers along the branches. Hardy. Flowers all year. (Myrtaceae)
Captain Cook	Callistemon "Captain Cook"	Compact, well shaped small shrub. Showy red bottlebrush flowers. Suitable as a screen. (Myrtaceae)
Cardwell	Leptospermum "Cardwell"	Beautiful, graceful weeping shrub with masses of small white flowers in spring. Best in a full sun position. (Myrtaceae)
Cardwell Kunzea	Kunzea graniticola	Small shrub with fluffy white flowers. Very rare plant. Requires sunny, moist conditions. (Myrtaceae)
Carmona	Carmona retusa	Small shrub with dark green, stiff foliage and small white flowers on arching twigs. Very hardy. Full sun or part shade. (Boraginaceae)
Cascading Bean	Maniltoa lenticellata	Highly ornamental small tree with very spectacular, cascading pink new growth. Fluffy white balls of flowers. Quite hardy. Protect from wind. (Fabaceae)
Cat's Whiskers - mauve	Orthosiphon aristatus "Mauve"	Bushy, herbaceous plant. Spikes of showy purple flowers. Sun or semi-shade. Prune to shape. (Labiatae)
Cat's Whiskers - white	Orthosiphon aristatus "White"	Bushy, herbaceous plant. Spikes of showy white flowers. Sun or semi-shade. Prune to shape. (Labiatae)
Cheese Fruit	Morinda citrifolia var citrifolia	Small spreading tree with glossy foliage. Small white flowers. Strong smelling large white fruit. Suitable for beach planting. (Rubiaceae)
Chillagoe Bottle Tree	Brachychiton chillagoensis	A medium shrub endemic to the Chillagoe/Dimbulah/Georgetown area. Rare in cultivation. Bears attractive rose pink flowers. (Authorised Propagators Qld.No. APQF198/000050) (Malvaceae)
Clarence River Baeckea	Baeckea sp. Clarence River	Medium shrub with fine dainty foliage and weeping form. Dainty white flowers. (Myrtaceae)
Claret Hoya	Hoya pottsii*	Hardy vine with cream flowers and attractive foliage. Does best in a large hanging basket where it will flower regularly. (Asclepiadaceae)
Claret Tops	Melaleuca "Claret Tops"	Small to medium shrub. Attractive flushes of copper/red new growth. Small white flowers. Best in full sun. Suitable for most areas. (Myrtaceae)
Claudie Damson	Terminalia complanata	Fast growing hardy tree with layered growth. Fruit attracts birds. From Cape York Peninsula. (Combretaceae)

Visit our Nursery!

We're at 5970 Kennedy Highway, Walkamin (between Mareeba and Atherton) on the Atherton Tablelands, north Queensland.

Business hours: Monday - Saturday 9am to 5pm, Sunday 9am to 2pm; closed public holidays.

Common name	Latin name	Description
Claudia Tulip Wood	<i>Harpullia ramiflora</i>	Large shrub or small tree with small, cream, perfumed flowers and bright red fruit. Hardy. (Sapindaceae)
Climbing Fig	<i>Ficus pantoniana</i>	Australia's only climbing fig. Grow in a hanging basket or over a stump. Does best in semi-shade. Water regularly. (Moraceae)
Climbing Fig	<i>Ficus pumila</i>	Small leaved climbing fig, great for covering old, unsightly fences and walls. A very easy, low maintenance way to create a "green wall"! Will damage paintwork and finishes though, so don't use on any brand new structures. Sun or shade. (Moraceae)
Climbing Guinea Flower	<i>Hibbertia scandens</i>	Very hardy climber or cascading plant with huge buttercup flowers spring to summer. Full to filtered sun, suitable for most positions including the coast. (Dilleniaceae)
Coast Banksia	<i>Banksia integrifolia*</i>	Large shrub or small tree with stiff leaves and cream brushes. Very hardy. Plant in full sun in a well drained spot. (Proteaceae)
Coast Cottonwood	<i>Hibiscus tiliaceus</i>	Very hardy, fast growing, bushy, small to medium tree. Makes a good shade tree when lower branches removed. Especially suitable for inland and coastal areas. Yellow hibiscus flowers. (Malvaceae)
Coen Kurrajong	<i>Brachychiton grandiflorus</i>	Small tree with large heart-shaped leaves. Large pink flowers on branches. Hardy. (Authorised Propagators Qld.No. APQF198/000050) (Malvaceae)
Common Ginger	<i>Alpinia caerulea "Red"</i>	Clumping foliage plant. Leaves undersides a striking deep maroon colour. Small white flowers. Attractive fruit. Full sun or part shade. Not suitable for dry inland areas. (Zingiberaceae)
Common Maidenhair Fern	<i>Adiantum aethiopicum</i>	A pretty maidenhair type fern with large fronds. Suitable for shady moist positions. (Adiantaceae)
Common or Lacy Treefern	<i>Cyathea cooperi</i>	Fast growing hardy tree fern. Slender trunk with crown of bright green fronds to 2 metres long. Takes full sun in moist areas. (Cyatheaceae)
Compact Foxtail Grass	<i>Pennisetum alopecuroides "Nafray"</i>	Graceful compact clumping grass with many sprays of white/tan flowers. Sun/semi-shade. Hardy. (Poaceae)
Cooktown Tulipwood	<i>Harpullia arborea</i>	Small to medium tree with spreading habit. Very showy orange fruit from the branches. (Sapindaceae)
Cooper Creek Lilly-Pilly	<i>Syzygium glenum</i>	Very rare plant from Cooper Creek near Cape Tribulation in the Daintree area. Very large, leathery, rusty brown fruit. (Authorised Propagators Qld.No. APQF198/000050) (Myrtaceae)
Copper Glow	<i>Leptospermum "Copper Glow"</i>	Medium to tall shrub with beautiful coppery tinge to the foliage. Can be formed into a lovely rounded shape with regular light pruning. Best in full sun. (Myrtaceae)
Coralwood	<i>Adenanthera pavonina</i>	Fast growing spreading tree suitable for shade. Attractive foliage and bright red shiny seeds that can be used to make jewellery. Does well near the beach. (Fabaceae)
Corkwood	<i>Melicope elleryana</i>	Fast growing tree with beautiful pink flowers along the branches. Food plant of the spectacular Ulysses Butterfly. (Rutaceae)

Common name	Latin name	Description
Cotton Candy	Melaleuca "Cotton Candy"	Small shrub. Dense rounded shape with bright pink feathery flowers. Full sun. Great rockery plant. (Myrtaceae)
Cousin It	Casuarina glauca "Cousin It"*	A dense groundcover casuarina, spreading up to 2.5m wide. An unusual and attractive feature plant. Very hardy and a good weed suppressant, because it is so thick. Best in full sun. (Casuarinaceae)
Creek Satinash	Syzygium australe	Large shrub to small tree. Bushy and hardy. Ideal as a screen plant. Masses of white flowers followed by edible pink fruit. (Myrtaceae)
Creek Satinash (NQ Bushy Form)	Syzygium australe "N. Qld Bushy Form"	Bushy shrub with masses of white, fluffy flowers followed by edible pink fruit. Ideal for use as a screen plant. Suitable for most areas. (Myrtaceae)
Creek Satinash SQ Form	Syzygium australe Sth. QLD form	Medium to large, dense shrub with masses of white, fluffy flowers followed by edible pink fruit. Ideal for use as a small screen plant. Suitable for most areas. (Myrtaceae)
Croton	Croton variegatum assorted*	A colourful tropical foliage plant, which comes in more varieties than you can poke a stick at! Can be grown in full sun or light shade. (Euphorbiaceae)
Crows Ash	Flindersia australis	Medium to tall tree with dark glossy green foliage. Sprays of white flowers are followed by ornamental woody fruit used widely for floral decoration. Excellent timber. (Rutaceae)
Cunjevoi	Alocasia brisbanensis	Lily-like plant with large, soft leaves. Does best in semi-shade with plenty of moisture. (Araceae)
Daintree Medinilla	Medinilla balls-headleyi*	Scrambling or semi-prostrate shrub with beautiful pale pink flowers and psychedelic pink fruit. Makes a lovely hanging basket specimen. \$15.00 (Melastomataceae)
Daintree Penda	Lindsayomyrtus racemoides	Rainforest large shrub to small tree with eye-catching mauve new flushes of leaves. (Myrtaceae)
Daintree Satinash	Syzygium monospermum	Medium sized rainforest tree with paired, stem-clasping leaves. New flushes are mauve. (Myrtaceae)
Davidson's Plum	Davidsonia pruriens	Small slender tree with large lobed leaves and masses of large purple plum-like fruit. Makes good jam, salted plums or wine. Best in high rainfall areas. (Davidsoniaceae)
Dawson River	Callistemon "Dawson River"	Tall weeping shrub with red flowers. Attractive to birds. Very hardy. Will tolerate both wet and dry conditions. Can be pruned to act as a screening plant. (Myrtaceae)
Desert Star	Carissa grandiflora	A small, compact shrub to 1m tall with glossy round leaves and white, sweetly scented, star shaped flowers. A hardy, and drought tolerant plant. Great for coastal areas as it can handle salty winds. (Apocynaceae)
Dissiliaria	Dissiliaria surculosa	Extremely rare plant from Cape York Peninsula. Medium to large shrub with very attractive, dense foliage. Pyramid form. Quite hardy. Sun or shade. (Euphorbiaceae)
Dwarf Baeckea	Baeckea virgata "Miniature"	Ideal for rockeries, this dwarf form of Baeckea spreads to form a small, mounded shrub. Masses of white flowers. Prune lightly after flowering to keep compact. (Myrtaceae)

Common name	Latin name	Description
Dwarf Golden Penda	Xanthostemon chrysanthus "Little Goldie"	A compact, dwarf cultivar of the popular Golden Penda making a rounded bush, rarely more than 1 metre high, with narrow dark green leaves about 8 cm long. New growth bronzy pink. (Myrtaceae)
Dwarf Sacred Bamboo	Nandina domestica nana*	A compact, neat shrub to 45cm tall, which will tolerate sun or shade, and dry conditions. Decorative autumnal orange foliage and lime green new growth. Not a bamboo at all! (Berberidaceae)
Emerald Beauty	Callistemon "Emerald Beauty"	Medium shrub growing with dense compact foliage and pink new growth. Showy red bottlebrush flowers with yellow tips. Hardy and suitable for most areas. (Myrtaceae)
Emerald Lustre	Viburnum odoratissimum	Dense screening/ hedging plant with glossy leaves and pinky bronze new growth. Fast growing to 3-4m tall. Responds well to pruning. Fragrant white flowers over Summer. Tolerates wind well. Best in full sun. (Adoxaceae)
Emu Creek Fuchsia	Graptophyllum "Red Emu"	Very hardy, small shrub with thick bushy habit. Bright red fuchsia type flowers. (Acanthaceae)
Endeavour	Callistemon "Endeavour"	Medium upright shrub. Well shaped and hardy. Large bright red bottlebrush flowers. Open sunny position. (Myrtaceae)
Eureka	Callistemon "Eureka"	Tall upright shrub with brilliant purple flowers in profusion in spring. Showy pink new growth. Suitable for screening. (Myrtaceae)
False Gardenia	Atractocarpus sessilis	Medium to large shrub with large stiff dark green leaves and masses of beautiful white flowers with gardenia-like perfume. Very hardy. (Rubiaceae)
Feather Tips	Baeckea "Feather Tips"	Small shrub. Dainty form with weeping, feathery branches. May be pruned heavily into a dense bush if required. (Myrtaceae)
Fern-Leafed Tamarind	Sarcotoechia serrata	Large shrub or small tree with beautiful fern-like foliage and delicate soft pink new growth. Requires semi-shade and regular watering. A beautiful ornamental plant. (Sapindaceae)
Ferny Phyllanthus	Phyllanthus lamprophyllus	Small, weeping shrub with very attractive ferny foliage. Suitable for full sun or semi-shade. Benefits from regular pruning. (Phyllanthaceae)
Fibrous Satinash	Syzygium fibrosum	Large shrub to small tree with purple new growth. Large white fluffy flowers and delicious red fruit. Very hardy. Makes tasty jam. (Myrtaceae)
Fiji	Metrosideros "Fiji"*	A hardy shrub to 3m tall, bearing eye-catching fluffy orange-red flowers, which birds love. Great for coastal plantings and windbreaks, as it is wind and salt tolerant. Also useful as a privacy screen. (Myrtaceae)
Findlay's Silky Oak	Grevillea baileyana	Fast growing, hardy small tree. Beautiful foliage - underside brilliant bronze. Spectacular white flowers. (Proteaceae)
Firesprite	Grevillea "Firesprite"*	Small to medium shrub with bright red flowers that attract nectar feeding birds. (Proteaceae)
Flaky-Barked Satinash	Syzygium forte subsp. potamophilum	Hardy tree with papery bark. Excellent for coastal plantings. White flowers & edible fruit. Differs from Syzygium forte in having narrower leaves. (Myrtaceae)

Common name	Latin name	Description
Flame Tree	<i>Brachychiton acerifolius</i>	Produces masses of brilliant red flowers. Deciduous when flowering. Hardy and fast growing. Food plant of Common Aeroplane and Penciled Blue Butterflies. (Authorised Propagators Qld.No. APQF 198/000050) (Malvaceae)
Flash	<i>Ficus hillii</i> "Flash"	A dense, compact form of <i>Ficus hillii</i> , that is used for screening as a clipped hedge, and topiary. Lends a formal, manicured look to the garden. Fast growing and can be grown in sun or part shade. It is a fig though, so don't plant close to pipes or drains! (Moraceae)
Flax Lily	<i>Dianella brevipedunculata</i>	Small clumping plant with showy blue flowers and fruit. Suitable for sun or shade. Rosella Parrots eat the fruit. (Hemerocallidaceae)
Flecker's Hard Alder	<i>Neostrearia fleckeri</i>	Rare, medium-sized evergreen rainforest tree with alternate leaves and pendent spikes of white flowers in winter (May to July). Needs high rainfall and shelter. (Hamamelidaceae)
Fragrant Boxwood	<i>Xanthophyllum fragrans</i>	Large shrub or small tree with pendulous branches. Large, white, perfumed flowers. Frost tender. Water well. (Xanthophyllaceae)
Fraser Island Creeper	<i>Tecomanthe hillii</i> *	Spectacular and vigorous vine with dark green leaves and sprays of bright pink, bell-shaped flowers. Frost tender. A stunning ornamental vine. Great over a pergola. (Bignoniaceae)
Fried Egg Plant	<i>Gordonia axilaris</i> *	A perfect compact shade tree for a small garden, growing to 5m tall with a bushy, dome shaped canopy. Blooms prolifically with large white and yellow flowers over Autumn and Spring, hence the common name! Sun or part shade. (Theaceae)
Gardenia "Magnifica"	<i>Gardenia augusta</i>	A classic, glossy leaved shrub, growing 1.5 - 2m tall, great for hedging. Deliciously scented, large, white flowers. Can grow in sun or part shade, but leaves may scorch in full-on afternoon sun. (Rubiaceae)
Glasshouse Country	<i>Callistemon</i> "Glasshouse Country"	A tall shrub with bottlebrush flowers. The foliage is stiff and sharply pointed with pale young growth. The main flowering periods are spring and autumn. (Myrtaceae)
Glennie River Gardenia	<i>Gardenia</i> sp. Glennie River	A very hardy native gardenia with prostrate habit. Large, stiff leaves and white flowers. Does best in dappled shade. (Rubiaceae)
Glossy Tamarind	<i>Guioa acutifolia</i>	Small tree with dark green leaves. Mass of small white flowers. Quite hardy. A useful screen plant. (Sapindaceae)
Golden Lyre	<i>Grevillea</i> "Golden Lyre"**	A spectacular small shrub, this hybrid grevillea has green/yellow brush flowers occurring over a long period in summer and autumn. Can grow very wide. Very bird attracting. Likes a well-drained position in full sun. (Proteaceae)
Golden Moss	<i>Sedum acre</i>	A shallow rooted succulent plant with yellow-green foliage and bright yellow flowers. Spreads and roots along the ground so can be used as a groundcover, in rock walls, wall gardens, and "green rooves", as it does not require much soil to grow. Full to part sun. (Crassulaceae)
Golden Myrtle	<i>Metrosideros queenslandica</i>	Small to medium tree with dense foliage. Spectacular heads of bright yellow flowers. Requires regular watering. Suitable only for high rainfall areas. (Myrtaceae)
Golden Paperbark	<i>Melaleuca leucadendra</i> "Gold"	A hardy small tree with upright habit and golden foliage. Excellent for a wet spot. (Myrtaceae)
Golden Penda	<i>Xanthostemon chrysanthus</i>	Large shrub or small tree with spectacular, large heads of bright yellow flowers. Tip prune when young to create bushy form and promote mass flowering. Hardy. (Myrtaceae)

Common name	Latin name	Description
Golden Shower	Cassia sp. Paluma Range	Small tree with glossy dark green foliage, spectacular racemes of bright yellow flowers, and beautiful brown papery bark. A beautiful native cassia. Very hardy. (Fabaceae)
Golden Tea Tree	Melaleuca bracteata "Gold Form"	Tall bushy shrub with attractive golden foliage and dense habit. A very hardy plant which is an excellent screen. (Myrtaceae)
Golden Toothbrush	Grevillea pteridifolia*	Open, wispy, large shrub to small tree with bright orange toothbrush flowers in great profusion. Attracts birds. Requires open, sunny, well drained position. (Proteaceae)
Green Island Fig	Ficus microcarpa "Green Island"	Lush, sprawling shrub with vibrant green glossy foliage. Great as a low maintenance ground cover for sun or shade. Also recommended for Bonsai. (Moraceae)
Grevillea venusta	Grevillea venusta*	Medium to large shrub with attractive lobed leaves. Unusual yellow and green flowers. Very hardy, plant in full sun. (Proteaceae)
Grey Myrtle	Backhousia myrtifolia	Large dense shrub or small tree with masses of white fluffy flowers. Very hardy. (Myrtaceae)
Gully Satinash	Syzygium hedraiophyllum	Small bushy tree with large glossy leaves and weeping branches. Attractive red/brown new growth. (Myrtaceae)
Hairpin Banksia	Banksia spinulosa*	Small shrub. Dense habit with spectacular large gold Banksia flowers. Best in full sun. Suitable for most areas. (Proteaceae)
Hairy Bush-Pea	Pultenaea villosa	Small shrub with hairy young growth and yellow to orange pea flowers. Hardy. For sun or part shade. (Fabaceae)
Hakea	Hakea persiehana	Medium to tall shrub with cream flowers and lovely fine foliage. Attractive, woody fruit. Plant in full sun. (Proteaceae)
Hann Gardenia	Gardenia psidioides	Prostrate spreading native gardenia with white flowers. Excellent ground cover. (Rubiaceae)
Hannah Ray	Callistemon "Hannah Ray"	Hardy medium to large shrub. Soft new growth. Weeping form. Bright red flowers. Makes a good screen. (Myrtaceae)
Harkness	Callistemon "Harkness"	Large rounded shrub. Masses of bright red bottlebrush flowers. A very popular cultivar. (Myrtaceae)
Heath Myrtle	Baeckea virgata	Medium shrub with weeping form, fine foliage and dainty white flowers. Tolerates part shade and heavy pruning. (Myrtaceae)
Herberton Baeckea	Baeckea sp. Herberton Range	Very pretty medium shrub with fine, dainty foliage and very weeping habit. Tiny white flowers in profusion. (Myrtaceae)
Hill's Weeping Fig	Ficus microcarpa var. hillii*	A very attractive medium to large sized tree with glossy foliage, often used as a street tree. Can be heavily pruned and used for topiary. Sun or shade. (Moraceae)

Common name	Latin name	Description
Holly Fuchsia	<i>Graptophyllum ilicifolium</i>	Small shrub. Stiff, holly-like leaves and deep purple/red flowers. Very hardy. For full sun or semi-shade. (Acanthaceae)
Honey Gem	<i>Grevillea "Honey Gem"</i>	Large spreading shrub with deeply divided, mid green leaves. Nectar-laden orange flowers are produced throughout the year. Attracts birds. Fast growing, hardy. Excellent screen. Full sun. (Proteaceae)
Honeycomb	<i>Grevillea "Honeycomb"</i> **	Erect shrub naturally bushy with dense foliage to the ground. Cream flowers prolific in early spring attracting birds. Good screen plant for most areas except in areas with cold winters. (Proteaceae)
Hoop Pine	<i>Araucaria cunninghamii</i>	Fast growing, large dark green conifer with branches in whorls and rough bark which has circular hoops. Makes an excellent tub specimen. (Araucariaceae)
Hybrid midyim	<i>Austromyrtus dulcis x tenuifolia</i>	Small bushy slender-leafed shrub with masses of small pale pink flowers followed by edible fruit. (Myrtaceae)
Indian Beech	<i>Millettia pinnata</i>	Medium spreading tree with large dark green leaves. Racemes of pale purple/white flowers. Suitable for beach planting. Seeds may be used as a source of biodiesel. (Fabaceae)
Indian Mast Tree	<i>Polyalthia longifolia</i> *	A very slender tree with dark green glossy foliage, great for tight spots. Sun or part shade. Can grow to 10m tall. Roots are not particularly invasive. (Annonaceae)
Injune	<i>Callistemon "Injune"</i>	A very pretty, weeping plant with dainty soft grey foliage and lovely pale pink bottlebrush flowers (Myrtaceae)
Iron Range Hibiscus	<i>Hibiscus tozerensis</i>	Small to medium shrub in the Hibiscus family. Pale pink flowers. Very hardy. Full sun or semi-shade. Benefits from pruning. (Malvaceae)
Irvinebank Grevillea	<i>Grevillea glossadenia</i> *	Very attractive, hardy shrub. Leaves green, silver beneath with bronze new growth. Orange flowers amongst foliage. (Proteaceae)
Ivory Curl Tree	<i>Buckinghamia celsissima</i>	Large bushy shrub or small tree with extremely spectacular display of cream flowers. Very hardy. (Proteaceae)
Jazzie	<i>Tibouchina heteromalla "Jazzie"</i>	A small shrub to 1m tall, bearing masses of rich purple flowers, on and off throughout the whole year. Great for small hedges and edging. Best in full sun. (Melastomataceae)
Jester	<i>Grevillea "Jester"</i> **	A dense, medium sized shrub with deep orangey red, slightly perfumed flowers, which honeyeaters love. Likes a well-drained position in full sun. (Proteaceae)
Job's Tears	<i>Coix lacryma-jobi</i>	An easy to grow multi purpose plant. The seeds are used for jewellery, hence the other common name "Necklace Plant". They naturally have a hole through the centre, ready for threading. Seed is also an edible grain (cook first). (Poaceae)
Joseph's Satinash	<i>Syzygium banksii</i>	Large dense bushy shrub or small tree. White flowers and purple fruit. Hardy & tolerates salty winds. (Myrtaceae)
Kadam	<i>Anthocephalus chinensis</i>	Extremely fast growing tall tree with large leaves. Attractive yellow and white ball-like flowers. Deciduous. (Rubiaceae)

Common name	Latin name	Description
Kay Williams	Grevillea "Kay Williams"**	Fast growing, bushy shrub. Masses of large pale orange/peach flowers for most of the year. Needs a well drained, sunny position. (Proteaceae)
Kings Park	Callistemon "Kings Park Special"	A robust, medium to large shrub with deep red flowers in profusion. Prune to shape. Remove old flowers to keep tidy. Suitable for screening. (Myrtaceae)
Knobby Club Rush	Isolepis nodosa*	Native clumping sedge. Flower heads are compact rusty brown balls near the top of the stem. Drought tolerant once established but prefers moist soil. Can be grown in full sun or semi-shade. (Cyperaceae)
Korean Box	Buxus microphylla*	A small, dense, rounded shrub, that is useful for small formal hedges and edges, topiary and bonsai. Fairly drought hardy and can be grown in semi shade or full sun. Height to 1.5m. (Buxaceae)
Kurrajong	Brachychiton populneus*	Medium to large tree with dense, rounded crown. Small cream and brown flowers. Ideal for dry inland areas. (Authorised Propagators Qld.No. APQF198/000050) (Sterculiaceae)
Large Tussock Grass	Poa labillardieri*	Fine blue/green tussock grass with lacy flower heads in summer. Plant in an open position. Tolerates moist/wet soils. (Poaceae)
Lavender Shower	Callistemon "Lavender Shower"	Small shrub. Beautiful lavender flowers for most of the year. Does best in full sun. Best in cooler climates. (Myrtaceae)
Leichhardt Tree	Nauclea orientalis	Large handsome stately tree. Very large leaves and unusual spherical flowers. Excellent for a damp spot. (Rubiaceae)
Lemon Aspen	Acronychia acidula	Small tree with large glossy leaves and large white flowers. Fruit suitable for jam making. (Rutaceae)
Lemon Frost	Leptospermum "Lemon Frost"	Medium shrub. Very hardy. White flowers and beautiful lemon scent to the leaves. (Myrtaceae)
Lemon Myrtle	Backhousia citriodora	Large shrub or small bushy tree with masses of fluffy cream flowers. Crushed leaves have a fantastic lemon scent. Quite hardy. (Myrtaceae)
Lemon Scented Tea Tree	Leptospermum petersonii ssp petersonii	Very attractive medium shrub. Foliage has lemon scent. Benefits from pruning. (Myrtaceae)
Leopard Tree	Caesalpinia ferrea	An attractive shade tree with a broad, dense crown and smooth, mottled grey and white bark. Blooms with bright yellow flowers. Height to 15m. Dense, high quality timber. (Fabaceae)
Lilliane	Grevillea "Lilliane"**	Small sprawling plant that can be used in a hanging basket. Pink and white spider flowers. For full sun or part shade. Usually frost resistant. (Proteaceae)
Lilly Pilly	Syzygium smithii	Dense shrub with white flowers and red/brown new growth. Pink to purple fruit. Very hardy. Can be pruned to shape and used as a hedge. (Myrtaceae)
Lipstick Palm	Cyrtostachys renda*	Multi-stemmed palm with a beautiful bright red trunk that can grow up to 15m tall (eventually)! Slow growing. A statement tropical plant. Not suitable for cooler tableland areas. Best in coastal areas. (Arecaceae)

Visit our Nursery!

We're at 5970 Kennedy Highway, Walkamin (between Mareeba and Atherton) on the Atherton Tablelands, north Queensland.

Business hours: Monday - Saturday 9am to 5pm, Sunday 9am to 2pm; closed public holidays.

Common name	Latin name	Description
Lipstick Plant	<i>Aeschynanthus lobbianus*</i>	A trailing plant, perfect for a hanging basket that blooms with orangey red flowers along the stems. Can be grown near a window indoors, or on a patio. In nature, it is an epiphytic plant, growing in tree forks etc. (Gesneriaceae)
Little John	<i>Callistemon "Little John"</i>	Small shrub with dense blue/green foliage and bright red flowers. Very hardy, but slow growing. Must have full sun. Suitable for most areas. (Myrtaceae)
Little Pal	<i>Lomandra "Little Pal"</i>	A small clumping grass with fine leaves and slightly weeping habit. Small cream flowers. Perfect for borders and rockeries. Quite hardy. Sun or part shade. (Asparagaceae)
Lockerbie Satinash	<i>Syzygium branderhorstii</i>	Small, slender understory tree from the rainforests of Cape York. Glossy foliage. Large clusters of fluffy white flowers borne profusely down the trunk, followed by showy red fruit. Excellent for a shady or semi-shaded spot. (Myrtaceae)
Lomatia Silky Oak	<i>Lomatia fraxinifolia</i>	Large shrub to small tree with very attractive compound leaves. Large spikes of white flowers and fantastic foliage. Beautiful tub plant. Must have protection from strong wind and dry air. (Proteaceae)
Lunasia	<i>Lunasia amara</i>	Small to medium shrub with narrow, upright form, and large, attractive, glossy leaves. An unusual plants which makes a terrific filler in a shady spot. (Rutaceae)
Madagascar Jasmine	<i>Stephanotis floribunda</i>	An attractive climber with glossy leaves and large, pure white flowers that have a delicious scent. They are often used in bridal bouquets. Great for screening off an unsightly area, or growing on archways. Full sun or part shade. (Asclepiadaceae)
Malaysian Orchid	<i>Medinilla myriantha</i>	Lush understory plant with showy pink flowers followed by vibrant purple berries. Attractive glossy foliage. Can be grown indoors. (Melastomataceae)
Mango Pine	<i>Barringtonia calypttrata</i>	Very handsome tree with large leaves and huge racemes of fluffy white flowers that attract birds. (Lecythidaceae)
Mangrove Lily	<i>Crinum pedunculatum*</i>	Large lily with very showy, perfumed flowers. Very hardy and suitable for wet sites. (Liliaceae)
Mat-Rush	<i>Lomandra hystrix</i>	Attractive clumping plant with stiff, dark green foliage. Does very well in semi-shade. Very hardy with perfumed flowers. (Asparagaceae)
Mauritius Hemp	<i>Furcraea foetida mediopicta*</i>	Thornless agave-like plant with attractive variegated leaves. Sun or part shade. Likes good drainage. Height to 1m. (Asparagaceae)
Mauve Mist	<i>Callistemon "Mauve Mist"</i>	Small to medium shrub with beautiful mauve bottlebrush flowers. Best in cooler climates (Myrtaceae)
Memecylon	<i>Memecylon pauciflorum</i>	Small, very hardy rainforest shrub with beautiful tiny lilac flowers. (Myrtaceae)
Midnight Beauty	<i>Ficus benjamina "Midnight Beauty"*</i>	A perfect specimen for bonsai or indoors. Dark leaved form of weeping fig. Will grow to a large shady tree if planted in the garden. Hardy and adaptable. Full sun to well lit indoors. (Moraceae)
Midyim	<i>Austromyrtus dulcis</i>	Small shrub with small pink flowers and edible fruit. Very hardy. Plant in full sun or semi-shade. (Myrtaceae)

Common name	Latin name	Description
Min-a-Min	<i>Murraya paniculata dwarf*</i>	A very dense, dwarf form of Mock Orange, great for edging. Can be pruned into all kinds of shapes, or left alone as a bushy blob. Best in full sun, but will grow in part shade. Scented white flowers. (Rutaceae)
Mini Mondo Grass	<i>Ophiopogon japonicus "nana"</i>	Neat, clumping grass to 75mm tall, useful as a border plant or between pavers or stepping stones, to create a softer look. Looks best in part to full shade. Quite hardy. (Asparagaceae)
Mint Bush	<i>Prostanthera phyllicifolia</i>	Very compact shrub. Dark narrow leaves with small mauve flowers, blooming over long periods in spring. Doesn't like overwatering. (Lamiaceae)
Mock Orange	<i>Murraya paniculata*</i>	Very dense medium shrub with glossy leaves and showy, fragrant white flowers. Perfect for screening off your neighbours! Sun or part shade. Hardy. (Rutaceae)
Moonlight	<i>Grevillea "Moonlight"*</i>	Tall shrub with cream flowers all year. Attracts birds. Hardy with good drainage and full sun. (Proteaceae)
Morgan	<i>Thuja orientalis "Morgan"*</i>	A very bushy dwarf conifer, perfect for tight spaces. Attractive lime green new growth. Slow growing to 80cm high. (Cupressaceae)
Mr Foster	<i>Callistemon "Mr. Foster"</i>	Hardy medium to large dense shrub. Red new growth. Large, bright red flowers that are very showy. Tolerates coastal conditions. (Myrtaceae)
Mt Garnet Tea Tree	<i>Melaleuca sp. Mt. Garnet</i>	Medium shrub. Bears masses of very showy cream pom-pom flowers twice a year. Hardy. Full sun. (Myrtaceae)
Mt Mulligan Satinash	<i>Syzygium sp. Mt Mulligan</i>	A rare plant. A large shrub or small tree with lovely dense bushy foliage and dainty pink new growth. (Myrtaceae)
Mt Spurgeon Pine	<i>Prumnopitys laeii*</i>	Very rare tree. Quite hardy. Beautiful fern-like foliage remains even when fully grown. (Podocarpaceae)
Mt Tozer Myrtle	<i>Babingtonia tozerensis</i>	Small dense shrub with dainty white flowers and lime green foliage. Quite hardy. (Myrtaceae)
Mt White Lime	<i>Citrus garrawayae*</i>	Finger lime from Cape York. Good bush tucker. Small, dense, bushy shrub with sausage-like lime-flavoured fruit suitable for making drinks. (Rutaceae)
Mt. Brockman Grevillea	<i>Grevillea formosa*</i>	Small, spreading shrub with silvery foliage and bright yellow flowers. Requires well drained position in full sun. (Proteaceae)
Mt. Tozer Penda	<i>Xanthostemon sp. Mt. Tozer</i>	Large shrub or small tree with rusty brown new growth. Mass of cream flowers. Very hardy (Myrtaceae)
Mulgrave Satinash	<i>Syzygium xerampelinum</i>	Small tree with weeping branches and beautiful purple/black new growth. Fairly hardy. (Myrtaceae)
Musa acuminata	Banana "Cavendish"	A popular variety of banana that produces very sizeable bunches of large fruit. This is the most common variety in the supermarket. A tropical clumping plant growing up to 4m high. Plant in a sunny spot away from wind. (Musaceae)

Common name	Latin name	Description
Red Selaginella	<i>Selaginella erythropus</i>	Very unusual fern-like plant with bright red stems and undersides of leaves. Grows to 30cm tall. Likes shade and moisture. Good indoor plant and popular in terrariums. (Selaginellaceae)
Red Silky Oak	<i>Carnarvonia montana</i>	Beautiful large shrub or small tree with unusual compound leaves. Fantastic foliage with very showy rusty brown new growth. Ideal tub plant. (Proteaceae)
Red Sunset	<i>Grevillea "Red Sunset"</i> **	Small to medium shrub with attractive red spider flowers. Does best in full sun and well drained position. Best in cooler climates. Usually frost resistant. (Proteaceae)
Reeves Pink	<i>Callistemon "Reeves Pink"</i>	Dense, medium shrub. Compact shape. Bright, lolly pink bottlebrush flowers in profusion. A hardy and very showy plant. (Myrtaceae)
Resilience	<i>Syzygium australe "Resilience"</i>	A psyllid resistant plant that grows approximately 3m high x 2m wide. Beautiful orange new growth with white flowers and red berries. A great screening plant. Plant in full sun or part shade. (Myrtaceae)
Rex Satinash	<i>Syzygium apodophyllum</i>	Beautiful foliage with spectacular deep red, purple or pink new growth. Small white flowers are followed by bright red fruit. Requires a humid protected position. A lovely tub or courtyard plant. (Myrtaceae)
Ristantia	<i>Ristantia waterhousei</i>	Very rare plant with beautiful pink/orange/red new growth. Large shrub or small tree. Quite hardy. Does best in full sun. (Myrtaceae)
River Cherry	<i>Syzygium tierneyanum</i>	Medium spreading tree with masses of fluffy cream flowers and white or red fruit. Dense foliage. Very hardy. Excellent screen. (Myrtaceae)
River Club Rush	<i>Schoenoplectus validus</i>	An attractive native reedy plant with bluey green foliage that grows well on the waters edge, or at a depth of up to 1m. Suitable for ponds, dams and creekside plantings. Full sun to part shade. Height up to 1.5m. (Cyperaceae)
Roaring Meg	<i>Tecomanthe</i> sp. Roaring Meg	Rare and spectacular North Queensland vine. Bears large clusters of very showy pink tubular flowers. Excellent for trellis or pergola. (Bignoniaceae)
Roaring Meg Ebony	<i>Diospyros</i> sp. Baird Logging Area	Handsome, compact low shrub with clusters of narrow dark green glossy leaves and conspicuous salmon new flushes. Slow growing. Best in part shade and damp soil. (Ebenaceae)
Robertson's Tuckeroo	<i>Rhysotoechia robertsonii</i>	Small fast growing tree with bright green foliage. Loads of bright orange fruit which are relished by birds. (Sapindaceae)
Robyn Gordon	<i>Grevillea "Robyn Gordon"</i> **	Small shrub. Very bushy with deep red flowers. Plant in well drained position in full sun. (Proteaceae)
Rock Cracker Fig	<i>Ficus platypoda</i>	Very hardy tree with small leaves and small rounded fruit. Attracts birds (Moraceae)
Rock Umbrella Tree	<i>Schefflera bracteata</i> (S. <i>versteegii</i>)	Rare umbrella tree from the Cape York Peninsula. Thick bright green leaflets held in a circle round the leaf-stalk. Brown scales on the leaf stalks and shoot tip. Huge panicles of pinkish flowers. (Araliaceae)
Rocky Rambler	<i>Callistemon "Rocky Rambler"</i>	Spreading prostrate plant. Prickly foliage. Bright red flowers. Needs full sun, open position. (Myrtaceae)

Common name	Latin name	Description
Rocky River Lilly-Pilly	<i>Syzygium luehmannii</i> Rocky River	Highly ornamental large shrub with brilliant pink/red weeping foliage, white flowers and red fruit. Water regularly. (Myrtaceae)
Rocky River Macrostelia	<i>Hibiscus macilwraithensis</i>	Small to medium shrub in the Hibiscus family. White flowers. Very hardy. Does best in part shade. Benefits from pruning. (Malvaceae)
Rocky River Red	<i>Callistemon viminalis</i> "Rocky River Red"	Medium to large shrub with blue/green foliage and bright red flowers. Does best in full sun but will flower in part shade. (Myrtaceae)
Roly-Poly Satinash	<i>Syzygium unipunctatum</i>	Small bushy tree with flushes of brilliant red new growth. Highly ornamental. Will tolerate moderate frosts. Best in high rainfall areas. (Myrtaceae)
Rose Butternut	<i>Blepharocarya involucrigera</i>	Tree with shiny leaves and red new growth. Flowers followed by woody umbrella shaped structures. Good timber. (Anacardiaceae)
Rose Opal	<i>Callistemon</i> "Rose Opal"	Small shrub. Deep red brushes which age to rose coloured. Plant in full sun for best results. Makes a good screen. (Myrtaceae)
Rose Satinash	<i>Syzygium johnsonii</i>	Small to medium tree with red/purple new growth. Fluffy white flowers and purple fruit. (Myrtaceae)
Rose Silky Oak	<i>Placospermum coriaceum</i>	Small tree with large spectacular leaves. Pink new growth. Pink flowers. Beautiful cabinet timber. (Proteaceae)
Rosemary Leaf Grevillea	<i>Grevillea rosmarinifolia</i> *	Small shrub with two toned red and yellow spider flowers. Must be in full sun and well drained position. Best in cooler climates. (Proteaceae)
Rough Maidenhair Fern	<i>Adiantum hispidulum</i>	Attractive maidenhair fern. Plant in a shady moist spot. (Adiantaceae)
Russell River Lime	<i>Citrus inodora</i> *	Shrubby tree with glossy leaves and spines on twigs. Edible oblong lime fruit up to 6.5 cm long and 3 cm diameter. Lowland rainforest plant, must be in shade with plenty of moisture. (Rutaceae)
Rusty Cleistanthus	<i>Cleistanthus semiopacus</i>	Medium weeping shrub with pink new growth. Hardy. A great screen. (Euphorbiaceae)
Rusty Laurel	<i>Cryptocarya mackinnoniana</i>	Tree with large stiff leaves and brilliant red drooping new growth. Fruit attracts birds. Food plant of Blue Triangle Butterfly. (Lauraceae)
Rusty Pittosporum	<i>Pittosporum ferrugineum</i>	Small tree with brownish leaves and clusters of cream flowers. Fruit yellow, which split to reveal bright orange seed. Very hardy. (Pittosporaceae)
Sabre Leaf Fig	<i>Ficus longifolia</i> binnendijkii	An attractive fig with glossy, long, thin leaves, lending an oriental look to the garden. Great an an indoor or patio plant. Sun or shade. (Moraceae)
Sago Palm	<i>Cycas revoluta</i> *	A popular, hardy cycad which grows a crown of shiny, dark green leaves atop a short, stout trunk, which develops after a number of years. Very architectural foliage. Native to Japan. The most common cycad in cultivation. Sun or part shade. (Cycadaceae)

Common name	Latin name	Description
Sambac Jasmine	<i>Jasminum sambac</i> *	Semi-climbing shrub with beautifully scented, white, rose like flowers which are used for perfumes and teas. Sun or shade. (Oleaceae)
Sandra Gordon	<i>Grevillea "Sandra Gordon"</i> **	Tall open shrub with masses of bright yellow flowers. Requires a well drained, open, sunny position. (Proteaceae)
Sankowskyia	<i>Sankowskyia stipularis</i>	Extremely rare plant from the Julatten area of Far North Queensland. Spectacular red new growth. Does best in semi-shade. (Authorised Propagators Qld.No. APQF198/000050) (Euphorbiaceae)
Sarsaparilla Vine	<i>Hardenbergia violacea</i>	Small vine with attractive bright purple flowers ideal for hanging basket or rockery. (Fabaceae)
Satin Touriga	<i>Calophyllum inophyllum</i>	Large, handsome spreading tree with large dark green leaves. Pretty white flowers and round green fruit. An excellent shade tree for beach areas. (Clusiaceae)
Satinwood	<i>Buchanania arborescens</i>	Bushy tree with large leaves like those of a mango. Small black fruit are very good to eat. Hardy. (Anacardiaceae)
Scarlet Bean	<i>Archidendron lucyi</i>	Small tree with large leaves and open habit. Beautiful fluffy white perfumed flowers borne on the branches. Extremely decorative orange seed pods. (Fabaceae)
Scarlet Fuchsia	<i>Graptophyllum excelsum</i>	Very hardy, small shrub with thick bushy habit. Masses of bright red flowers several times each year. (Acanthaceae)
Scarlet Gum	<i>Eucalyptus phoenicea</i> *	Small to medium tree with spectacular, bright orange flowers. Quite hardy. (Myrtaceae)
Sea Almond	<i>Terminalia catappa</i>	Attractive spreading tree with layered form and large leaves which assume autumn colour before shedding. Large fruit contain edible nuts. Ideal for beach plantings. (Combretaceae)
Sea Ebony	<i>Diospyros littorea</i>	Very slow growing shrub to small tree with glossy green leaves. Grows naturally on the coast, close to mangrove stands. Orange-yellow fruit attracts birds. Wood is very hard and beautiful. (Ebenaceae)
Shady Penda	<i>Xanthostemon umbrosus</i>	Large shrub or small spreading tree with clusters of fluffy cream flowers. Very hardy, but quite slow growing. (Myrtaceae)
Shore Juniper	<i>Juniperus conferta</i>	Dense, hardy groundcover that forms a carpet of green. Also used for bonsai. Full sun or part shade. (Cupressaceae)
Silky Oak	<i>Grevillea robusta</i>	Hardy tree with open habit and mass of orange flowers which attract birds. Excellent timber species. (Proteaceae)
Silky Tamarind	<i>Guioa lasioneura</i>	Large shrub or small tree with small compound leaves and flushes of pink new growth. Pink/purple decorative seed capsules. (Sapindaceae)
Silver Dollar	<i>Melaleuca "Silver Dollar"</i>	Large shrub/small tree from Cape York with attractive foliage and dense habit. Very hardy plant with cream/yellow flowers. Good for a wet spot. (Myrtaceae)

Common name	Latin name	Description
Silver Feather Grass	Miscanthus sinensis*	A clumping grass grown mainly for its graceful foliage and beautiful silver plumes of flowers. Can be used as a low screen or barrier. Height to 2m. Full sun. (Poaceae)
Silver Leafed Tea Tree	Leptospermum brachyandrum	Tall shrub to small tree with silvery new growth. The old bark peels off to reveal an attractive pink-purple trunk. (Myrtaceae)
Silver Maiden	Blechnum gibbum	An attractive fern growing a small stout trunk, like a dwarf tree fern. Great as a house plant or in filtered light in the garden. Keep moist and dig in organic matter. Fast growing; fronds can grow to 1m long. (Blechnaceae)
Silver Satinash	Syzygium argyropedicum	Extremely rare plant from Cape York. Small tree with red new growth. Masses of white flowers followed by purple berries. Slow growing. Hardy. (Myrtaceae)
Small Ginger	Alpinia modesta*	North QLD small compact rainforest ginger. Narrow dark green leaves. Great for a shady spot. (Zingiberaceae)
Smith's Tamarind	Diploglottis smithii	Small hardy tree with beautiful foliage and silvery new growth. Large decorative fruit with acid, edible flesh. Good for drinks. (Sapindaceae)
Smouldering Red	Corymbia ptychocarpa x ficifolia*	A show stopping small feature tree to 5m with large clusters of bright red flowers during summer, and attractive weeping foliage. Attracts birds. (Myrtaceae)
Snow Bells	Pandorea nervosa	Small vine with pure white flowers and delicate reddish foliage. (Bignoniaceae)
Snowfire	Melaleuca "Snowfire"	Small shrub. Thick and bushy with showy red new growth. Masses of white bottlebrush flowers in spring. Very hardy. (Myrtaceae)
Snowflake	Serissa foetida "Snowflake"	A bushy little shrub to 60cm high with variegated foliage and masses of small white flowers. Very neat, bun shaped plant, suitable for edging. Full sun to part shade. Also a great bonsai plant. (Rubiaceae)
Snowstorm	Melaleuca "Snowstorm"	Compact, small to medium shrub with lovely light green foliage. Masses of small white bottlebrush flowers in spring. Tip prune regularly to promote a good shape. (Myrtaceae)
Soft Leaved Yucca	Yucca desmetiana*	Low maintenance, drought tolerant plant with attractive unusual purple/pink/bluey foliage. Will form a clump once established. Height to 1.5m. Sun or part shade. (Asparagaceae)
Soft Rush	Juncus usitatus	Densely tufted rush with fine arching stems. Adapted for waterlogged soil, but also fairly drought tolerant. Thrives on dam margins. Also as architectural element in courtyard gardens. (Juncaceae)
Solitaire Palm	Ptychosperma elegans*	Tall slender palm with large, dark green fronds. Quite hardy. (Arecaceae)
Springtime Hawthorn	Rhaphiolepis "Springtime"**	A bushy shrub which blooms prolifically with light pink, fragrant flowers. Great as a hedge or a stand alone specimen. Height to 2m. Full sun or part shade. (Rosaceae)
Star Flower	Gardenia scabrella	Small, compact shrub from Cape York with stiff glossy leaves. Large white flowers all year round. Very hardy. Sun or semi-shade. (Rubiaceae)

Common name	Latin name	Description
Stumpy Dave	Graptophyllum "Stumpy Dave"	A hardy, small shrub. It bears masses of scarlet red fuchsia type flowers. It looks great in a tub, on a patio or in mass plantings on a garden edge. (Acanthaceae)
Sumac	Rhus taitensis	Fast growing, hardy tree with spectacular reddish brown new growth. Showy white flowers. (Anacardiaceae)
Sunkist	Ixora "Sunkist"	A dwarf Ixora, only growing to 50cm tall. Very bushy and gets covered in clusters of orange flowers, which attract butterflies. (Rubiaceae)
Supreme	Syzygium "Supreme"	Small to medium, dense, compact shrub. A small leafed shrub with masses of fluffy white flowers followed by red berries. A great hedging plant. Prefers sun, but will grow well in a little shade. Hardy. (Myrtaceae)
Swamp Banksia	Banksia robur*	Medium shrub with large stiff serrated leaves and green, changing to cream, flowers. Will tolerate damp situations. (Proteaceae)
Swamp Bloodwood	Corymbia ptychocarpa*	Small wide-branching tree with large glossy leaves, particularly in juvenile stage. Clusters of large white, pink or red flowers. Can flower when 3 to 4 years old. (Myrtaceae)
Swamp Orchid	Phaius tancarvilleae	Extremely rare ground-orchid with large spikes of spectacular flowers. Best planted in a damp, fairly sunny spot in the garden, however can be kept in a large container in a bush house. Authorised Propagator Qld. No. APQF198/000050. (Orchidaceae)
Swamp Tamarind	Dictyoneura obtusa	Slender small tree with purple new growth. Glossy serrated leaves. Fairly hardy. Thrives in a damp spot. (Sapindaceae)
Tamarillo	Solanum betaceum	Medium shrub in the tomato family, bearing clusters of red egg-shaped fruit with orange flesh, tasting a bit like a mix of passionfruit and tomato (it's nicer than it sounds!). Can be eaten fresh, stewed or used in desserts. (Solanaceae)
Tantoon	Leptospermum polygalifolium	Medium bushy shrub bearing masses of small white flowers in spring. Hardy and adaptable to most situations. (Myrtaceae)
The Bluff	Callistemon "The Bluff"	Medium shrub with dense foliage. Pink bottlebrush flowers fade to salmon, then cream. (Myrtaceae)
Tick Fern	Callipteris prolifera	Very attractive fern with large leaves to 1m long. Small plantlets develop along the leaf and look like ticks. Cold sensitive. (Athysaceae)
Tiger Grass	Thysanolaena maxima*	Looks like Bamboo, but isn't! Fast growing clumping grass, excellent for creating a thick screen to block out your neighbours. Full sun or part shade. (Poaceae)
Tinaroo Dazzler	Callistemon recurvus "Tinaroo Dazzler"	Medium weeping shrub with small leaves and bright red flowers. Very hardy. (Myrtaceae)
Tinkling Satinash	Syzygium alatoramulum	A beautiful bushy plant with lovely foliage and winged twigs. Exquisite pale purple new growth. Small white flowers and small purple fruit. Requires a humid, protected position. A lovely tub or courtyard plant. (Myrtaceae)
Tolga Range Hibbertia	Hibbertia sp. Tolga Range	Beautiful little ground cover plant growing about 20cm high and spreading about 1m across. Lovely foliage and yellow flowers. Sun or part shade. (Dilleniaceae)

Common name	Latin name	Description
Tuckeroo	<i>Cupaniopsis anacardioides</i>	Small to medium tree with bright red new growth. Showy display of orange fruit. Excellent shade tree. Very hardy. (Sapindaceae)
Tulip Sterculia	<i>Sterculia shillinglawii</i>	Small, slender tree with large hairy leaves. Unusual brown and red flowers. Bright orange pods with black seeds. Hardy. (Malvaceae)
Tulip Wood	<i>Harpullia pendula</i>	Small tree with attractive orange fruit. Suitable as a small shade tree. Quite hardy. (Sapindaceae)
Tully River Myrtle	<i>Backhousia enata</i>	Large shrub with attractive weeping habit. Small glossy leaves. Does well in the shade. Small white flowers. (Myrtaceae) (Myrtaceae)
Turf Lilly	<i>Liriope gigantum</i>	A dense, clumping strappy leaved plant with dark green foliage, bearing spikes of purple flowers in Summer, followed by bright purple berries. Great for borders or mass planted as a ground cover. Plant in shade or sun. (Asparagaceae)
Variegated Liriope	<i>Liriope muscari variegata</i>	Compact clumping lilly-like plant with attractive variegated foliage and spikes of bright purple flowers. Useful for difficult shady spots, such as under trees, however can tolerate sun as well. (Asparagaceae)
Variegated Red Muttonwood	<i>Myrsine subsessilis variegated</i>	Shrub with attractive red new growth and thick glossy leaves. Masses of small white flowers cover the branches. Purple fruit, attracts birds. Does best in semi-shade. (Myrsinaceae)
Velvet Plectranthus	<i>Plectranthus sp.</i>	Small herbaceous shrub with flowers that are attractive to native bees. Soft foliage is strongly scented. Does best in full sun or dappled light in well drained soil. (Lamiaceae)
Velvet Tamarind	<i>Cupaniopsis diploglottoides</i>	A beautiful shrub growing 2-5m, with large compound leaves and stunning pink new growth. A little touchy to establish, needing extra water and protection at first, but well worth the effort. Shade or semi-shade. Sapindaceae. (Sapindaceae)
Vic Stockwell's Puzzle	<i>Stockwellia quadrifida*</i>	Very rare tree with spectacular bright red to pink new growth. Fairly hardy. (Myrtaceae)
Water Cherry	<i>Syzygium aqueum</i>	This is the very rare variety of native water cherry from Cape York Peninsula. Medium to large shrub, showy white flowers and highly decorative red fruit. (Myrtaceae)
Water Snowflake	<i>Nymphoides indica*</i>	Dense native floating lilly with small white fringed flowers. One of the easiest "water lillies" to grow. Will only grow in water shallower than 2m. (Menyanthaceae)
Waterfall Plant	<i>Phyllanthus multiflorus*</i>	A small weeping shrub to 1m tall, with fern like foliage and a spreading habit. Great as a low hedge, or to cascade down rockeries or over retaining walls. Full sun to part shade. (Phyllanthaceae)
Watery Fig	<i>Ficus fraseri</i>	Extremely hardy, large shrub with sand-papery leaves. Small red fruit are very attractive to birds. Suitable for full sun or semi-shade (Moraceae)
Wax Flower	<i>Hoya australis subsp. australis</i>	A hardy climber bearing masses of white perfumed flowers. May be planted in the garden, but especially suited to hanging baskets. (Asclepiadaceae)
Weeping Cleistanthus	<i>Cleistanthus apodus</i>	Medium weeping shrub with beautiful pink new growth. Hardy. A great screen. (Euphorbiaceae)

Common name	Latin name	Description
Weeping Fig	<i>Ficus benjamina</i>	Large spreading tree suitable as a shade tree. Small red fruit which are very attractive to birds. Ideal tub plant. (Moraceae)
Weeping Lilly-Pilly	<i>Syzygium floribundum</i>	Small to medium tree with dense, weeping foliage. Small white flowers. Fairly hardy. (Myrtaceae)
Weeping Tea Tree	<i>Leptospermum madidum</i>	Large shrub with extremely attractive weeping form. Beautiful lime green foliage and a stunning smooth white trunk. Best in warm, wet climates. Must have lots of water. (Myrtaceae)
Weevil Lily	<i>Curculigo recurvata*</i>	A short, stout herbaceous plant with a lily-like or palm-like appearance. Broad strap-like leaves. Flowers on erect heads. (Hypoxidaceae)
Wenlock Gardenia	<i>Gardenia macgillivraei</i>	Medium to large shrub with large, perfumed, white flowers. Very hardy. Sun or semi-shade (Rubiaceae)
Western Glory	<i>Callistemon "Western Glory"</i>	A medium upright shrub with dark red-mauve bottlebrush flowers. Must be grown in full sun. A hardy shrub, but flowers best in cool climates. (Myrtaceae)
Wheel Of Fire	<i>Stenocarpus sinuatus</i>	Tree with large stiff lobed leaves and bright red flowers. Very hardy and fairly fast growing. A highly ornamental tree. (Proteaceae)
White Anzac	<i>Callistemon "White Anzac"</i>	Small shrub. Bright green foliage with white flowers that attract birds. (Myrtaceae)
White Apple	<i>Syzygium forte</i> subsp. <i>forte</i>	Hardy tree with bronze papery bark and dense, dark green crown. Large white flowers and edible white fruit. An excellent medium-sized shade tree. (Myrtaceae)
White Bauhinia	<i>Lysiphyllum hookeri</i>	Tree with white or cream flowers followed by green, brown or black seed pots. (Fabaceae)
White Bird of Paradise	<i>Strelitzia nicolai*</i>	Tropical plant with architectural foliage, forming a large clump up to 6m tall. Bears very big, white, nectar rich flowers, which attract honey eaters. (Strelitziaceae)
White Bollygum	<i>Neolitsea dealbata</i>	Bushy small tree. Furry pink new growth. Fruit attracts birds. Food plant of Blue Triangle Butterfly. (Lauraceae)
White Croton	<i>Croton phebalioides</i>	Lovely small shrub. Attractive narrow foliage. Quite hardy. Grow in full sun or semi shade. (Euphorbiaceae)
White Lace	<i>Melaleuca "White Lace"</i>	Tiny shrub with fluffy white flowers. Ideal as an edge plant for rockeries. Must be grown in full sun. (Myrtaceae)
White Philippine Ground Orchid	<i>Spathoglottis plicata*</i>	Small, dainty ground orchid with pleated leaves and white flowers held above the foliage. (Orchidaceae)
Whyanbeelia	<i>Whyanbeelia terrae-reginae</i>	Large shrub to small tree with dense habit and slightly weeping foliage. A very rare plant. Fast growing, but requires plenty of moisture. Best suited to high rainfall areas. (Euphorbiaceae)

Common name	Latin name	Description
Wild River	Callistemon "Wild River"	Dense shrub. Lovely fresh green foliage and red flowers. Plant in open sunny spot. Good screen. (Myrtaceae)
Wilderness White	Callistemon "Wilderness White"	Medium shrub with attractive pale green foliage. Large spikes of creamy white flowers for most of the year. For full sun or part shade. Suitable for most areas. (Myrtaceae)
Wildfire	Callistemon "Wildfire"	Medium shrub. Dense foliage and large bright red flowers. Does best in full sun. Makes a good screen. (Myrtaceae)
Wilkie's Eucryphia	Eucryphia wilkiei*	A very rare shrub from very high altitude NQ rainforests. Unusual greyish foliage and large, white, rose-like flowers with an unusual fragrance that are very attractive to birds. Suited to high rainfall areas. \$15.00 (Cunoniaceae)
Winparra Gem	Grevillea "Winparra Gem"	Small shrub. Red spider flowers. Must be in full sun and well drained position. Tolerates frost and cold winters. Best in cooler climates. Ideal for Herberton to Ravenshoe. (Proteaceae)
Wooroonooran Tea Tree	Leptospermum wooroonooran	Plant from top of Mt Bellenden Ker. Medium compact shrub in cultivation with attractive foliage. Best in high rainfall areas. (Myrtaceae)
Wynyabbie Gem	Westringia "Wynyabbie Gem"	Fast growing dense shrub. Grey leaves and purple flowers. Plant in full sun in well drained soil. Prune to shape. (Lamiaceae)
Xanadu	Philodendron "Xanadu"	Very popular tropical plant with lobed, fleshy leaves. Looks very effective planted en masse, or as a patio plant. Full sun or semi-shade. (Araceae)
Yarrabah Satinash	Syzygium angophoroides	Hardy, fast growing medium tree with bushy habit. Masses of white flowers and tiny purple fruit. Can be grown in a wet spot. An excellent plant for fruit-eating birds. (Myrtaceae)
Yellow Flame Tree	Peltophorum pterocarpum	Medium tree with dense spreading crown and masses of yellow flowers. Very hardy. Shade tree. (Fabaceae)
Yellow Flowered Tea-Tree	Neofabricia myrtifolia	Small shrub. Attractive, large yellow flowers. Beautiful pink to red new growth. Quite hardy. (Myrtaceae)
Yellow Kangaroo Paw	Anigozanthos "Yellow"	A beautiful yellow clumping Kangaroo Paw that goes well in North QLD. Grows up to 2m. (Haemodoraceae)
Yellow Mahogany	Dysoxylum parasiticum	This Yellow Mahogany produces beautiful creamy-brown flowers on the trunk right to the ground. Unless planted in high rainfall area it will remain a size of a large shrub. (Meliaceae)
Yellow Malay	Ixora "Yellow Malay"	Bushy shrub to 1.5m tall, bearing large clusters of yellow flowers throughout the year, which butterflies love to feed on. Best in full sun. Hardy and easy to grow. (Rubiaceae)
Yellow Penda	Ristantia pachysperma	Rare tree with long, soft leaves which are pinkish/brown in the new growth. Fairly hardy. (Myrtaceae)
Yellow Poinciana	Delonix regia var. flavida*	Large, spreading tree which bears a flamboyant show of bright yellow flowers during summer. Much less common than the Red Poinciana. Deciduous during dry periods. (Fabaceae)
